ROOSEVELT IS KILLED IN AFRICA, IS REPORT

Absolute Denial is Given to Rumor By Highest of Authority

NO NEWS OF MISHAP COMES OVER CABLES

Fatality or Even Accident in Distinguished Party is Not Believed

WASHINGTON, Nov 5.—There is a rumor that Theodore Roosevelt has been killed in Africa, and the report appears to be widespread over the country, but diligent search here fails to discover the slightest foundation for it.

Confidential information from a source whose reliability cannot be questioned was obtained here today, making it apparently absolutely certain that no tidings of any mishap to Roosevelt had reached this country by any of the foreign cables.

This seems to establish the fact that the rumor is without foundation.

Inquiries from many parts of the country make it evident that the rumor is widespread.

Bank Cashier Files Amended Petition: His Charges Are Sensational

SAN FRANCISCO, Nov. 5.—Bristling with sensational charges of cruelty and ... with allegations of threats to kill ... nightly wrangles and struggles in ... home in the most fashionable district of the city, an amended complaint has been filed by William J. Watson ... for the First National Bank, who is suing for a divorce from his wife Genevieve Watson.

... suit was begun on ... [illegible] ... sets forth in glowing terms and in melodramatic language the exact extent of the inhuman treatment alleged to have been accorded the unhappy husband.

The Watsons, who were wedded in 1906, took up their residence at 2032 Pierce street. After they had been married ... three months Watson asserts he was awakened one night by his inability to breathe and found his wife's fingers ... about his throat. ... [illegible]

Mrs. Watson was well known socially ... her marriage and the somewhat sensational complaint is expected to be only the forerunner of a remarkable court proceeding.

Before her marriage Mrs. Watson was ... Peters and comes of a wealthy ... family. That she is particular ... to an extreme in connection with ... is shown by the fact that when her husband ... passes ... on the ... ... claim made by her husband is that she interfered with his business and humiliated him greatly by telephoning to the cashier of his bank and complaining against him.

The Watsons were married April 2, 1906, Mrs. Watson being Miss Genevieve Peters of Marin county, a wealthy ... well known in Ross and San Rafael. The wedding was attended with ... lavishness, no money being spared ... The ... of Mrs. Watson ... artists ... [illegible] ... at the time would have stocked an art store.

At one time, so Watson avers, the young wife's strenuous feelings became so wrought up that he was forced to seek the protection of the home of his ... but even so the former ... followed him ... lashing him with her tongue unmercifully in the presence of the horrified relatives ... threatening him with instant bodily harm unless the now thoroughly shocked husband should return with her at once. That night he lay awake in terror stricken fear lest the young woman should succeed in her threat "to get" him then and there.

According to Watson's complaint, his wife refused to permit him to associate with his relatives, saying she despised them, and if he continued to show regard for them or interest in them she would get him into trouble.

During March of this year affairs had come to such a climax that existence beneath the same roof became intolerable, and they agreed to separate and live apart.

TWO BERKELEY POLICEMEN THRASHED, JAILED

College Town Sergeant and Patrolman Meet Waterloo in Set-to

OAKLAND OFFICER USES CLUB IN BLOODY BATTLE

Bent on "Good Time," Visitors Hit Woman and Fight Against Arrest

As the result of an after midnight carousal, Sergeant of Police Daniel H. Fraser and Patrolman R. C. Humphries, both of Berkeley, were beaten into submission in the early hours of the morning by Policeman McCready of the Oakland force and Deputy Sheriff Charles Kohl and landed in the city prison on a charge of drunkenness and resisting an officer.

The Berkeley policemen were not taken into custody, however, without making a desperate fight in which the ... came out second best. Both of the visiting officers when the melee was over were taken to the Receiving hospital where Sergeant Fraser had four scalp wounds and two contusions treated and Patrolman Humphries had three scalp wounds dressed. The injuries ... the regulation policeman's club.

OUT FOR GAY TIME

The incidents leading up to the ... battle between the Berkeley police officers and the Oakland officers were that Fraser and Humphries came in from Berkeley early in the evening to make a night of it. They visited various saloons finally winding up at a cafe at the corner of Second and Jackson streets. Here they met two women, Tiggy Atwood and Belle Smyth, who joined them in drinking and singing.

The two couples about 1 o'clock in the morning left the cafe and started to walk up Broadway. The Atwood woman declares that Fraser attempted to ... her accompany him and she refused. As a result she says she was struck in the face. She immediately left him and encountered Policeman McCready. He says he saw the blow struck but was not sure whether the woman had been hit or not.

He asked her what the matter was. She was crying and said that the man in whose company she was had struck her.

VICIOUS FIGHT FOLLOWS

McCready overtook Fraser at the corner of Sixth and Broadway. He called upon the Berkeley policeman to stop but got no answer. The other woman of the party took Fraser by the arm and attempted to lead him forward. McCready says he called on the Berkeley man to stop a second time but to no effect.

The Oakland police officer then went forward and put his hand on Fraser's shoulder. Quick as a flash Fraser turned and struck McCready a stunning blow in the face nearly felling him.

McCready says he squared off and saw Fraser reach for his revolver. McCready thrust his hand under his coat for his own gun but his hand touched his club instead. He whipped it out and before the Berkeley man had time to draw his weapon struck him over the head several times knocking him down.

While on the sidewalk Fraser declared he was a police officer.

"I don't know who you are," replied McCready getting his handcuffs ready.

The manacles were slipped on the

DE LAVEAGA WILL CONTEST IS FEUD

Rival Sections of Family Never Pass Sign of Recognition in Court

SAN FRANCISCO, Nov. 5.—With the bitterness of a family feud of the ... De Laveaga will contest which ... reason of recent revelations has become in a measure sensational, is proceeding rather slowly before Probate Judge Coffey. The spectacle of a sister and a brother being arrayed against one another, the former who has thus far been the only one of the family forced into the limelight indulging in quiet sarcasm and stinging implications as she sits upon the witness stand, is in many ways a sad one.

FEUD A BITTER ONE

Mrs. Juan Cebrian, the sister and heir to the millions of Maria Concepcion de Laveaga, has been worn out by the persistent cross-questioning of Attorney Pillsbury, representing Miguel de Laveaga who was cut off with a paltry $5,000. As they sit in the court room one family on one side and another on the other, cousins looking neither to the right nor the left as they pass and other relatives maintaining a strict preference in one direction or another, truly the feud is a bitter one.

SNAPPY ANSWERS

When Mrs. Cebrian was questioned this morning as to whether her brother Vincent had been friendly with Miguel she replied testily:

"Why don't you ask Miguel? He knows better than I," and then again complaining of counsel's method, she cried: "He puts the question one time one way and one time another. It's the same thing over again."

"That's a reasonable question, your honor," said her examiner, and evidently the court took the same view for a few moments later he repeated it, receiving a negative answer.

A description of the relative position of the rooms in the Cebrian house and a further examination regarding the will and testament left by Maria Concepcion while she resided there formed the important portion of the morning testimony.

She just said: "Here is my last will and testament. Look where I have signed it," declared Mrs. Cebrian as she told how she had been summoned from the dining-room to her sister's bedroom to receive the document.

Yee Clan Starts Retaliatory Tactics for Murder of Two Kinsmen

SAN FRANCISCO, Nov. 5.—Ah Toe and Gam You, the two alleged highbinders who were taken into custody last night suspected of being responsible for the recent tong war assassinations, were charged with murder and booked at the city prison this afternoon. The warrants against them are sworn to by Yee Furi, a well known Chinese merchant, and he and Yee Ding positively identify them as being the men who fired the shots that killed Yee Quan Wo in Chinatown on Tuesday night.

It is alleged that Gam You fired the first shot and that Ah Joe followed immediately with a second, that both are equally responsible and both fled with smoking revolvers in separate directions after doing their deadly work.

As the result of the murders of Yee Quon Wo in this city and Yee Kee in Oakland, the Yee family has placed a reward of $1000 on the head of the president and $500 on the head of each of the gun men of the On Yick tong. According to the story of the detectives who are working on the murders the Yee family accuse the members of the On Yicks of the shooting both here and in Oakland.

OVER SLAVE GIRL.

The Yee family claimed Bogue, the Chinese slave girl who was rescued in Santa Barbara some time ago, and it is said that the members being without fighting men, hired the On Yicks to recapture her. The On Yicks demanded $1800 for this service, and when it was not forthcoming the Yees declare that two members of their family were made victims of the guns of the fighting men of the tong.

Ah Jo and Gan You, now in police toils, are charged with murder, but the detectives admit that the only evidence against them is the fact that they are known to be members of the On Yicks and were found wandering about the Chinese quarter heavily armed.

CHINESE PLEAD GUILTY

SAN FRANCISCO, Nov. 5.—Loy Yee and Louis Wee, accused of burglarizing the store of Ju Foon, known as the Regent Grill, 566 Sutter street, pleaded guilty before Superior Judge Dunne this morning. The Chinese secured a quantity of silverware.

CONFESSES TO CONCEALING JEWELS OF LOVERS

Hides Gifts to Prevent Her Daughter of Learning of Sweetheart

JUDGE COMPELS WIDOW TO ANSWER QUESTIONS

Witness Explains Why She Accused Others of Fearful Crimes

PARIS, Nov. 5.—At one time, when Mme. Steinheil declared that Couillard had lied, the judge interrupted sharply with the exclamation: "But you also lied."

At this M. Aubin sprang to his feet and protested against the remark of the court. Judge De Valles retorted:

"I am justified in saying the accused has never ceased to lie concerning this affair. Her stories are tissues of lies."

Mme. Steinheil had a brief respite during the afternoon, her examination being suspended while the first depositions were read. These embraced a description of the house following the crime. When her examination was resumed the accused woman described an ordeal to which she had been subjected, she said, for four hours. During that time, she declared, two French journalists had tortured her into denouncing Wolf by telling her she was about to be arrested.

Before she had finished this recital Mme. Steinheil broke down under cross-examination and was led fainting from the courtroom.

PARIS, Nov. 5.—Weeping copiously, abjectly cringing before the terrific grilling to which she was subjected by Judge de Valles, begging that her interrogator be more merciful in his questioning and declaring between sobs that in her hour of misfortune every friend had deserted her, Mme. Steinheil, on trial for the murder of her husband and her mother-in-law, Mme. Japy, today lost every particle of the wonderful composure which she had retained since the commencement of her trial and for a time it was feared she would faint upon the witness stand.

"Every friend—society women who have come to my house—men friends who stand high in the affairs of France and who have assured me that they would stand true to me in this fearful ordeal have deserted me," declared Mme. Steinheil in an appeal to the jury to believe in her innocence.

The breakdown of the woman came as a sequel to a rapid fire of merciless questioning by Judge de Valles, in which he had made Mme. Steinheil tell conflicting stories of events which preceded the murder.

First, the woman turned her back spitefully upon the jurist and refused to answer queries which he had put to her.

When the court insisted that she make reply to the interrogations the woman gave way. For more than ten minutes she wept with great shaking sobs.

Then gaining partly the composure which she had retained through the first two days of the trial she turned to the judge and declared she was ready to answer all questions.

HID GIFT JEWELS.

Judge de Valles pursuing his interrogations relentlessly. Gradually he pinned Mme. Steinheil down to an admission that she had concealed jewels which she had at first declared were stolen but which she later admitted were gifts from one of her lovers. She declared she had hid the jewels to keep her daughter from learning that they were gifts from the lover and that she was guilty of liasons with other men.

The admission that she had hidden the jewels to keep the knowledge that they were gifts from her lover from her daughter came after the woman had turned her back spitefully upon the judge. Between clenched teeth Mme. Steinheil admitted that the secrecy she maintained was to hide her own marital duplicity from her offspring.

Several times during the morning session of court did the woman break down and appeal abjectly to the jury to believe in her innocence. It was after a

NO BAGGAGE ON TEN CENT FARE

Oaklander's Complaint Causes Investigation by Board of Railroad Commissioners

SAN FRANCISCO, Nov. 5. — Testimony of an important nature was received before the board of railroad commissioners at their regular session this morning in connection with the rule adopted by the Southern Pacific company, refusing to check baggage on ten cent tickets between this city and Alameda county.

L. Ernest Phillips, a resident of Oakland, had been refused permission to check a trunk on a ten cent ticket and brought the action to the attention of the board.

PRIVILEGES ABUSED.

Attorney C. W. Denbrow appeared for the company and questioned F. E. Butters, one of the officials of the passenger department, who testified that at the time of the recent enactment of the Wright law the railroad officials had locked into all tariffs. They discovered that various express men and transportation companies had been abusing the baggage privilege and sending trunks between points in Alameda county and this city with ten cent coupons which they later resold, taking the baggage to and from the houses of their customers by express wagons on each end.

CALLED A HALT.

This got to be such a thriving business and the railroad company was forced to handle such an enormous amount of freight checked in this way that they were forced to call a halt. Butters added that they were now selling a ticket at an advanced rate over the ten cent commuters' rate, which would allow for the checking of trunks and other baggage.

All of the members of the commission, A. C. Irwin, H. D. Loveland and Theodore Summerland, were present as was also W. D. Wagner, secretary. The commission took under advisement their decision over the controversy and expect to conduct some further investigations in the same connection.

They went, he claims, to a lodging house in the 500 block on Seventh street and a game of bocci was proposed. After playing for a great while, all of his money was won away from him and he decided that he had been the victim of sharpers. He accordingly reported the affair to the police this morning.

TAFT SMILES AT SECOND TERM CRY

President Says He Welcomes and Appreciates This Demonstration of Good Fellowship

SAVANNAH, Ga., Nov. 5.—President Taft slept late today and delayed by nearly an hour the start of the program of sight seeing arranged for his last day in Savannah. The President left at 2 o'clock this afternoon for Charleston.

The Gordon residence, where the President stopped during his stay here, was guarded throughout the night by a detachment of police and while Taft slept this morning the line of traffic was turned down other thoroughfares.

ILLUMINATED PARADE.

It was well after dark when President Taft reached the city last night to participate in a parade illuminated with torches and a searchlight placed on one of the tall buildings.

After breakfast at the Gordon residence, the President boarded the revenue cutter Yamacraw for an hour's sail on the river.

CRIES OF 'SECOND TERM.'

Taft made a happy speech at the banquet given in his honor. He was the last on the long program. At one time during his speech there were cries of "second term" and the old Cleveland yell of "four years more." The President said he had heard the same friendly expressions from one audience in the District of Columbia.

"Therefore," he added, amid laughter, "I accept such a demonstration as an evidence of profound good fellows up and welcome and appreciate it."

The President made a great hit with his audience by referring to "Ty" Cobb, the famous baseman of the Detroit American League baseball team, as one of the distinguished citizens of Georgia.

CHRYSANTHEMUM PLANT CARRIES 1000 BLOOMS

NEW YORK, Nov. 5.—Samuel Untermeyer, the well-known lawyer, has been awarded the prize by the Horticultural society for a single chrysanthemum plant five feet in diameter, three feet in circumference and bearing more than 1000 large and perfect blooms.

The judges of the society's annual exhibition declare it to be the most perfect specimen ever shown in this country.

ALDRICH ON WAY TO INVADE WEST

"Don't Know Whether it Is Enemy's Country or Not," He Says

PHILADELPHIA, Nov. 4.—"Enemy's country?" queried Senator Aldrich, in answer to an inquiry addressed to him as he passed through this city today on his way to the Middle West, where he is to deliver a series on the speeches on legislation.

"I don't know that there is an enemy's country. I am going west to find out. We are beginning a great undertaking in connection with our financial system and all of our ninety millions of people are interested.

"I want to ascertain the sentiment of the entire country, of the west as well as of the east. I go to learn rather than to teach, or rather, I should say, to cultivate a friendly relationship.

IN SPECIAL CAR.

"I want the people generally to know what our aims are, to be intelligent about our work and to be prepared to co-operate with us. I hope and believe we shall not find an enemy's country." Attached to the Chicago special on the Pennsylvania railroad from New York was the special car carrying Senator Aldrich, who is just beginning his long promised tour of the west as chairman of the monetary committee.

The senator has found it necessary to decline invitations from some political organizations. Several have been received, including one from the Hamilton Club of Chicago. He takes the position that as the tour is of a purely business and official nature, he should not permit it to deviate in any way from that character.

"STRANGLER STORY" MAN IS UNKNOWN IN TROY

TROY, N. Y., Nov. 5.—F. T. Williams, who made an offer to a Denver newspaper yesterday to give information concerning the person who committed the strangler crimes in that city in 1891, is not known here although he requested that a reply be sent to him in care of a Troy man.

Charles Boatwell of this city received a telegram for Williams, but as he did not know Williams he returned it to the Postal Telegraph company. Although Williams is said to have given his residence as Troy, it is said, he has not yet been located in the city.

'NOT YET---NOR SOON,' DECLARES MISS BURKE

Pretty Actress Denies Engagement--But Refuses to Be Interviewed

MYSTERY MARKS SUIT OF YOUNG COLLEGIAN

Breakfasts With Westcott--Latter Still Pursues Star of "Love Watches"

PORTLAND, Nov. 4.—Oakland Tribune: Rumors of engagement untrue. Please deny emphatically.

BILLY BURKE.

Miss Billie Burke, the actress, denies that she is to wed Lee Burdette Westcott, the young University of California student who has been her constant shadow since she concluded her engagement at the Macdonough Theater in this city.

Last night the youthful actress, who has been credited with an undue amount of charm, arrived in Portland with a couple of maids, a fond mamma, Miss Mildred Bartlett, her niece and her 12-year-old ward, Cherida Watson. When she reached the lobby of the hotel where she is stopping she was primed for a half-dozen defenseless newspaper men who met her at the door.

"No, of course I am not engaged, and furthermore I am not thinking of being," she snapped, surveying the circle with wrathful eyes. Miss Burke does snap occasionally, and at those times she is not quite as charming as when she smiles. Then she swept into the elevator with a fine air of disdain.

Just one hour later young Westcott arrived. Again things assumed the complicated atmosphere which has distinguished Miss Burke's heart affairs for the past two weeks. Young Westcott, though not 22, has learned of the wiles of the journalistic clan. He refused to talk.

The affair begins to assume the character of that of two kiddies caught in mischief, both holding out with the aid of a chubby thumb stuck in two sticky little mouths, that "They won't tell ever, so there."

SHY OF REPORTERS.

In San Francisco it is almost positively known that when Mr. and Mrs. Robert J. Hancock, the parents of the enamored youth, left their beautiful Sacramento street home a day or so ago, bound for Portland, it was with the intention of announcing the engagement in the northern city. So far this expected denouement, which was first printed in the columns of THE TRIBUNE, has not been forthcoming.

Whether contracts stand in the way of the happy course of love, or whether the elusive Miss Burke "just can't make up her mind" is not known, though both are suggested as possible explanations. In Portland this morning the actress would not say a word.

"Mr. Fiolman objects," declared her manager, Victor E. de Kiraly. "He says no interviews just now. Miss Burke is not engaged to Westcott. She is young, just twenty-three years old, you know, and it is to be expected that she would seek the company of the young. But there are eight or ten other young men whose names could be linked with that of Miss Burke with as much reason as Westcott's. But engaged—not at all—merely good friends."

DINES WITH WESTCOTT.

Miss Burke could not be seen. She breakfasted with the young Californian fresh air who had followed her here at the Portland hotel, spent a part of the morning with him and, whatever her acquaintance may be with Westcott it is apparent that if he is a mere friend the friendship is well advanced. Westcott was registered at the Portland hotel, but refused to be interviewed. "I have nothing to say," he replied curtly to the reporter who followed him to his room.

Later Miss Burke was communicated with by telephone in her suite. "I don't want to be interviewed," she said, and hung up without further ado. Mrs. Hancock was equally uncommunicative, nor would Miss Bartlett talk.

DEATH HALTS TRIP TO SIDE OF WIFE

Dying Man Fearing End Starts For Home But Suddenly Collapses

Feeling the cold presence of approaching death upon him, and anxious to see once more his wife and children before the end, Gustave Engstrom, a real estate dealer who has for several weeks been confined to his bed in the last stages of tuberculosis, left his rooms at 1927 Chestnut street last night, and entering an automobile in a dying condition ordered that he be taken to the Sixteenth street depot. He intended it is said, to board the train for Phoenix.

He waited too long, however, and before the automobile started he collapsed, and when carried back into the house he was dead.

Engstrom was forty-four years of age. He leaves a widow and several children in Phoenix.

The remains were taken in charge by the coroner, and will be shipped to the home of the deceased in Arizona.

Town Without Burial Ground Fights Effort To Inter Man There

LEBEAU, S. D., Nov. 5.—In an indignation meeting yesterday leading citizens protested against the burial in or near this city of the body of L. T. Perkins, 50 years old, who was killed about two miles out of town Wednesday when his automobile turned turtle.

This town has no graveyard, and doesn't want any.

Public spirited citizens, immediately Perkins' body was taken from beneath the machine, began contributing toward a fund to send it post haste to Mellette, S. D., 140 miles east on the Minneapolis and St. Louis road, to the nearest undertaker. This action was halted by the unexpected arrival of a Mellette undertaker to dress the body.

This is the first time an embalmer has tried to operate in Lebeau. It is taken to mean that relatives living near Athens, Tex., will try to inter Perkins' body here, mount a headstone on the spotless Dakota plain and create a graveyard.

This is the first death in or near Lebeau during its fifty years as a town. Inasmuch as the accident occurred two miles from town, the municipal record is yet clear and the rights of Perkins' relatives to bury his body within the corporate limits is questioned.

SLOW DIGESTION

A Frequent Form of Stomach Trouble Readily Cured by Stuart's Dyspepsia Tablets

This complaint constitutes one of the most common forms of dyspepsia. It is the bane of those who ignore natural laws, and forget that the healthy action of the stomach is dependent on the condition of both body and mind. Those pursuits oblige them to pass much of their time within doors; men of letters, and of business, whose minds are seldom perfectly relaxed; administrators, speculators, financiers, and the various professional men fall ready victims to it.

Slow digestion occurs in persons of all temperaments and habits, but oftenest in those of irritable, or nervous disposition, and anxious aspect of countenance, who are popularly characterized as "dyspeptic looking." Eating too rapidly is a common, exciting cause of the disorder, as is also imperfect mastication of food from loss of teeth.

There is also a deficiency of the gastric juices, and an insufficiency of the motor and muscular, or churning movements of the stomach walls, and the food remains entirely too long in this organ, instead of being passed down into the small intestine at the proper time.

Even a dinner not exceeding the ordinary limits is followed at varying intervals, but usually within an hour, by a feeling of weight and oppression in the stomach. For several hours afterward the person experiences decided discomfort, and should even a light supper be taken, horrible night-mare and troubled dreams are certain to result.

"I should be quite well, if it were not necessary to eat," is a common statement made by sufferers from this form of stomach complaint. Many of them naturally dread the approach of meal time, knowing what disagreeable symptoms they are sure to experience after eating; and would doubtless discontinue the ingestion of food into their stomachs altogether if it were possible to live without eating.

There is really no necessity whatever for depriving one's self of the pleasures of the table, or to starve the rest of the system because the stomach is derelict in its duty, and does not digest the food as quickly or as thoroughly as it should.

Stuart's Dyspepsia Tablets compel the stomach to perform its functions properly and assist it very materially in the discharge of its duties, a single grain of the principal digestive ingredient of these tablets being sufficient to digest 3,000 grains of food. They not only digest the food, however, but also tone up and strengthen the peptic glands, and the motor functions, so that the food will not remain in the stomach longer than necessary. Every case of slow digestion and all other forms of dyspepsia are readily curable by the use of these tablets, which make up the gastric deficiency, and supply the disordered stomach with exactly the same digestive juices that are found in a healthy, vigorous stomach.

Purchase a package of these wonderful digestors from your druggist today for 50 cents and cure yourself of your dyspepsia. Send us your name and address, and we will forward you a sample package free. Address, F. A. Stuart Company, 150 Stuart Building, Marshall, Mich.

SYRIAN RIGHTS TO BECOME CITIZEN

Superior Judge Decides a Case That Will Be Appealed

LOS ANGELES, Nov. 5.—The right of a native Syrian to become a full fledged citizen of the United States was upheld by Judge Hutton in the Superior Court of Los Angeles county today against the efforts of the federal authorities. The court also ruled that a Syrian was not a Mongolian, but of the semitic or aryan white race, and hence could not be barred from citizenship.

The federal attorneys cited numerous authorities and put upon the witness stand several ethnological experts in an effort to prove that George Shishhim, a native of Syrian, born in Lebanon, was of the Mongolian race and must be classed with the Japanese and other Orientals who are refused the right of citizenship.

The government will appeal the decision to the federal courts. It is reported that the authorities were anxious to win a decision on this point and erect a citizenship bar against the Syrians and similar races to prove to Japan that the law against Mongolians was not a discrimination against the Japanese.

It was sought to show that Shishhim owed allegiance to Turkey and hence should be classed as a Mongolian. More than fifty of Shishhim's countrymen were in the courtroom when the decision was rendered.

ACCUSED MURDERER, IN IRONS, SHIPPED HOME

NEW YORK, Nov. 5. — Manacled hand and foot, Paolo Carminita, who is wanted in Italy on a charge of murdering his father, six years ago, has been brought here from Vera Cruz, Mexico, on the Spanish liner Montevideo.

The man, who is a giant in stature, fought constantly against being taken home and so strenuous were his efforts after the vessel sailed that he was put in irons and locked in a cell aboard ship. The same vessel will convey him from here to Italy.

IN LOVE BUT SHE WILL NOT MARRY

Mary Garden Says She Left Her Heart in Paris, But Will Remain Single

WILL BECOME CATHOLIC CONVERT IN THE SPRING

Singer Appears in Sealskins Which Set Society Dames in Furor

NEW YORK, Nov. 5.—Mary Garden, wearing a long seal coat, stepped off the White Star liner Adriatic yesterday looking younger and more vivacious than ever. She wore an immense turban of seal with a big silver rosette on the side. Her huge muff astonished the masculine reporters, whose business it is to welcome arriving notables in the name of the metropolitan press. But to the women it was a lovely Paris novelty—a muff that would have made Mimi die happy.

Miss Garden comes back in seal skin and humility, for she says that next to her career she is most interested in religion, and that when she returns to her dear Paris in the spring she will be confirmed in the Catholic church, although she does not intend to enter a convent.

NOT DUE TO A MAN.

"Is it because of a man you contemplate marrying?"

"Oh, dear, no," she replied. "Men may love me, but they cannot influence me in matters purely aesthetic and religious. I love the Catholic church because of its beauty, its warmth, its color. The services, the ritual, all appeal to a deeply aesthetic, yet religious sense."

And Miss Garden has made another vow—perhaps not as binding as that to enter the Catholic church—that she will remain single.

"I have left my heart in France," and Mary heaved one of her Thais sighs, "but I will go to it. I cannot marry, but I can love."

When she was asked if she was interested in Mr. Briand, the prime minister of France, she replied: "Oh, he's a very dear friend, charming, charming, but not the man I love."

DIAMONDS FROM LOVED ONE.

Around the singer's neck was a chain with an enormous diamond set singly. "Isn't it lovely?" she asked. It's a present from one, oh, from the one who has caused me to shed tears all the way across the Atlantic. It's a waste of tears to shed them on the ocean, for no matter how many one sheds they are as nothing compared to that great expanse of brine."

It was Mary—the fun-loving Mary—who forgot for the moment her woe in the contemplation of the foolishness of tears in a stateroom where they were not seen and did not count.

"But what of your eyesight? Has it been impaired by hair dye, as was reported?"

Mary, with feminine unconsciousness adjusted her fur turban over her auburn locks, looked straight into the interviewer's eye and replied:

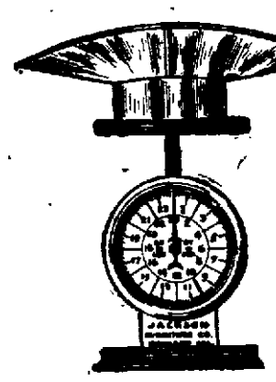

"Do I look as if my sage green eyes were affected? Well, they are not and haven't been. I am not using any novelties in hair dye. I won't experiment with my 'crowning glory.' That was unauthorized press agent work."

NOT A SUFFRAGETTE.

Of women, Mary said: "I have talked with several men and women on the subject of suffrage for women, and after careful deliberation have concluded that we do not need the ballot. It is all very well to talk about women holding positions of the same dignity and importance as men. I believe in that, but the way to get that dignity and position is to let men do the disagreeable things—let them conduct the ugly abstruse affairs of state.

"Of course, if it is a matter of reducing the tariff on feminine finery—on diamonds, on laces, on lingerie—why, then it is time for women to assert themselves, not in public, but upon the individual man. To every man there is at least one woman who can get his ear and his enemeans his vote. Women are made for love, and through love they can get most anything and it is right that they should."

KILBURN DISABLED TOWED INTO PORT

Steamer Breaks Her Tail Shaft and is Taken Into Eureka

EUREKA, Nov. 5.—The steamer F. A. Kilburn was towed into port in a disabled condition yesterday afternoon. She left San Francisco at 10 o'clock Monday morning. At 6 o'clock Tuesday morning, at a point about fifteen miles from the lightship at Cape Mendocino, the Kilburn's tail shaft broke. Distress signals were at once put up and about two hours later the Yosemite and Whittier were sighted and steamed to the Kilburn's assistance. The Whittier was first to reach the disabled steamer, and towed her to the Humboldt entrance, where the vessels remained outside in the fog until the afternoon. They were towed in by the tug Ranger.

There promises to be a mix-up over the salvage claims on the Kilburn by reason of a rather odd condition of affairs. It appears that the Whittier's captain could not have brought the Kilburn into port here, for he himself is compelled to take a tow from the tug when crossing this bar, and the only port of safety he could have taken the Kilburn into was San Francisco. That the Kilburn got in here was not due, therefore, to the Whittier bringing her in, but to the tug Ranger, which took her away from the Whittier and later went back and towed the latter in.

Until the Board of Underwriters average up the value of the vessel and cargo no freight will be removed from the Kilburn's holds. On docking the hatches were opened long enough to take off the United States mail and the San Francisco papers, but outside of that all freight must be left on board until a valuation is placed on the vessel and her contents.

LIBRARY TRUSTEES CHANGE RULES

Promise Benefits to Outsiders in Views of Annexation Passing

At a meeting of the board of trustees of the Oakland library held last night, a number of changes were made in library rules now in force. Chief among them is the establishment of a system of book deposits which it is proposed to install in the public schools upon application of the principal, the same to take the place of a ten book teacher's card now in use.

Fines have also been reduced to a flat 2 cent rate per day, instead of the 5 cents for two days as has been the custom.

It was also decided that people outside of Oakland can take books from the library on the payment of $1 for three months as was formerly the case. This rate was decided upon as fairer, in consequence of the library having a $60,000 budget and about 20,000 card holders.

A museum committee from the board was also appointed to keep track of museum matters and report to the board. The members are: Charles Quayle, chairman; F. M. Parcells and Dr. Oliver T. Wilson.

IN VIEW OF ANNEXATION.

Instruction was given to the trustees of the Fruitvale district as to what they might expect in case of annexation. They were assured that the Oakland library trustees would as nearly as possible carry out the wishes of the Fruitvale people. They have collected a certain sum of money for library purposes, which they feared might come into the general fund in case of annexation, and of which they might not receive the benefit.

LOOK TO THEIR BENEFIT.

They were promised that the amount would be apportioned for their benefit by the trustees. Another question agitating Fruitvale residents and rendering them inimical to annexation was the fear that, should they come into the Oakland library district, they would not receive the Carnegie donation for a library building, for which they have already applied. They were assured by Librarian Greene that they need have no fear on that score, as it has been Carnegie's latest custom to give most of his donations to branch libraries, as evidenced in New York, Brooklyn, Cincinnati, Philadelphia and other large eastern cities.

It was decided by the board of trustees that the six reading rooms, which have been established for the past ten years in various parts of the city, be henceforth known as branch libraries.

WIDOW FREE ON MURDER CHARGE

Woman Accused of Killing Husband Acquitted in St. Paul

ST. PAUL, Nov. 5.—Mrs. Minnie Arbogast, who for two weeks has been on trial here on a charge of having murdered her husband, Louis Arbogast, a wealthy butcher, on the morning of May 13th was acquitted yesterday.

Louis Arbogast was murdered while asleep in bed, his head being crushed with an ax and the bed soaked with gasoline and set on fire. Mrs. Arbogast was badly burned at the time, and was in the hospital for many weeks.

Mrs. Arbogast and her four daughters were in the house when the crime was committed and none of the daughters was able to say definitely what occurred. Louise Arbogast, the eldest daughter, is under indictment on the same charge as that preferred against her mother and will be tried in a week or two.

The dimensions of the pie are not yet known, as the committee is searching records to determine what was the size of the last large mince pie.

CERTAINLY ENDS STOMACH MISERY

Headache, Heartburn, Gas and Indigestion Vanish and You Feel Fine in Five Minutes

You can eat anything your stomach craves without fear of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will take a little Diapepsin occasionally.

Your meals will taste good and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Biliousness, Heartburn, Water Brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from Indigestion or any stomach disorder, you can get relief within five minutes.

NEW MOVE MADE IN HANBURY CASE

Island No. 2 Transferred to Attorney By Brother in London

NAPA, Nov. 5.—Another interesting move has been made in the badly tangled legal status of the rich Hanbury Island No. 2 on the river south of town, when a deed to 867 acres of reclaimed land from John McKenzie Hanbury of London, England, to his attorney, G. E. K. Cormac of San Francisco, was filed in the office of County Recorder H. L. Gunn.

From an authoritative source it is learned that the recording of the deed is a step in the direction of a compromise between the English Hanbury and his sister-in-law, Mrs. Marie Eleanor Hanbury of Vallejo, the former Benicia telephone girl and wife of David T. Hanbury, which the young wife announced several months ago had been effected, but which of late appeared to have fallen through. It has been learned that the agreement will be filed here in a few days, as soon as some minor details are straightened out.

Hanbury at the time of the sensational divorce suit commenced by his wife in December, 1908, deeded the ranch island to his London brother, and when Mrs. Hanbury dismissed the suit a few months later he gave a second deed, this one to the girl wife, stating "love and affection" as the consideration. The wife recorded her instrument ahead of the earlier one held by the brother-in-law and a suit by Mrs. Hanbury followed to have the other document canceled. The deed to Cormac was executed in London on September 30 last.

STATE BOARD OF HEALTH SEEKS BETTER VITAL DATA

SACRAMENTO, Nov. 5.—How important vital statistics are as a public investment is set forth in a bulletin for October, issued by the State Board of Health yesterday. The discussion is by Dr. F. W. Snow, secretary of the board, who illumines the subject by concrete examples taken from records of his office. The list of deaths and marriages, the doctor says, are kept with a reasonable degree of accuracy, but the birth records are far from satisfactory. Dr. Snow says:

"California has an excellent beginning in all these essentials, but it is thus far only a beginning. The opportunity afforded through expert study of vital statistics to prevent the coming generations from repeating the errors of their ancestors is as yet only dimly realized by even the foremost of our thinking business men and women."

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by Osgoods' Drug Stores.

RICHMOND COUNCIL CONDEMNS SANTA FE

RICHMOND, Nov. 5.—The people of this city are much wrought up over the train service provided by the Santa Fe railroad. The matter has created such a stir that the Richmond City Council took the matter at its last meeting and passed resolutions severely condemning the railroad. Among the things charged against the company was that it had refused to accept first-class tickets to and from San Francisco after a ten days' limit; that it is quite common for the company to leave passengers stranded at the ferry slip for several hours; that during Portola week Richmond citizens were inconvenienced by poor train and ferry service. A copy of the resolutions will be sent to the State Railroad Commission and to the officers of the railroad company.

Mme. Steinheil, Pitifully Weeping, Says She Is Innocent of Double Murder

WIDOW TELLS OF HER LOVE AFFAIRS

Attempts to Explain Why She Accused Others of Crimes

(Continued From Page 1.)

rapid fire volley of queries from Judge de Valles which tripped her up on several previous statements which she had made that caused Mme. Steinheil to take refuge in tears.

"Oh believe in my innocence, despite all this," she implored the jury as she stretched her arms toward them. "I am innocent despite all they have [illegible] against me."

JUST A FOOL'S PRANK.

In [illegible] the proceedings the court declared the sensational denouement of yesterday when Rene Couillard [illegible] used a momentary [illegible] in court by confessing to being [illegible] hair [illegible] woman in the case [illegible] of a crack brain [illegible] who [illegible] sent anonymous letters [illegible] Mme. Steinheil [illegible]. The [illegible] lectured Couillard [illegible] a joke upon [illegible] of [illegible] session would be given in the [illegible] of whether Mme. Steinheil was [illegible] or guilty.

In taking the stand this morning the woman plainly showed the effect of the trying ordeal through which she was put yesterday. Her eyes were marked [illegible] dark rings and her forehead [illegible] face had assumed the color [illegible]. The court was solicitous of the [illegible] ant's welfare and asked her if she [illegible] to answer [illegible] questions to-day.

"I am not at all fatigued and will be able to go ahead," answered Mme. Steinheil. "I fear nothing as I am [illegible] so [illegible] with your queries."

The direct [illegible] of Mme. Steinheil will probably consume all [illegible] day's session and she may [illegible] the witness stand tomorrow morning as the court has opened up a new [illegible] of questions regarding the [illegible] affairs of the Steinheil household [illegible] part which her numerous lovers played in footing [illegible] bills for the [illegible].

WOMAN MAKES DENIAL.

The prisoner indignantly denied that her sensational attempt to revive the case just fall by an accusation against [illegible] Wolf, the son of the cook in the Steinheil household was due to the insistence of her sweetheart Maurice Borderel, the merchant whom it was supposed she desired to marry and in an effort to clear herself. "Borderel had passed out of my life," said Mme. Steinheil, "and I had no thought of him. My sole solicitation was to save my daughter's engagement to Pierre Buisson."

In an interview today Borderel re-affirmed his faith in the innocence of Mme. Steinheil saying she knew marriage with him would be impossible and there [illegible] the alleged motive for the murder of her husband was untenable. He [illegible]

She did not revive the case on [illegible] count for she knew the woman who I loved was not the woman whose intrigues with Faure, Chouard, Pellmourt and many others have been exposed."

WITNESS EXCUSES.

The judge continued doggedly to force the prisoner to retrace step by step her actions during the feverish months following the crime confusing her at every turn with some new story which she had told, compelling her to explain over and over again why she had wrongfully accused Burlingham, the American newspaperman, Couillard the servant and young Wolf.

Upon each occasion Mme. Steinheil sought refuge behind the plea that in her frenzied desire to clear herself of the awful imputation that she had murdered her husband and mother she had acted upon any suggestion that came into her head.

Judge de Valles was particularly severe in his cross examination as to the lack of feeling displayed by the prisoner at her mother's funeral.

Although this session of the court did not begin until [illegible] the [illegible] was so severe that before the [illegible] had passed it had been necessary [illegible] terrupt the proceedings several times [illegible] order that the [illegible] woman [illegible] given strain of [illegible] to quit her.

Three police witnesses testified that after the murder [illegible] Steinheil [illegible] not appear to have been [illegible] crime the [illegible] of which was [illegible]. They said the [illegible] by which Mme. Steinheil was [illegible] seem to [illegible] genuine [illegible].

Following this testimony court adjourned. The government has [illegible] seven witnesses [illegible].

HER LOVE AFFAIRS.

"Was it at the home of Mme. Maseline in Havre that you met President Faure?" asked the judge.

"No, it was during a trip to the Alps," answered the prisoner, her voice breaking.

[illegible]

"I love only you. My husband lives a life of infamy. I hate him. I have two hatreds in my life—my husband and my mother who compelled me to marry him. I will get a divorce and you shall marry me."

[illegible]

"So I may not even proclaim my innocence in my own way," cried Mme. Steinheil.

DUEL WITH COURT.

[illegible]

"Heavens," she cried at last. "Must I fight for my life against a dog and a gang of common wool [illegible]."

JUDGE ANGRY.

[illegible]

"You must remember the outbursts of feminine temper."

"And you, Monsieur Le President?" she parried quickly.

"There was a novel published forty years ago in which a murder was done by people in black robes. You recall it when you were sixteen and on that you planned your crimes," declared the judge.

Again she was a match for him.

"At sixteen," she said, "I was flirting, not planning to commit a crime twenty-four years later."

The procureur general [illegible] of the president and also [illegible] of the judges. For ten minutes [illegible] of them shouted and stormed at the woman who stood haggard [illegible] clinging to the [illegible] trying her best to answer the [illegible]. It was just as [illegible] ready to hope that the [illegible] who sought [illegible].

A summary of the evidence shows that the judge failed to shake Mme. Steinheil's original version of the crime. She admitted intrigue but heatedly denied she sent her mother to solicit from her admirers and she insisted her husband had never profited by her own immoral life. Admitting doing wrong she besought the jury to pardon her faults. She defended herself by saying that since she did not live with her husband as his wife, she longed for sympathy and love.

GOVERNOR OUTWITS MOB OF LYNCHERS

Over 200 men armed and mounted gathered last night outside the city limits where it was expected the soldiers would pass with the negroes. Governor Glasscock heard of the plan and gave orders to hold the negroes here until 6 o'clock this morning.

The child adopted today by Raines was taken by Mrs. Raines from the children's home here several months ago. Raines learned of his good fortune recently and has placed his affairs here in shape to remain in England for two months or until he can get possession of the fortune left to him. He is an advertising solicitor.

Berkeley Officers Out for Good Time With Fair Friends

wrist of the Berkeley policeman and he was held fast while McCready sent in a call for the patrol wagon. Deputy Sheriff Kohl attracted by the excitement came along in time to help McCready.

In the meantime Patrolman Humphries came to the rescue of Fraser. He was intercepted by Deputy Sheriff Kohl. Humphries was also on the fighting order and dealt Kohl a terrific blow knocking him down. The deputy sheriff recovered himself however and by the use of his fists and club reduced the fighting Berkeley patrolman to submission.

On the way to the Sixth street lockup both of the Berkeley men required more forcible persuasion to make them go along. As they were entering the lockup Humphries made another swing at Kohl. Policeman Carrick of the Oakland force who was in charge of the lock-up took a hand by sending Humphries spinning across the lock-up with a blow to the head. In falling Humphries received an ugly gash in the back of the head.

SENT TO HOSPITAL.

The Berkeley duo were then sent to the Receiving hospital for repairs. Fraser had four scalp wounds dressed besides two contusions. Humphries' wounds were the more serious, the scalp wound in the back of his head being an ugly affair.

Both men were before Police Judge Samuels this morning and pleaded not guilty to the charge of being drunk. No complaint was filed in the matter of resisting an officer, the case going over until tomorrow.

Policeman McCready declares he is not anxious to prosecute the Berkeley policemen on the charge of resisting an officer. Prosecuting Attorney Hennessy says he will issue a complaint if asked for but will not do so unless requested.

Policeman Humphries has already tendered his resignation to Chief of Police Vollmer of Berkeley and will immediately leave for Los Angeles. If there is no charge placed against him in the matter of resisting an officer Humphries will take tomorrow night's train.

Fraser has not made up his mind as to his course of action but it is probable that he will also tender his resignation.

MUST QUIT FORCE.

BERKELEY, Nov. 5.—Police Chief Vollmer declared this morning that Sergeant L. M. Fraser and Patrolman R. Humphries would sever their connection with the force as a result of the escapade in Oakland last night. Their resignations will be submitted some time today, Vollmer declared.

Both Fraser and Humphries are well regarded here. Fraser has been connected with the force for the past four years and was formerly night desk sergeant until he asked to be transfered out of the office. Humphries has been on the force just a month, joining by competitive examination October 1.

A Scene From Grand Ave. Heights—Sketched by Pedro Lemos.

"My Wife and I Are Going Out to Grand Avenue Heights, Sunday"

"We expect to build in a few years and want to select a lot now before the prices go up, and pay for it gradually.

"We like Grand Ave. Heights because it is sort of sheltered and isn't windy or foggy. Then another thing we like about it is the fact that the building restrictions are such that only first-class homes will be allowed to be erected. That is why Piedmont and Adams Point contain such pretty homes and I understand that Grand Ave. Heights is being handled in the same high-class manner.

"Yes, and then you get such a beautiful view from the property," said his wife. "You can see the bay and Lake Merritt and the Golden Gate from some of the lots and almost at the foot of the property the city is going to construct a magnificent system of parks. Then, you know the cars are going to run down Grand Ave. Boulevard; so, taking it all in all it will be an ideal spot for our home."

"The thing that appeals to me most strongly," said the husband, "is the fact that Grand Ave. Heights is within the city limits of Oakland and yet the price of lots averages only about $35 a front foot. We will enjoy police and fire protection and I don't know of any similarly located property with the improvements completed that can be had for less than $60 or $75 a front foot. It looks like a good investment irrespective of its delightful advantages as a residential district. We may buy two lots with the idea of selling one for enough profit in a year or so to partly pay for the building of the house. I only have to pay two or three hundred dollars down and as my income will take care of the monthly payments, I hardly expect to notice the outlay."

"And so we are going out Sunday and pick out a lot and try to get an option upon the adjoining lot," chipped in the enthusiastic little woman. "We have looked at all the residential property around here and Grand Ave. Heights appeals to us the most."

CHARGE WOMAN "SUICIDE FAKER" WITH THEFT

SAN FRANCISCO, Nov. 5.—Mrs. Eva Murphy whose sensational notes indicating that she had committed suicide by taking chloroform started the police into unusual activity some weeks ago, has been again taken into custody by the detectives and is locked in detinue at the city prison. Mrs. Murphy who was located in extremely good health in a house on Fresno avenue is accused of having purloined a ring from the residence of Mrs. William Douglas, 1122 Stanyan street, where she formerly resided. Mrs. Murphy is supposed to be the wife of an employe of the Oakland Traction Company and one of the notes hinting vaguely at ending her existence was addressed to him. She will probably be charged with grand larceny [illegible].

After treatment he was sent to his home.

TO FILE CONTEST OF HENRI BRIGHT'S WILL

It is the announced purpose of Attorneys George and Mervyn Samuels to file a contest of the will of Dr. Henri Bright between now and Monday of next week. The attorneys, however, are as yet undecided as to whether they will seek to have the $20,000 estate divided equally between the widow and her son, Voltaire, or attempt to effect a compromise with Mae Hildebrandt, the woman who seems to have exercised such a strong influence over the doctor and to whom he left a third of his estate in his will. The latter course will probably be the one decided upon.

The boy Voltaire who was yesterday given into the custody of his mother by order of Superior Judge Mills is still with her though it is reported that he still declares it to be his intention to return to the Hildebrandt woman who seems to have succeeded during her association with Dr. Bright in winning the lad's strongest affection and making him forget all about his real mother.

Mrs. Bright and her son are living at the Francis Apartment house on Twelfth street.

Burns---A Melancholy Finish.

IF the people of San Francisco were not given over entirely to light-mindedness and material pleasures they would realize, to some extent at least, the depths of degradation to which they have fallen; how abandoned they are in the estimation of the pure in heart and unselfish evangelists of the civic uplift. William J. Burns has given them up to their sins, refused to further labor in the vineyard for $625 a month or any other sum to preserve them from their own iniquities.

Burns says he has remained in San Francisco for the past two years at a great personal sacrifice only because he desired to reform the town and was begged stay by Rudolph Spreckels and Francis J. Heney. Incidentally, Mr. Spreckels paid him many thousands of dollars, and for more than a year past he has been drawing down $625 a month from the city; his sons have also kept steady company with the payroll, and there has always been an automobile maintained at public expense for the Burns family to take an airing in.

But these were all minor considerations; they did not influence Burns in the least nor offer any inducement for him to devote his energies, his talents and his profound knowledge of human depravity in its lowest and basest aspects to the regeneration of San Francisco along lines satisfactory to the moral sense of Fremont Older, Dick Creighton, Rudolph Spreckels, Francis J. Heney and the late lamented Ed Pincus. Burns did not work for coin, he worked for virtue. He took the money of course, but he did it reluctantly and only as a guarantee of good faith. It was the righteous zeal that burned in his soul that kept him busy at his task of making things easy for the courts and hard for the enemies of Spreckels.

He accomplished wonders, but he could not perform miracles. He has thrown up his job as keeper of the privy key to justice and the back door to the chambers of Judges Dunne and Lawlor. He has washed his hands of San Francisco, despairing of the city's reformation, and is going away—think of it, going away for good—to let poor old San Francisco go to hell in her own way. Isn't it awful!

And yet there will be no tears shed over the loss of this good man. In truth his going will be a sort of Portola celebration from Bernal Heights to the Barbary Coast, from the Potrero to the Presidio, from Lone Mountain to Mission Bay. All the bands will play "We hope you never will come back." Such is the ingratitude of republics, the poor appreciation of the fickle public for a man who has listened at keyholes, peeped into letters, peered at women through windows and dogged the footsteps of jurors and witnesses in the interests of public virtue, who has softened his corns wearing gumshoes in the service of morality, who has brought Dr. Dille and Dick Creighton in political accord and in thorough agreement as to how bribery should be suppressed and the social evil be made a coadjutor in the cause of social purity, who has made an honest man of Big Jim Gallagher and a worthy citizen of Andy Wilson.

The election has discouraged Burns. There's no doubt of that. It has shaken his faith in humanity, destroyed his hope for the regeneration of San Francisco, and torn him loose from the public feed trough. There is little to be gained now by pulling the Spreckels leg—that elongated member has become too sensitive to the Burns touch since the long pull Heney has subjected it to. So Burns announces that he will leave the ungrateful city to get along without him if it can. He will not work for Fickert on any terms. True, Fickert gave notice on the stump that he was going to kick Burns out of his fat berth and chase his acolytes out to the potato fields or have them run in for vagrancy, but that does not matter—Burns refuses to work for him, anyhow.

"Work for Fickert? Not on your life," he declares with distended chest and noble indignation thrilling in his tones.

"You bet he won't," says Fickert with callous disregard of modest merit; "not an hour, not a minute. I wouldn't have that gumshoe blackguard and his band of sneaks and crooks around me any more than I would have a collection of snakes and skunks."

So, apparently no one will urge Burns to stay. Nobody will weep for him, either, when he departs. He will have to be written off Spreckels' books as a total loss. His memory will be preserved, however, by the big hole he will leave in the city treasury and large black spots on the ermine of Judges Dunne and Lawlor. Otherwise all will be well, and in future the man in the moon will not be compelled to hold his nose while passing over San Francisco. The moral loss suffered by the departure of Burns will be compensated for by the sanitary improvement. This will equalize things somewhat and save the taxpayers several thousand dollars a month.

But hist! don't begin crying too soon. Burns is not going to leave as long as he can pull a plunk from the city treasury.

Progress of the Campaign.

Both the water front improvement and new city hall bonding propositions and the annexation movement are daily gaining strength. The campaign is being waged effectively in favor of both measures inside and outside the city. New elements of strength and support in their favor are developing in all directions. The whole body of the citizenship in the city proper and in the district to be annexed is fully aroused. Everybody is conscious that the psychological moment has come when it is essential for the future welfare and permanent prosperity of every community concerned that favorable action should be taken. As a result everybody is falling in line.

It is fair to presume that when the time comes to vote on the two propositions to be disposed of on November 15 and the day following there will be no opposition to either. The campaign is being so intelligently conducted that the antis are fast disappearing. The latter are, fortunately for themselves and for their best interest, beginning to realize what is really at stake in the issue to be determined at the polls. The result of the two elections means to sink or to swim. Of course, the former is not entertainable. No sane citizen is foolish enough to close his eyes to self-interest, and it is to the self-interest of every Oakland citizen that the bonds shall carry and to the mutual interest of every voter in the city and in the suburbs to be annexed that annexation shall succeed.

Apparently the ghost of William J. Biggy voted at every precinct in San Francisco last Tuesday. Burns understands. He is packing up to leave.

Dr. Cook was decorated at Copenhagen by the Crown Prince of Denmark as a recognition of his achievement in being the first Arctic explorer to reach the North Pole. Now that the American National Geographical Society has granted Peary a gold medal as a polar conqueror also, he ought to be satisfied. It at least removes the suspicion which some members of the society may have entertained that Peary had used the records Cook left at Etah to obtain data wherewith to work out the report of his own trip to and from the boreau center. There is such a strong similarity in the description given by both explorers of the dash to and from the pole to warrant the suspicion that, if either had faked and cribbed, Peary must have been the one, for he had access to Cook's records and listened to the Esquimaux, recounting the story of the trip to the "big nail," whereas it was impossible for Cook when he left Greenland to have known anything about the results obtained by the Peary expedition or its whereabouts.

The craze for increasing the height of non-fireproof skyscrapers in San Francisco is likely to be gratified, as the advisory committee appointed by the building committee of the Board of Supervisors has adopted an amendment to the building laws to be recommended to the effect that the limit of the height of Class-C structures shall be increased from seventy-five feet to eighty-four feet, which allows for another story. The change looks like risking another conflagration to gratify the greed for a bigger ground rent.

The unanimous adoption by the Council at its last meeting of a resolution urging Senator Perkins and Congressman Knowland to use every possible means to secure a sufficient appropriation at the coming session of Congress for the enlargement of Oakland's postoffice building so as to meet the present and future needs of the city, was a timely act. The increase in the population of Oakland and its suburbs during the past three years has been so great that they have outgrown the capacity of the present postoffice building. The latter is totally inadequate to handle the business of the territory which it is now serving, and it is as certain as anything can be that the strain upon its capacity will increase at a greater ratio in the future than it has in the past. The influx of new population to this city and into the territory which will be annexed to it November 16th grows in volume each successive month, and it is imperative that the postoffice be doubled in size in order to handle the business expeditiously and efficiently.

Evidently the City Council of Tucson only waited to get the election returns from San Francisco for a cue as to how Brother Ben should be dealt with. Brother Ben Heney was Mayor of Tucson till the Council read the election news from San Francisco, then as one man they gave Brother Ben the boot and out he went. Brother Ben is likewise possessed of the Heney habit of doing things in utter disregard of the law, and to this habit he owes his expulsion from the Mayoralty. Many things are likely to happen to the Heney push from now on

Dangers of Sun Baths

The readers of the daily newspapers who read and believe everything published pertaining to medicine must look upon the average German physician as a sort of a high-grade bathhouse attendant. For it is at about this time of the year that the annual homecoming of American millionaires occurs, that throng of humanity with "livers" and with "rheumatism" returning from the renowned and always fashionable German health resorts, rearmed for the social gayety and dissipations of the coming winter. Some of these have consulted eminent physicians and surgeons of Berlin or Vienna, but of that one does not hear.

What the papers tell and what the layman remembers is that they took baths. These may have been mud baths, salt baths, sulphur baths, dust baths, sand baths, hot baths, air baths, whey baths, sun baths, Schott baths, or, if the patient's pocketbook is sufficiently well lined, even champagne baths. The special variety is immaterial, the point of importance being that the patient went to Europe and took baths.

Against the excessive employment of one of these forms of nature cure Grawitz utters a warning in the Deutsche Medizinische Wochenschrift for August 19, 1909 in which he says that the sun bath may be not only not a source of health but an actual menace to the patient. The author has noted in many persons who had exposed their naked bodies to the rays of the sun for several hours in various Berlin sun-bath parlors symptoms often serious and at times dangerous. Besides dermatitis he has noticed irregularity and acceleration of the heart, systolic murmus at various orifices, increased cardiac dulness, especially toward the right; high-pulse tension, accentuated second sound, and in a few cases collapse from cardiac insufficiency. The temperature was elevated in some cases and headache and general malaise often lasted for days.

The evil effects of undue exposure to the rays of the sun have, of course, been shown before, notably by Woodruff in his work on "The Effects of Tropical Light on White Men," but the impulse to sun worship has been through centuries so firmly planted in mankind that it is well to repeat from time to time such warnings as that of Grawitz.—Medical Record.

Topics Timely and Interesting

"The up-to-date newsboy of New York can learn something in Berlin," writes a New Yorker from that city. "One of the popular sellers of newspapers in this town is a gray-headed, tall, soldierly looking man, who has adopted an original method. He has the papers attached — one copy of each publication — to a long fishing rod, on the top of which there is a little pocket for coins. People on omnibuses and at upper windows may be served by means of the rod. They help themselves to the paper they desire, deposit their money in the little bag, and the sold paper is replaced by another from the stock which the old man carries in a bag slung over his shoulder. The children in the district where he does business call him the 'nickel-fisher.'"

The caprices of fashion have told their tale on the lace industry at Calais. There is a serious falling off in the trade. Many lace workers are idle and there is a fear that those who are in work will have to suffer a reduction in wages. And all because during the present year it has pleased fashionable women to dress like umbrellas. That is to say, they have abandoned those garments which required lace as a fitting adornment. At any rate this is the reason given at Calais for the wretched condition of the lace trade. Unfortunately for the lace makers the outlook for the future is far from bright.

Fashion is plotting against the Directoire mode and in favor of Louis XVI. panniers. In order to stand up against this new fashion the lace manufacturers talk of turning their attention to the making of silk tulle. But they will first of all have to make their peace with the rival town of Caudry, in the Nord, where cheap tulle is being turned out. Apart from the freaks of fashion America is blamed for the present distress among the lace workers. Formerly America went to Calais for lace, but now Uncle Sam decks his womankind with lace of his own making.—Throne and Country.

It is an interesting sight indeed to watch a spider change its skin and one that will well repay any one for the time taken up waiting for the little known—generally speaking—event to take place. When preparing for the change the spider stops eating for several days and makes his preliminary arrangements by fastening himself by a short thread of web to one of the main lines of his snare, this to hold him firmly while he proceeds to undress. First the skin cracks all round the thorax, being held only by the fore part. Next the lower part of the body is uncovered, and then comes the struggle to free the legs. He works and kicks vigorously, seeming to have a very hard time of it. Fifteen minutes of continued perseverance, however, brings him out of his old dress, the struggle causing him to appear limp and lifeless for some time after it is finished.—Geneva News.

Two young men who had been chums at college went abroad together. One conscientiously wanted to visit every spot mentioned in the guide books; the other was equally conscientious about having an exhilerating time. This naturally led to disagreements. In the course of one of those, the lover of pleasure said tauntingly:

"Perhaps you are doing these places so thoroughly because you are going to write a book about your trip."

"I should," replied the other promptly, "if Robert Louis Stevenson hadn't preempted the title I want to use."

"What's that?"

"'Travels with a Donkey.'"

Verily, the way of dietetic righteousness is a straight and narrow path. A big sanatorium gives its patients the following printed list of "Dangerous Foods"; Cane sugar, fats, flesh foods, including fish, oysters, lobsters, etc.; eggs, milk, coarse vegetables, such as spinach, cabbage, turnips, etc.; condiments, including salt and pepper; tea, coffee, chocolate, cocoa and all alcoholic drinks.

This leaves practically only cerbals, potatoes, nuts and fruits. The skin and seeds of the nuts are forbidden; this practically cuts out cherries, prunes, dried apricots, figs, dates, raisins, currants and most grapes, unless strained of their objectionable parts. Peas and beans are admissible if passed through a colander to remove the hulls.

The talent of the negro race for music is shown by the experience of the bandmaster of a regiment of native troops in Jamaica. When he took charge not a man in the command knew a single note. Only one or two could play an instrument even a little. Yet in six months he had selected his musicians and taught them enough to appear in public. Two or three years later their fame had spread to England and they were invited there to give a series of concerts. Their tour was highly successful.

Is Glad Fickert Was Elected

EDITOR OAKLAND TRIBUNE—Dear Sir: I have read in your evening paper with great pleasure and admiration your splendid editorial upon the election of Mr. Fickert to the office of District Attorney in San Francisco by so magnificent a majority. You have covered the subject so beautifully, forcibly, fully and truthfully that no words of mine or others could add thereto, and as a private citizen, who loves justice and believes in equal justice to rich and poor before the law, I thank you in the name of many like me for your exhibition of both ability, conviction and courage to publish so splendid an editorial, and I will circulate your paper among my friends as far as I can, for their good reading and food for thought upon a situation that has been the most impudent and outrageous of any I have ever known in all my political experience. You have been doing good work for us in your paper before our election day.

PURELY PERSONAL

Admiral Sir Edward Seymour, who, as special representative of the king, has gone to New York in command of the British squadron invited to take part in the Hudson-Fulton centenary celebrations, comes of a family whose motto might be: "Admirals all." He is first cousin of Admiral Sir Michael Culme-Seymour, the head of the house. Their uncle, Sir Michael, G. C. B., was another admiral, and son of yet a third Sir Michael, the first baronet — and an admiral, too — who won fame by his capture, in 1808, of the French frigate Thetis, after a terrific fight. Sir Edward's services date back as far as the Crimea, where he took part in the bombardment of Sebastopol. He has also been in four Chinese campaigns, and in the last one, the Boxer rising of 1900, led the allied forces in their unfortunate and unsuccessful endeavor to reach Pekin in time to relieve the legations.

Gabriele D'Annunzio, the Italian poet, who has gone into ecstasies regarding an aeroplane flight, is a man of fashion, judging by the following inventory of his wardrobe recently published by a Neapolitan newspaper. It included the following: Shirts, seventy-two; socks of all kinds, twelve dozen; socks of quiet-tinted silk, two dozen; gloves for walking, forty-eight pairs; gloves for evening, twenty-four pairs; umbrellas, of violet hue, eight; parasols, green, ten; handkerchiefs, twenty dozen; cravats, resplendent and varied, 150; waistcoats, ten; shoes for walking, fourteen pairs; slippers, "soft, silent, and tremulous," two pairs.

While there are many people who consider that the stories of Sherlock Holmes are the best which Sir Arthur Conan Doyle has ever written, there are others—and they are by no means a few—who think that he excels in "The Tragedy of the Korosko," which has been added to the Newnes' Series of Sixpenny Novels, and on which the play, "The Fires of Fate"—at present being played at the Lyric Theater, London—has been founded. The latter is certainly one of the most powerful stories which have yet emanated from his pen. An interesting feature of Sir Arthur's work is that every word of his stories is written by hand, in small but very legible characters. He employs neither typewriter nor amanuensis.

If King George of Greece be compelled to abdicate, he will not lose a very magnificent Civil list, for the thrifty Greeks pay only £58,000 a year for the maintenance of the whole Royal Family, and of this amount £8000 is ear-marked for the household of the Duke of Sparta. The Governments of Great Britain, France and Russia add £4000 each to the national contributions; but even with this addition King George's allowance is only slightly in excess of that drawn by the Norwegian monarch, who has only one child to maintain, while his uncle at Athens has six.

SOME FAMOUS CUCKOLDS

(Fresno Sunday Mirror.)

A week or two ago J. M. Barrie, the noted novelist and playwright, got a divorce from his wife because she had given him horns. Now he asks her to come back to him, presumably because he wants some more horns. There are men who are not satisfied until they are crowned like a royal stag. We know one or two in Fresno.

Mr. Barrie is in fine company, for the list of cuckolds contains many illustrious names. Menelaus was one of the first mentioned in history. Had Paris not decorated the forehead of Menelaus we should not have the Iliad and Odyssey. Ten thousand horned heads would not be too high a price for such epics, but we hasten to add that this is merely the literary view.

Potiphar must also be put on the list. Joseph declined to write him down a cuckold, but we are sure that others were more obliging. In Sparta, once upon a time, cuckoldry was honorable—so was stealing. The Spartans still steal, but their admiration for antlers "faded" long ago. All one had to do in the old days was to ask a Spartan husband, "Sir, may I present you with a pair of horns?" And if the husband liked the appearance of the applicant he quickly accepted the decoration.

King Arthur was one of the most noted of cuckolds and wore the peculiar distinction with a complacence rare in this degenerate day. Jumping a few centuries we come to Napoleon the Great, whom Josephine deceived with impunity for years. It was only when "dynastic reasons" appeared on Napoleon's mental horizon that he realized the enormity of Josephine's offense and put her from him. There have been many others since Napoleon, but the number of even the most distinguished is too large for us to mention them here.

Praise for Weather Service

The effort of the United States weather bureau to forecast local weather conditions has done so much to mislead the public as to its utility and to convey the impression that it is frequently inaccurate that its real function is widely misunderstood and its utility minimized in the public mind. To read in the morning paper that the weather bureau predicts "fair and cooler," only to experience drenching showers and a higher temperature before the day is over, is not conducive to confidence in the work of that branch of the Federal government. The fact is, however, that the bureau's predictions are general in their application; that, basing its calculations on certain well defined storm movements, heat waves and cold waves, the bureau makes a general prediction for a large section, for New York, New Jersey and northern Pennsylvania, for instance, and were conditions over this area carefully followed it would generally be found that in the greater portion of it the prediction had been verified.

It is, however, in the broader field of predicting disastrous storms, untimely frosts, etc., that the bureau serves its most valuable purpose, and its usefulness to shipping, to residents of exposed portions of the coast, owners of orchards, and others is immense. This fact becomes strikingly evident in instances like that of the recent West Indian hurricane, when thousands of the smaller and less stanch craft received warning in time to permit of their seeking shelter from a storm they were in no way competent to weather. It is probably a safe assertion that were the saving of life and property along the coast the only service rendered by the bureau it would amply repay its cost.

Of great importance also are the flood warnings sent out by the bureau, in consequence of which large amounts of perishable property are removed to points beyond the danger line. And these functions are apart from and in addition to the valuable contribution to science which the accurate and comprehensive records of the bureau constitute.

The weather bureau may frequently fail as a safe guide to him who desires to know whether to carry an umbrella or a walking stick, but in a larger and vastly more important field it serves a purpose of which the utility cannot be computed. —New York Tribune.

Stories About Words

With much asperity the Army and Navy Journal resents the assertion that the phrase "O. K." originated in the ignorant spelling of "All correct" as "Oll korrekt" by Zachary Taylor while in Mexico, or some other officer of the army. "Gen. Taylor," says the Army and Navy Journal, "was not a man of 'liberal education' in the ordinary sense, but neither he nor any other officer of the army that we have ever heard of was so ignorant as this. According to Edwards' 'Words, Facts and Phrases,' the use of 'O. K.' originated with John Jacob Astor, the millionaire, who, being the son of a butcher of Waldorf, Germany, might be excused for a deficient knowledge of English." Edwards says: "If a note of inquiry as to any particular trader's position came, the answer to which he intended to be satisfactory, he was accustomed to write across the note the letters 'O. K.' and return it to the writer. The letters 'O. K.' he supposed to be the initials of 'All correct,' and in this sense they are now universally current in the States."

"Cool off" is an Americanism which has invaded England, but by no means the only one. The London Chronicle remarks: "In many shops one finds the word 'candy' being used familiarly, and it no longer means the jaw-breaking but wholly delicious sugar candy of one's youth. It is the same with "cracker," which used to convey to the English child's mind only something that belonged to Christmas time and could be pulled. The one surprise of today is that 'week-end,' which ought to be an Americanism, is really as good old North Englandism."

"Pajamas" means "leg garments." They were eagerly adopted by Europeans in India from the Mohammedans, probably by the Portuguese in the first place. Earlier Anglo-Indian generations knew them as "long drawers" or "mosquito drawers," and still earlier generations as "mogul breeches," under which name they are referred to by Beaumont and Fletcher.

Fish Commission's Work.

There is one branch of the Federal proportion to the amount of publicity it proportion t othe amount of publicity it attracts than any other Federal agency. This is the national fish commission. At comparatively small expense and, under the administration of Commissioner George M. Bowers, with constantly decreasing cost of production, this bureau is doing a great work in stocking the rivers and coast waters of the country with edible fish. Gradually the production of fish eggs and fry has been increased until during the last fiscal year the total output exceeded 3,000,000,000, while the cost of distribution has been steadily decreased until the figures for last year show a net expense of $152 a million specimens, a material reduction from $379.76, the cost a million when Commissioner Bowers took charge.

The demands on the commission to stock streams and coast waters are steadily increasing. Ten years ago the total number of requisitions annually amounted to 4000. During the last year the requisitions exceeded 11,000. The fish distributed by the commission are not, as is often assumed, the species preferred by sportsmen. In fact, last year only 2 per cent of the entire output consisted of what are generally regarded as game fish. The remaining 98 per cent consisted of fish for which there is an established market, and the distribution of such a large quantity of eggs and fry added just so much to the food products of the country.

One of the interesting developments of the Federal case of fish culture has been the change which has taken place with regard to the toothsome shad. A comparatively few years ago the efforts of the commission were devoted to the propagation of this species in the waters of the Pacific Coast, but so great have been the inroads of the market fishermen on the supply of Eastern waters that it is now necessary to bring shad eggs from the far West to replenish Eastern waters.

The creation and maintenance of the fish commission have occasionally been criticised on the ground that it was paternalism, but that argument applies no more to this branch of the national government than it does to the maintenance of the Department of Agriculture, and it is doubtful if any agency of the government achieves so much toward increasing the country's food supply in proportion to the expense involved.—New York Tribune.

Ice of the Arctic

Shipwrecked sailors have often suffered and sometimes died of thirst because the salt water of the ocean cannot be drunk. Arctic explorers can utilize the ice for drinking purposes, the only trouble being in melting it. Sea water, in the process of freezing, expels the salt, and its freezing point is about 28 degrees, or four degrees below that of fresh water. Ice is the principal product of the arctic regions, and we are indebted to whalers and explorers for some distinctive phrases regarding it. The ice first forms in thin, irregular flakes called "sludge," and when this is compact enough to hold snow it is known as "brash." Gathered into rounded masses it becomes "pancake ice," and soon it becomes thicker. The first thin covering is called "May ice." A "floe" is a sheet of ice, the limits of which are visible, and an "ice field" is so extensive that its limits cannot be seen. "Pack ice" consists of broken floes forced together by the winds or currents.—Indianapolis News.

STENOGRAPHER HAD SIGNED GRAY'S NAME TO PAPERS

Woman Gives Testimony on the Witness Stand in the John S. De Lancey Case

Office routine, the preparation of papers and documents and the system employed by Attorney John S. De Lancey in his conduct of business as the legal representative of former Public Administrator George Gray, were probed today at the trial of the accused lawyer in Superior Judge Brown's court. The prosecution placed Miss Marian F. Stevenson, stenographer in the office, on the stand in this connection and the taking of her testimony consumed the whole of the forenoon and most of the afternoon.

Miss Stevenson made a good witness and her attitude throughout was that of a person familiar with the details of the subject. De Lancey has maintained all along that everybody connected with Gray's office had a hand in the actual conduct of its affairs and this point Miss Stevenson verified.

HAD SIGNED PAPERS.

She said that it had been her duty to prepare the legal papers and reports in connection with estates, under the direction and supervision of De Lancey, of course, although there were times when A. J. Flood, the clerk, would assist her. All three of them had affixed the name of Gray to petitions for letters of administration and witness could not recall an instance when the former Public Administrator did himself. As a rule these petitions were filed by Flood in the Probate Court, but there were times when De Lancey would do this himself.

PAID BILLS OF OFFICE.

Miss Stevenson testified that both De Lancey and Flood had paid the bills of the office, the latter always in cash and the former both in cash and with check on his private account with the Oakland Bank of Savings. De Lancey and both of his office assistants had access to the Public Administrator's record at all times and all three of them had made entries therein.

Witness said that she had never made an erasure in the book and that she had never seen either De Lancey or Flood do so. At the end of each month she prepared a monthly statement of the business of the office for De Lancey and Gray, from data furnished to her by De Lancey, but whether or not there was a monthly settlement between the men she was unable to say.

WOMAN IS WITNESS.

Testifying, this forenoon, with reference to the conduct of public administrator affairs by De Lancey, Marian F. Stevenson, who was the stenographer in Gray's office, said that she drafted nearly all of the papers for the accused lawyer in the various estates and submitted them to De Lancey for his revision and approval.

She stated that she was familiar with defendant's handwriting and thus laying a foundation, identified De Lancey's chronology in all of the exhibits that have been introduced in evidence in connection with the George Hite Cook and C. Arnaud estates.

The items in the public administrator's record which it is charged De Lancey had made, altered and falsified to cover up the alleged embezzlements in these estates were also declared by witness to have been entered by De Lancey.

DIDN'T MAKE CHANGES.

Miss Stevenson said that very often she made entries in the record of expenses of closing up estates but in the accounts of the Cook and Arnaud estates there were no entries made by her.

Witness made no erasures and said that the erasures made in these accounts were made by some other person whose identity she did not know. All estates that came into the office were entered in the record if any receipts or disbursements were made.

The alleged falsified semi-annual reports were identified by witness, who said that George Gray certified to their correctness and signed them before her as a notary public.

Miss Stevenson said that the data in the reports of December 31, 1908, was taken from the public administrator's record by her. When the time came to compile the report De Lancey said, "Well, it is about time for us to get at the report," whereupon witness went to work. The copy was sent to THE TRIBUNE and when proofs came back they were checked over by witness, with the assistance of A. J. Flood.

With reference to the report covering the half year ended June 30, 1909, however, witness said it was prepared by De Lancey and Flood and that she had nothing to do with it other than to attach her notarial seal to the document when Gray signed it.

The prosecution offered both semi-annual reports in evidence but the court sustained the objection to admitting the one dated December 31, 1908, made by the defense and it was excluded.

The other report was admitted without objection, it having been shown by Miss Stevenson's testimony that defendant actually participated in its compilation.

ALL MAKE ENTRIES.

Upon cross-examination by Attorney Frick, Miss Stevenson testified that she and Flood as well as De Lancey had made entries in the public administrator's record, kept in the office, that the safe in the office was kept open throughout the day and everybody had access to it. Gray visited the office regularly each Monday as a rule, but witness could not remember that Gray ever signed a single petition for letters of administration. His name was usually signed by De Lancey and sometimes by herself and Flood.

Witness stated with regard to the preparation of petitions for letters of administration that she usually prepared them upon the information furnished by Flood, who generally filed them in the probate court. She could not say who furnished the facts set out in the petitions covering the Cook and Arnaud estates nor by whom they were filed.

HAD MADE ERASURES.

Miss Stevenson testified that she had made erasures in the public administrator's record but said that she had never seen Flood make any.

Frick—You all had access to this book?

Miss Stevenson—Yes, during office hours it was kept where we could all get at it when it was necessary.

Frick—Then there was nothing to prevent Flood from making erasures?

Frick—But you never saw him do so?

Miss Stevenson—No, I never saw him.

Miss Stevenson—No.

Witness said that accounts between De Lancey and Gray in the office were kept in the shape of monthly settlement sheets. These statements were prepared in duplicate by her and once a month there would be a settlement between De Lancey and Gray. The data was kept in De Lancey's desk and Gray always had access to it until more than a year ago the former public administrator when Gray lost his keys to the desk. After that Gray always had access to the data whenever De Lancey had the desk open. His desk was always locked when he was not present.

Both De Lancey and Flood paid bills. Sometimes defendant paid with checks and sometimes with cash. Whenever a check was drawn it was made on De Lancey's personal account in the Oakland Bank of Savings and this practice continued until De Lancey severed his connection with the office. Witness could not say where Flood got the money with which he paid bills.

Court adjourned at the noon hour and when it reconvened at 1:30 o'clock this afternoon the cross-examination of Miss Stevenson was continued.

YESTERDAY AFTERNOON.

Attorney J. W. Bingaman, who succeeded De Lancey as Gray's legal representative, testified yesterday afternoon after THE TRIBUNE went to press. He testified concerning the conferences incident to the final settlement between De Lancey and the former Public Administrator, which was effected in the office of Reed, Black & Reed on October 13, at which time the accused lawyer turned over to Gray, together with other funds, the $10,000 in the George Hite Cook estate.

Witness testified that he had been employed by Gray as his legal representative on August 24 and that he took up the work three days later. He was present at the partial settlement made by De Lancey on August 31 and with reference to the receipt signed by Gray at the final settlement. Bingaman said that it was drawn up in the office of Attorney Chapman and that Attorney P. C. Black had opposed all along the allowing of Gray of the credit of $4926.12.

Frick—Then, after this credit had been explained to Black he withdrew his objection and after further revision the receipt was signed; is not that a fact?

Bingaman—Mr. Black never withdrew his objection to allowing that credit. He simply gave way to what Mr. Reed and I had agreed to with De Lancey and his attorneys.

Frick—Did you not at the time of the signing the receipt that De Lancey was entitled to the $4926.12 and you had decided to allow him that credit?

Bingaman—I did not say De Lancey was entitled to the credit, but simply that we had decided to allow it in order to effect a settlement. The settlement was finally agreed upon on Mr. De Lancey's own statement.

PRIVATE BANK ACCOUNTS.

Rollo J. Hough, assistant cashier of the Oakland Bank of Savings, where Gray did banking as Public Administrator and De Lancey and his wife carried private accounts, was called to the stand.

Witness testified that he was familiar with De Lancey's signature and identified the deposit slip made out for $19,782.78 at the time the equivalent to this money, belonging to the George Hite Cook estate, was deposited by De Lancey in the Oakland Bank of Savings, as being in the handwriting of the accused lawyer. Hough said that De Lancey deposited this money in the form of a certificate of deposit issued by the German Savings and Loan Society of San Francisco to his own individual commercial account. The bank sent it to the California Bank in San Francisco for collection and in due time the money was received and credited to De Lancey's account. The deposit slip was dated September 16, 1908, on which date De Lancey deposited the certificate of deposit.

Hough said that Mrs. Isabel De Lancey had a personal account with his bank on December 1, 1908, and that on that date De Lancey deposited $300 in gold, a check for $800 and a certificate of deposit for $1000 to the credit of his wife's account. He identified the deposit slip covering the deposits as having been made out by De Lancey. Witness said the certificate of deposit, which represents the $1000 in the C. Arnaud estate, it was sent to the Oakland Bank's correspondent at Los Angeles for collection from the Bank of A. Levy, Inc., at Oxnard, and when the money was remitted it was credited to Mrs. De Lancey's account.

DE LANCEY USED WIFE'S ACCOUNT.

Witness testified that had the certificates been deposited to the account of George Gray, Public Administrator, De Lancey's additional endorsements would not have been necessary. His endorsements were for the purpose of diverting the certificates to his own commercial account in the Cook instance and to his wife's account in the Arnaud case.

Both deposit slips were admitted in evidence by Judge Brown and passed to the jurors for their inspection. The prosecution turned witness over to the defense for cross-examination.

Witness said that De Lancey's commercial account with the bank was closed on October 29, 1908, the date upon which Mrs. De Lancey's savings account was opened. Mrs. De Lancey's deposit book, which was admitted in evidence in this connection, shows that after closing out his commercial account and until about the middle of August, 1909, De Lancey used her account and that during that period over $100,000 went into Mrs. De Lancey's account and were checked out by defendant, at will, on a written authorization left with the bank by Mrs. De Lancey. The defense contends that under this arrangement De Lancey kept Public Administrator's funds in his wife's account.

Court adjourned at 5 o'clock.

NOVEL-MAD YOUTH ADMITS BLACKMAIL

Demanded $200 From Banker; Eludes Sleuths Who Guard Dummy Package

DANVILLE, Ills., Nov. 5.—Benjamin Johnson, a high school boy, confessed today, according to the police, that it was he who attempted with threats of murder to extort money from C. L. English, president of the First National Bank. Roscoe Dailey, a prominent young man, who has been in jail charged with the crime, was released.

Johnson, his face blackened with burnt cork, was arrested last night near the postoffice. He was waiting for the return of a messenger whom he had sent into the office for a letter in which he had demanded that English should enclose $200.

In the first letter to English it was demanded that he should deposit in front of his residence last Saturday night a package with $200. A dummy package was placed at the designated spot and a score of police watched the neighborhood. Johnson slipped through the line, got the package and safely reached home, he said.

In the boy's room were found a small revolver and many detective novels.

Police Apprehend Runaway Youth

Joseph de Vorack, a schoolboy, residing in Fitchburg, who was reported as missing, was picked up on the streets last night and sent to the Detention Home. His parents will be notified.

Avory Hendrick, residing with his parents at 333 Louisiana street, San Francisco, has been reported as missing to the local police. He is 16 years of age.

Traces Runaway Wife By Screams of Parrot; Effects Reconciliation

CHICAGO, Nov. 5.—The screeching of a parrot in the La Salle street station last night frustrated the plans of a runaway wife and later the bird was the means of effecting a reconciliation between the woman and her husband, Edward Zarndt.

The couple were married a year ago at South Bend, Ind. Among the wedding gifts they received was the parrot. When the husband returned home from work last evening he discovered that his wife had gone, taking a satchel filled with clothes and the talkative bird.

Surmising that she had left him to go back to her old residence, Zarndt hurried to the La Salle station. He searched through the waiting rooms, but his wife was not there.

Just as he was leaving the building he heard a parrot screech. The sound came from the parcel room on the main floor. Thrusting his head through an opening, his gaze fell upon the bird in its cage.

"Hello, Polly," said Zarndt, pursing up his lips and making a kissing sound. "Polly know papa?"

"Hello, papa; hello!" shouted the parrot, striking its beak against the cage in an attempt to escape from its prison.

The husband had found the parrot, but where was his wife? He went to the Harrison-street police station and asked for assistance.

Detectives were put on the case by Lieutenant Bonfield and they decided to wait for the return of the woman to the parcel room. A Lake Shore train would leave for South Bend at 10:30 o'clock.

Five minutes after the departure of the train Mrs. Zarndt came running up the steps to the waiting room. At her side was a man who carried her satchel.

The parrot was handed out to her by the clerk in charge of the parcel room, and as she turned, her husband reached up and grabbed her by the arm. In the meantime the two detectives approached her escort.

"My wife has gone to the country," screamed the bird.

The husband, wife and her companion and the parrot were taken to the police station, where a reconciliation soon followed. Mrs. Zarndt denied that she was eloping.

BISHOP OF ALASKA TO BE IN PULPIT

Will Deliver Morning Address at St. John's Church on Sunday

In the evening the Very Rev. Father Sebastian Dabovich, archimandrite in charge of the Servian Church of America, will talk on "Universal Christian Unity." Father Dabovich was formerly on the staff of the Russo-Greek cathedral of San Francisco and is widely known in this city. STRENGTH FOR THE STOMACH

Statement of a California Woman Who Owes Her Health to the Modern Tonic Treatment.

The symptoms of stomach trouble vary. Some victims have a ravenous appetite, some loathe the sight of food. Often there is a feeling as of weight on the chest, a full feeling in the throat. Sometimes the gas presses on the heart and leads the sufferer to think he has heart disease.

Some people know that the strength which the weak stomach needs, and for the lack of which the whole body is suffering, can be found surely and quickly in Dr. Williams' Pink Pills. In hundreds of instances these pills have succeeded where every other remedy had failed, and in every case the cure was radical.

Mrs. Ed. Hardrath, a nurse, of Watts, Cal., received no permanent relief from stomach trouble until she tried Dr. Williams' Pink Pills. She says:

"I was a sufferer with stomach trouble for over two years and was under a doctor's care for a year or more. He said it was ulceration of the stomach, but he gave me little relief. My stomach didn't seem to digest the food I ate and gas formed, causing pains, bloating, and pressure on the heart. For nearly a year I couldn't eat meat. There were pains through my forehead and down the back of my neck. I was dizzy a great deal and couldn't do my work as I ought to.

"A friend told me about Dr. Williams' Pink Pills and advised me to give them a thorough trial. My improvement was gradual until I was entirely cured. I have had no trouble from indigestion in a long time and recommend Dr. Williams' Pink Pills to everyone who has stomach trouble."

The processes of digestion are controlled by the blood and nerves, and medical science has produced no better digestive tonic than Dr. Williams' Pink Pills. While so promptly effective these pills contain no harmful stimulants or opiates. They create no drug habit. Every dyspeptic should read, "What to Eat and How to Eat." Write the Dr. Williams Medicine Co., Schenectady, N. Y., for a free copy.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50.

BOND CAMPAIGNERS SEND OUT GENERAL CALL TO ARMS

Meeting of Workers Will Be Held on Monday Night, November 8, and All Are Invited

A meeting has been called for Monday night, November 8th, by the staff of the bond campaign to which the presidents, secretaries and executive committees of all commercial, fraternal, trade and labor organizations and improvement clubs are requested to attend.

There is but one week left in which to work, and for the honor of our city we must roll up such a majority in favor of water front improvements that the world will know that Oakland is well to the front of progressive cities. Come and bring a friend.

I. H. CLAY, Commander-in-Chief.
J. W. GARTHWAITE, Commanding Bond Division.
CARL H. REUTER, Adjutant.

AN APPEAL TO EMPLOYERS.

The staff committee of the bond campaign issues an appeal to all employers to impress upon their employes the vital necessity of voting for bonds on Monday, November 15th.

Remember that two-thirds majority is required to carry this election, and therefore every one should see to it that the largest number of affirmative votes possible be recorded so that Oakland may take her place in the first rank of commercial cities.

Remember also that many a good measure has been lost not by those against it, but by the apathy of those possibly in favor.

Talk with your employes and if any of them need enlightenment this committee is at your service at all times. Now is the time to get busy.

I. H. CLAY, Commander-in-Chief.
J. W. GARTHWAITE, Commander Bond Division.
CARL H. REUTER, Adjutant.

A. B. Weeks, who has charge of the Sixth ward for the campaign, is highly elated with the sentiment that prevails there for bonds and annexation. All the "big guns" in that section of the city are enlisted in the crusade, and little opposition is manifested.

The big employers, including the Fisher Lumber Company, Hogan Lumber Company and United Iron Works, have agreed to hold "noon-hour" meetings next week to urge upon their employes the necessity for voting for bonds and annexation.

In the Eighth precinct John C. Rohan has charge of activities and J. B. Greer and William Hobbs have divided the Ninth and Tenth precincts between them.

George Randolph of the United Iron Works has been assigned to the Seventh precinct.

George W. Fisher and Hugh Hogan are not only rivals in the lumber trade, but as captains of the Eleventh and Twelfth sections are trying to outdo each other in piling up votes for bonds and annexation. The prospects are big for a heavy vote in favor of both propositions.

FINANCE COMMITTEE.

The appointment of the leading bankers to the number of five to serve on the general finance committee of the campaign was announced by President I. H. Clay this morning. J. Y. Eccleston of the Oakland Bank of Savings is chairman and the other four members are:

J. F. Carlston of the Central Bank.

L. G. Burpee of the First National Bank.

George W. Meredith of the Farmers and Merchants' Bank; and

C. A. Smith, cashier of the Security Savings Bank.

The committee is representative of the leading financial institutions of the city and the members have promised they will see to it that all interests do their duty in providing funds to wage the campaign.

BOOMING FOR BONDS.

Many of the leading members of the fraternal and social organizations of Oakland have suggested the adoption of resolutions by those societies at their meetings endorsing bonds and annexation.

In consequence of this suggestion J. W. Garthwaite and his staff committee have issued an appeal to the executive officers of all fraternal and social organizations, men and women to meet Monday evening at 8 p. m. to devise ways and means of arousing sentiment in favor of bonds and annexation. "We do not propose to leave a stone unturned in arousing interests in the forthcoming election," said Mr. Garthwaite this morning. "While we feel both bonds and annexation will be carried we are not trusting to reports. As was said at a gathering of the Colored Club the other night by one of the speakers we have to fight 'both the pessimist and the optimist.' That is the best philosophy that has been propounded and in the light of past campaigns it fits Oakland. The pessimists are few on this occasion and optimists are overwhelmingly to the fore, but they are the ones who consider everything is a sure cinch and—well you know how it is, they are so certain they neglect to get out of bed and vote."

IN SEVENTH WARD.

Reports from the Seventh ward, where Bernard P. Miller is in charge of the campaign activities for bonds are most flattering.

In the First precinct George Meredith, Ralph Stocker, R. A. Jackson, Colonel Bryan, Matt M. Crossley, Dr. Wilbur Hulsey, Frank Taylor and Dr. Watts are actively canvassing the district and promise there will be few votes against bonds or annexation in that quarter.

In the Twelfth precinct Harry Anderson is in command and has an active crop of workers out who meet with little opposition.

A great part of the First, Fourth and Fifth precincts are being canvassed by the eighty odd enthusiasts of the East Oakland Heights Improvement Club under the direction of the president, Professor Herman Kower. They completely cover the upper end of the Seventh ward and if there is a vote found in the ballot box against bonds or annexation it will be a stuffer.

PROTEST THAT FAILED

The failure of J. H. Harney to draw any more than 15 persons to a meeting at Sousa's Hall, last night, to register a protest against annexation, is significant of the trend of sentiment in the vicinity of East Fourteenth and Bay streets.

Even the fifteen present refused to go on record as being opposed to becoming an integral part of Oakland and adjournment came without action being taken.

In fact, eight of the audience left before many minutes and with the promotor of the protest, figured among those present at the big Melrose gathering.

Here Mr. Harney attempted to create a diversion by interrupting City Attorney Stetson's address in calling the speaker to order.

Judge Stetson was setting forth the benefits that would result from annexation in the reduction of taxation, when Harney cried out:

"I call him to order. This meeting is called to discuss annexation and not taxation."

As he failed to arouse any applause, or other evidence of the sentiment of the audience being against annexation, his efforts to cause a stampede died in the shell.

CAMPAIGN MEETINGS.

Tonight's big rally for annexation will be held at Latham Terrace Hall, 1618 Twenty-fifth avenue, corner East 23rd street. There will be speaking by Mayor Frank K. Mott, City Attorney J. W. Stetson, Councilman Harold Everhart, James P. Montgomery and others. The clever band of little musicians from the Lockwood school, which has rendered such efficient service at other meetings will furnish the music.

Tomorrow night, the big meeting at Diamond, in Fruitvale Hall, at Fruitvale avenue and Hopkins street will close the week's campaign in the outside district.

IN CONFAB WITH ANNEXATION'S ENEMIES

Mayor Mott and Committee Meet "Opposers" to Hear Plaints

WILL PROBABLY BRING CONSOLIDATION UNITY

Right to Hold Public Office Important Issue With Dissenters

A conference is in progress at the Key Route Inn between a committee of ten of Oakland's representatives and a delegation of a like number representing the outside district who are opposed to annexation. The committee representing Oakland was appointed at the get-together dinner and a conference held Wednesday evening and is composed of Mayor Mott, City Attorney J. W. Stetson, I. H. Clay, president of the Chamber of Commerce; E. A. Young, president of the Merchants' Exchange; W. E. Gibson, F. A. Leach Jr., J. P. Montgomery, J. Y. Eccleston, H. C. Capwell and F. W. Bilger, with Attorney Charles E. Snook as special guest of the occasion.

MEET "OPPOSERS."

The outside committee was headed by Frank J. Gordon, chairman; A. A. Leonard, secretary. Among those of the delegation are Phil Riley of Elmhurst; Ben Wilson, Messrs. Broderick and Brooks of Dimond; E. A. Freeman of Fruitvale, George Ingraham, J. F. Waldron and Mr. Shaw of Laurel Grove.

The various points of difference are being gradually gone over and the outcome of the conference is very promising for stifling all opposition to the proposed annexation movement. The principal point at issue, and over which there is the most discussion, was the clause in the charter which required residence in the city of Oakland for a number of years before office could be held in the city government.

This, however, was combatted by J. W. Stetson, city attorney, who claims that under a Supreme Court decision those of the annexed district took their place and possessed all the privileges of the citizens of the older city.

Another point is the charter. The delegation seems to be determined on the point of having a new charter with the referendum, initiative and recall system made part of it.

The conference is bringing them nearer together on the points at issue, and according to the statements of both sides, the probabilities are that the close of the conference will bring both sides in accord on the question of annexation, and end the opposition that has been rather aggressive in the outside district.

HARD LUCK KEEPS HIM OUT OF JAIL

Typhoid and Broken Ribs and Hand, Few of Reasons for Failure to Pay Alimony

SAN FRANCISCO, Nov. 5.—"First I was sick with typhoid fever, then I fell off a stage up near Klamath Hot Springs and broke four ribs, and after that when I came back I broke my hand," said W. H. Jeffres, a confidential agent, residing at the Hotel Arcade, Twentieth and San Pablo avenue, Oakland, to Superior Judge Graham this morning. The recitation of the hard luck saved him from a charge of contempt of court.

His wife, who secured a divorce from him recently, had complained to the court that he was $540 in arrears in the payment of alimony and had also failed to pay for the support of their minor child, who is at school in San Rafael. When he appeared today Jeffress told Judge Graham that his employment was irregular and that some months he earned $50 and others $100. The order to show cause why he should not be punished for contempt of court was dismissed after he had told of his misfortunes, and he was given until the first of December to pay his wife $25.

SAN FRANCISCO SOCIETY

SAN FRANCISCO, Nov. 5.—Invitations have been issued by Mr. and Mrs. M. Banner for the marriage of their daughter Hazel and Dr. Alvin Cerf. The wedding will take place at noon on Sunday, November 14, at the Fairmont Hotel.

From Mare Island comes the interesting news of the engagement of Miss Mattie Milton, daughter of Captain and Mrs. John B. Milton, to Lieutenant G. F. Neal, U. S. N.

The announcement was made at a jolly tea given yesterday afternoon by the bride-elect aboard her father's ship, the United States steamship Independence, which had been elaborately decorated for this auspicious occasion. There are few more popular girls than Miss Milton, who was an acknowledged belle in San Francisco before her departure for the navy yard. She made her debut with the Huntington girls, Miss Jessie Wright, Mrs. John Murphy (nee Nokes) and others of that same delightful coterie.

Lieutenant Neal, who is attached to the monitor Cheyenne, now at Mare Island, is said to be worthy of his bride-to-be, and few greater compliments could be paid him.

The dancing season of 1909-10 will be inaugurated this evening by the first of the Friday night dances. This popular organization has been in existence for about a dozen years, and the original patronesses are today assuring its brilliant success. They are: Mrs. Wakefield Baker, Mrs. George Ashton, Mrs. Louis Monteagle, Mrs. James P. Langhorne and Mrs. George Moore.

Mr. and Mrs. Henry Dernham will leave this evening for New York via the Grand Canyon. They propose spending the winter in the country of the Pharaohs and will be absent from San Francisco until late in the spring.

The wedding of Miss Lucy Givin Coleman and Germaine Vincent will be celebrated in the early part of December at the home of the bride's mother, Mrs. Barry Coleman, in San Mateo.

On account of the prominence of the couple it will be one of the notable events of the winter, but will be witnessed only by intimate friends.

Mr. and Mrs. Henry Bothin intend to leave for a European trip about Christmas time. They will remain abroad several months.

MUST GO TO PRISON FOR ASSAULT ON RIVAL

SAN FRANCISCO, Nov. 5.—Sophius Jensen, who, in a quarrel over a young woman, shot and seriously wounded Peter Mose some time ago, was found guilty by a jury in Judge Dunne's court today. The young man was charged with assault with a deadly weapon.

The two men were rivals for the hand of the girl, and when Jensen, on one occasion, found her in Mose's company he was so angry that he drew a revolver and fired.

Fruitvale Sentiment Is for Annexation

The following expression of opinion concerning annexation is from those prominent in the affairs and activities of Fruitvale:

EX-SUPERVISOR J. R. TALCOTT, one of the largest taxpayers and pioneer resident of Fruitvale, said: I am for annexation to Oakland. I am the first to advocate such a course, and see in it the only solution of the problem that now confronts us. City and county government is our final destiny, but Oakland must be built up and the people educated to that point. In the meantime I am strongly urging that we should unite with Oakland.

H. E. PLETTNER, real estate, Fruitvale avenue, near Southern Pacific station, is strong for annexation. He argues that more improvements must be made out there, and as soon as the streets are fixed up that this part of the city will go right ahead. A great many of his friends are working with him to show the benefits of annexation.

A. RODIE, a large property owner at Dimond, says: "Annexation is the proper thing." He presided at an enthusiastic meeting a few evenings ago, and when a vote was taken a large majority voted in favor of annexation. He added that Fruitvale is gaining rapidly in population.

P. C. FREDERICKSON, Boulevard avenue and Thirty-third avenue, who owns quite a bit of property, and hence is a large taxpayer, has lived in Fruitvale for thirty-two years. He has been opposed to annexation up to the present time, but is now working hard for it, and says it will carry with a good margin. The sooner it comes the better it will be for all concerned. He is doing a good work with those opposed by showing them the benefits to be received from annexation.

GEO. B. MOYLE, grocer, corner Fruitvale and Boulevard avenues, says he is very much in favor of annexation, and the best thing all can do is vote for it. "Of course, it may not benefit us very much for awhile, but surely we can't be any worse, as far as taxation is concerned," said Mr. Moyle.

JOE E. PETERS, plumber, 3050 Boulevard avenue, says: "I am very much in favor of annexation. It should have been done long ago; and now I hope it carries."

DR. E. R. CALDWELL, 1805 Fruitvale avenue, said: "So far as I am personally concerned, I am in favor of annexation."

L. HOWATT and B. M. LYON of the Home Investment Co. are both enthusiastic workers for annexation. As their friends pass their place of business on Boulevard avenue, corner Fruitvale avenue, they stop them and endeavor to show them the benefits to be derived from annexation, and have turned many to their way of thinking.

DR. J. M. CRUMP, 3300 Forest street, said: "Annexation is the only logical thing, and should be carried by a large majority; and the sooner it is adopted the better it will be for all concerned."

JOHN E. GOODY, 3202 East Twelfth street, real estate, is very much in favor of annexation and hopes it will carry.

BREAKFAST LURE FATAL TO WORKERS

Offered "Feed" for Speaking; Are Arrested Before They Can Eat

SPOKANE, Nov. 5. — Braced by the big free breakfast offered by the Industrial Workers of the World to all who would promise to speak on the streets today, a number of orators appeared on Main avenue and were gathered in by the police before their speeches were well started.

At the jail the bread and water diet is maintained for all convicted street speakers who refuse to break rock with three good meals a day for all who work. It is believed few of the prisoners will yield today, but tomorrow may see a break in the ranks.

A number of speakers are expected here from Kalispel, Montana, the advance guard having arrived during the night.

Among the bulletins posted by the I. W. W. is one declaring:

"The I. W. W.'s and the police have nothing in common. There can be no peace so long as the police use clubs and hose and the I. W. W. uses pen and tongue. Between these two a struggle must go on until the I. W. W. civilizes the police."

Other bulletins refer to the chief of police as "pin head Sullivan" while the mayor is branded as "Czar Pratt."

Lovett on Illinois Central Committee

NEW YORK, Nov. 5.—It was announced today that former Judge Robert S. Lovett was elected to the committee of law and finance of the Illinois Central Railroad Company, to succeed the late E. H. Harriman, at a meeting of the board of directors in this city yesterday.

WOMAN ASSERTS PET CAT WAS STOLEN BY THUG

SAN FRANCISCO, Nov. 5.—A valuable prize-winning Angora cat, which comes when you call him by the spicy name of "Ginger," is missing, and Mrs. A. Lynch, his proud owner, asserts positively that a desperate burglar broke into her home an dcarried off her treasured pet. That there was nothing else disturbed and that money and jewelry was lying around loose and was not touched by the culprit does not alter Mrs. Lynch's opinion, and although Detectives Anderson thinks that "Ginger" is away seeking the society of other felines, and having a little joy period of his own, he detailed several detectives to make an investigation.

MINISTER'S WIFE FOUND DEAD ON FLOOR OF ROOM

LOS ANGELES, Nov. 5.—The dead body of Mrs. Belle Tinker, matron of the Y. M. C. A., was found upon the floor of her room at 721 South Hope street this morning by her assistant, who went to arouse her. The coroner has investigated and signed a certificate that death was due to valvular disease of the heart.

Mrs. Tinker was the widow of a Baptist preacher, who was killed by a street car in this city several years ago. She was 50 years of age and was well known on the coast for her work with the Y. W. C. A.

The Source of Cottolene Is Pleasing

From the snowy tufts of the cotton plant, the seed is removed, crushed, and the oil extracted. This in turn is refined by our own special process and the oil made odorless and neutral in taste.

Being a vegetable product, cottonseed oil is free from any possible taint of animal infection. You cannot be absolutely sure of this when buying hog lard, for fats of animal origin are, of necessity, not as healthful as fats obtained from vegetable sources. Right there is the difference between lard and *Cottolene* from the standpoint of health.

If every housewife would but stop to think of the difference in purity, cleanliness and healthfulness of hog lard and *Cottolene*, lard would never again be used in any home.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

TYPOS RAISING CRAFT TO AN ART

Apprentices to Be Trained After Higher Ideals of the Trade

There are many persons interested in and talking about trade education of one kind or another. The International Typographical Union has quit talking and got down to work. Two years ago it adopted a resolution appointing a commission "to formulate some system for the technical education of our members and apprentices." This commission is composed of men well known to the craft, and that they lost no time is proved by the enrollment of more than one thousand students.

The commission has issued its first booklet illustrative of the work of its students. A handsome piece of typography, it demonstrates that printing is an art. The ambitious apprentice shows his skill on work of a class that is not done in the office in which he works; the accomplished printer of sixty years is doing work that he previously did not know how to do. This broadening of the scope of a mechanic's work by a labor organization is something new in America. By doing so, the typographical union is insuring its future and making a valuable contribution to the esthetics of the day.

The commission explains that it went to the art schools and took from their courses all that it thought would be of benefit to the compositor. The knowledge acquired there was expressed in terms familiar to printers, and its application to typography clearly shown. This gives compositors an opportunity to master the principles underlying their art. In the twentieth-century rush there is no time for showing apprentices the "why" of what they do. It is impossible to develop an army of good artisans in the prevailing slipshod way. Only the extraordinarily proficient will "make good." The course proves a remedy for this regrettable state of affairs, as every printer can now get competent instruction from capable teachers on the problems of his craft. The specimens of students' work shown in the booklet prove what an advantage this is to young and old, experienced and inexperienced.

The course is a nonprofitable venture. The International Typographical Union defrays all promotional expenses out of its general fund, and gives a rebate or prize of $5 to each student who finishes the course showing ordinary capacity.

The course is imparted by correspondence, and the union's commission claims that its methods of imparting information are as thorough as the instruction is complete and informing. As has become its habit, the typographical union is acquitting itself well in its educational venture, and several other international labor organizations are preparing to follow in its wake.

SON OF OUTLAW SUED FOR DIVORCE

Wife of Jessie James Jr. Asserts Husband Stayed Out All Night

KANSAS CITY, Mo., Nov. 5. -- Jesse James Jr., son of the famous bandit and now living in this city, was made defendant in a divorce suit filed here by his wife yesterday.

Mrs. James alleges indignities and declares that her husband has developed a habit of staying out late at night and refusing to tell here where he has been. They were married in January, 1900. The couple separated last September, their four small daughters remaining with their mother.

James formerly ran a cigar store here and then opened a pawnbroker's shop. Later he took up the study of criminal law and practiced in the local courts. A few months before his marriage he was acquitted of complicity in the Missouri-Pacific train robbery east of here, after a sensational trial.

Strike a Match--- Water Is Heated Instantaneously

HOW TO HAVE UNLIMITED SUPPLY OF HOT WATER DAY AND NIGHT, FOR FEW CENTS A DAY.

A water heater that heats instantaneously all the water you can possibly use or want, any time in the 24 hours, even in the middle of the night when every fire in the house is out; a water heater that uses gas only while the hot water is actually running out of the faucet; that gives you water steaming hot and not merely luke-warm; that uses one-third the gas you now use in your kitchen boiler; that heats water only as fast as you use it, and that would keep pouring out hot water from now till doomsday if you would let it—this is what no kitchen boiler or any other water-heating system could ever do or ever has done, but what is now done by that marvel of ingenuity, comfort, convenience and economy—the Humphrey Instantaneous Bath-Heater.

For instance, you place one of these heaters in your bath-room. Three people in your house want to take a bath within two hours' time. With a kitchen boiler to rely on, it couldn't be done. You couldn't heat the water quick enough in the first place. But with this "Humphrey Instntaneous" bather No. 1 goes in the bathroom, strikes a match, lights the gas under the heater, turns on the water. Quicker than it takes to walk five steps the hot water pours out full force, piping hot, as long as the faucet is turned on. By turning off the water you turn off the gas and the water ceases to be heated. Your expense stops.

When bather No. 2 is ready, the same simple "motions" are made, and steaming hot water flows from the pipe as though it had been heated for hours.

The "Humphrey Instantaneous Bath Heater" does not store water but heats it.

Your kitchen boiler stores water, which is its greatest disadvantage. Its supply of water is always limited, its water is never hot when most needed, it requires more gas than ought to be necessary, it never supplies water for more than one bath, and it takes an age to heat more water for another bath for another bather. Besides, in the kitchen boiler you always have to heat more water than you use and have to wait a long while before it gets sufficiently hot. This is an expensive waste of gas, loss of time and an inconvenience, and the water you get is usually lake warm after all.

With the "Humphrey Instantaneous" you have hot water instantly for any purpose, even in the middle of the night, when every fire in the house is out, just as quick as it takes you to strike a match. The supply of hot water never ends, unless you shut it off yourself.

With the "Humphrey Instantaneous" you get the cheapest hot water in the world. A family of five uses on an average of 60 gallons of hot water a day. With gas costing $1.00 for 1000 cubic feet, it costs 20c a day to heat these 60 gallons with your kitchen boiler. The "Humphrey Instantaneous" heats these 60 gallons for only 6 cents a day.

It is a perfect heater for summer as well as winter use. The heater is so constructed that only the water is heated. There is no radiation of heat in the room. It can be used in the hottest weather without adding to the heat of the room.

Send for our free beautiful book of illustrations and full explanations of the Humphrey Instantaneous Bath Heaters, by sending your name and address today to The Humphrey Co., Dept. 1, Kalamazoo, Michigan.

If you prefer a larger heater, for supplying a whole house with hot water instantaneously, any minute of the day or night for kitchen, laundry, mens and bathrooms, we manufacture the Automatic Thermal Water Heater. We have a separate booklet on these wonderful Automatic Heaters, which we will also send you free if you are interested. Send for it.

SESSIONS WRITES OF TIDAL CANAL

Urges Necessity of Bringing Outside District Into the Fold

EDITOR TRIBUNE: In advocating the extension of the boundary lines of the city of Oakland, one matter of importance has not, according to my belief, been sufficiently dwelt upon, namely, the opening of the Tidal Canal to navigation and the operating of the draw-bridges constructed at Park street, Fruitvale avenue and High street. The Tidal Canal and these bridges are now solely under the control of the War Department of the United States, which department has, however, offered to open the canal to navigation and to allow the bridges, which have heretofore never been operated as draw-bridges, to be opened to shipping.

The Tidal Canal proper is something over 9000 feet long and at the time of its completion, had a depth of water at low tide of eight feet. Recent soundings made by the United States Government show that the canal has scoured and that a large part of it has now about ten feet at low tide. The operating of the draw-bridges will, without additional dredging, open up an artificial waterway as wide as the Panama Canal and accommodate at high tide vessels drawing from 12 to 16 feet of water. It will open up and make available large unoccupied areas in the districts immediately east of the present city boundary line. Even at the present time, the oil barge "Santa Paula," drawing 15 feet of water, is able to carry a full cargo as far as the Park street bridge. It will also pave the way for the dredging of San Leandro Bay and the thousands of feet of water frontage on what is known as East Creek.

The fact that the main lines of two transcontinental railroads serve these sparsely occupied districts assures for all concerned the great benefits and immediate necessity of annexation.

Very truly yours,
EDWARD C. SESSIONS.

BON VIVANT MAY WORK IN STREETS

Dashing Sidney Love, Deserted By Wife, To Recoup Fortunes at Any Cost

SEATTLE, Wash., Nov. 5.—Estranged from his beautiful wife, formerly Miss Marjorie Nurnes, a Chicago society belle, and reduced to low financial straits, Sydney C. Love, once a millionaire New York broker and society lion, is in Seattle to recoup his fallen fortunes. He has been quoted as saying that he was coming west to start all over again, even to working in the streets if there was nothing else to do.

He is not yet reduced to such straits, however, for he occupies a luxurious suite at the Butler Hotel, and his immaculate apparel has not given way to workingman's garb.

WIFE IN ENGLAND.

Love has been in the city for three days. Yesterday he declared that he intends going into business in this city.

"Seattle looks good to me," he said, "and I may locate here. I have made no decision, however."

It is said that his wife, who is in England, will sue for a divorce as soon as she returns to Chicago.

When asked if this was true he said: "That's nobody's business but our own. The relations between my wife and myself are of no concern to any one else and I refuse to discuss them."

NO TRACE OF SHIP THOUGHT LOST

Revenue Cutter McCulloch Fails in Search for Wreckage on Coast

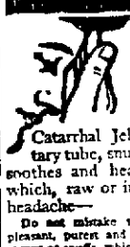

SAN FRANCISCO, Nov. 5.—No trace has yet been found of the vessel supposed to have been wrecked on the Marin county coast near Bodega, and seafaring men at this port generally are of the opinion that no steamer has gone ashore there. A wireless message from the Revenue Cutter Hugh McCulloch received today, stated that she had been unable to discover evidence of a marine disaster, but was continuing to patrol the coast in an effort to solve the mystery of the signals of distress heard Wednesday night and yesterday morning.

The impression prevails that the whistles heard on shore were blown by some vessel which got dangerously close to land during the thick fog, but succeeded in escaping accident.

CONVICTED ATTORNEY PERFECTS HIS APPEAL

SAN JOSE, Nov. 5.—The engrossed bill of exceptions in the case of Jackson Hatch, the attorney, and once candidate for Supreme Justice of California, who has been sentenced to five years in San Quentin on a charge of embezzlement, was received yesterday by County Clerk Phister and forwarded to Attorney General U. S. Webb and the District Court of Appeal. The bill is in three volumes, having a total of 1200 pages. Hatch has had his case on appeal since last Christmas, when he was found guilty and sentenced by Judge J. R. Welch of the Superior Court.

The following is their petition:

Hon. J. W. McClymonds. That we may be better informed we the principals of the city schools, would most respectfully request that you call a meeting of the principals and any teachers who may want to attend, for the purpose of discussing the coming bond election for civic improvements especially that part which pertains to the building of docks and wharves. We would also request that the Hon. Mayor Mott be invited to address us at said meeting. (Signed)

J. P. GARLICK,
S. P. MEADES,
H. C. PETRAY,
C. F. HUDSPETH,
R. S. WHELLER,
J. P. CHANDLER.

Mr. McClymonds has written to Mayor Mott asking him if he will address the meeting next Thursday afternoon, and if so, he will call a meeting of the principals and teachers at 3:45 in the Common School Assembly hall.

GIN FOR BACKACHE

Backache means deranged kidneys. Get six ounces good pure gin, one-half ounce Murax compound, one-half ounce fluid extract Buchu. Mix and take one to two teaspoonfuls three times a day after meals. Any good druggist can furnish or mix these ingredients.

Pain in the back, frequent or highly colored urination, rheumatic pains, soreness in the groin or hips, dizziness, puffiness under the eyes, etc., are symptoms of kidney and bladder trouble which should have quick attention to prevent chronic rheumatism, dreaded Bright's disease or diabetes.

TRAIN CUTS FIRE HOSE; PACKING HOUSE BURNS

SAN JOSE, Nov. 5.—The "Salinas passenger," arriving here at 6:20 p. m., was responsible for the loss of the Rosenburg Bros. packing house, Fourth and Lewis streets, by fire last night. The train, traveling more than twenty-five miles an hour, ran over the fire hose which carried two streams of water to the flaming building and delayed the progress of the firemen for almost a half hour. The fire broke out in the packing house shortly after 6 o'clock. The loss is estimated at $15,000. The building was owned by Henry Meyers of San Francisco.

HUMANE SOCIETY CONTINUES ACTIVE

More Than 1400 Cases Are Investigated During the Past Month

At the November meeting of the directors of the Oakland Society P. C. A. of Alameda county, the following report covering the last month's work was submitted by the special humane officers acting for the society. Number of animals examined 1441, among these 18 were lame, 16 had galled shoulders, 17 had sore feet due to poor shoes, 13 had eyes injured by flapping blinders, and 5 were greatly overloaded. 16 horses totally unfit for work were taken from the harness, 27 drivers and owners were warned to treat their animals more humanely; 4 large animals sick or injured beyond recovery were mercifully destroyed, 14 small animals similarly situated or abandoned were humanely destroyed, 7 calls for the ambulance were made, there were 8 arrests, 92 complaints of cruelty were reported to the society's office.

Several cases of most cruel beating of horses received the attention of the officers during the month. In each instance the offender was fined after the judge had listened to the testimony. Several firms have failed to heed the officers' warnings and have persisted in driving horses unfit for work. In some cases the animals have been condemned by the examining veterinarian and have been destroyed. The drivers or owners of such broken-down horses are given every chance by the officers to replace such animals with better ones and failure to do this results in arrest.

In the interest of humane education the society will subscribe for a sufficient number of "Our Dumb Animals" to place copies in all of the public libraries of the county. Effort will also be made to have introduced into the libraries of the public schools some excellent books concerning the animals. Band of Mercy work also will receive attention this winter.

At the meeting Col. Frank Soule was made an honorary member of the society, and upon application he and W. C. Ralston were appointed volunteer humane officers to serve without pay.

EX-CONVICT, AGED 72, GOES BACK TO PRISON

SANTA ROSA, Nov. 5.—Hiram Payne, 72 years old, was sentenced to serve seven years in San Quentin State prison by Superior Judge White yesterday afternoon, following Payne's conviction for obtaining $60 under false pretenses from Cashier A. B. Swain of the Analy Savings Bank of Sebastopol. The offense was committed five days after Payne had been liberated from State's prison.

Cook at $1.20 a Word is Now America's Highest Paid Author

NEW YORK, Nov. 5.—Former President Roosevelt has lost his record as the highest paid author in the world. For the narrative of his big game hunt in Africa, it has been generally understood that he was to receive $1 a word, but now a comparatively new magazine announces that it has contracted to pay Commander Robert E. Peary $1.20 a word for a story of about 50,000 concerning his adventures in seeking the North Pole.

TAFT DECLARES FONDNESS FOR SUCCULENT 'POSSUM'

MACON, Nov. 5.—President Taft has formally come to the defense of the "possum." When somebody in a crowd in Columbus, Ga., yesterday shouted, "How about 'possum?'" he said: "In some way or other the impression has gone abroad that I have a peculiar love for that dish. Well, at Atlanta they gave me a dish of 'possum' that was very well cooked and that I enjoyed very much. I am bound to say that I could not distinguish it from the taste of young pig, but I have had to encounter, in insisting that I did like it, a certain sort of prejudice that is said to exist against that animal in the tastes of some people. Now, I don't entertain that sort of prejudice."

NAPA ALUMNAE REUNION.

Most enjoyable was the reunion at the Key Route Inn Wednesday afternoon of the former students and alumnae of the Napa Seminary founded in pioneer days by Misses Sarah and Maria MacDonald.

Guests assembled from San Mateo, San Francisco, Berkeley, Oakland, Santa Rosa and all points about the bay.

Mrs. M. M. Collins is president of the alumnae association, which has planned to meet bi-annually and will meet again in 1910 at San Mateo. After refreshments the members heard vocal and instrumental music and speeches were read from Frederick MacDonald, now of Washington, and Rev. RIGHT LIVING AND THINKING.

"Right Living and Right Thinking" is the theme of the address which Mrs. John Vance Cheney delivered this afternoon under the auspices of the Home Club at the clubhouse. Mrs. Cheney is the house guest of her daughter, Mrs. Harold Havens, on Bonita avenue, Piedmont, and during her stay on the coast has been the motif of a number of social and club activities. Her home is in New York, where she is the central figure of a wide circle of devotees to the new cult of right living and thinking.

She is a living example of the efficacy of her teachings, her radiant health being reflected in a most attractive personality. Mrs. Cheney is a handsome woman, with a distinguished manner that is very engaging. She came to the coast to assist in disseminating the new thought which she advocates and will also visit Los Angeles and other places in California before returning. She plans to leave Oakland about November 9. The lecture to-day began at [illegible] and occupied the entire session of the club.

FANCY WORK SALE.

Instead of playing cards a club of well-known society women have been spending long afternoons a month this fall plying their needles in the cause of charity. The articles made at these sessions were placed on sale today at the spacious home of Mrs. H. B. Mehrmann, on Grove street. The ladies have not decided to what charity the proceeds will accrue, but that they will be placed to the best advantage goes without saying.

Fancy work of all descriptions were displayed and found a ready sale.

Among the ladies who assisted in disposing of the attractive wares were Mrs. Henry B. Mehrmann, Miss Grace L. Trevor, Mrs. Henry East, Mrs. F. G. Dibble, Mrs. Leon Hall, Mrs. A. L. Wolfe, who is president of the society, Mrs. H. Chamberlin, Mrs. C. M. Orr, Mrs. G. C. Ryno, Mrs. William Hershiser, Mrs. J. M. Scotchler, Mrs. C. J. Heeseman and Mrs. Herbert Lang.

IN HONOR OF SISTER.

Miss Marion Ekerson was hostess this afternoon at her home on Filbert street, entertaining about thirty guests in honor of her sister, Mrs. Arthur Goodlitte, who came up from Los Angeles for the Portola festival and who plans to return early next week to her southern home. An informal tea and a session at bridge occupied the hours.

The guests were largely friends of Mrs. Goodlitte, who formerly made her home here.

INTERESTING ANNOUNCEMENT.

Ebell club members will be pleased to learn that Mme. Ali Kuli-Khan will give an interesting talk on "Persian Women," at the luncheon which will be held on Tuesday, November 9. Mrs. Mary Fairweather, who is visiting the coast for a few months, will also be a speaker of the day. Mrs. Olive Reed Cushman is to contribute a group of songs.

RECEPTION TOMORROW.

The elaborate "at home" at which Mrs. William Boericke and her debutante daughters, Misses Ruth and Dorothy, will preside in at their home in San Francisco tomorrow, will take a number of the smart set from Oakland across the bay.

The Boerickes spent the summer in Mill Valley, returning late in the season to San Francisco, where they opened a handsome new home on Washington street and plan to do extensive entertaining. At the affair tomorrow Mrs. Boericke and her daughters will be assisted in receiving by a number of young maids and matrons from both sides of the bay.

TO BE DECEMBER WEDDING.

Miss May Bat Kindler has set her wedding date for early in December. She has planned a home wedding, with only the closest friends of the young bride and her fiance, Harry D. Newton, included in the invitation list. The bride-elect is the daughter of Professor Charles [illegible], well known in scientific circles. Miss [illegible] has a charming gift of music and a girl with many friends.

Newton is engaged in business in San Francisco.

ENJOYABLE VISIT.

Mrs. Cora E. Jones, president of Alameda District, C. F. W. C., has returned from a visit of several days with Mrs. Fisher Clarke of Stockton. Mrs. Clark entertained a congenial group of friends at a house party and several pleasant affairs were planned in honor of Mrs. Jones, who went to Stockton for the purpose of visiting the women's clubs of that vicinity.

DRAMATIC MATINEE.

At the dramatic matinee which Mrs. Herbert Sanford Howard will give at Wilkins Hall, Berkeley, the afternoon of November 15, Mrs. Howard will be supported in the tent scene from Maeterlinck's "Mona Vanna," by Robert Harrison of Ye Liberty Theater, as Prinzevalli and Edgar Robinson of San Francisco as Vanna. With these two professionals and Mrs. Howard, whose talents compare with those of professionals, an artistic representation of rare merit is predicted.

The farce, "Tom's Baby," written by Mrs. Julia B. Foster, will receive clever interpretation in the hands of Mrs. Walter Carroll, the clever member of the Readers' Club, who has been heard at many dramatic and musical entertainments, with Roscoe Long as a most acceptable support. Mrs. Carroll has beauty as well as histrionic genius. In fact the whole program, consisting of the two sketches mentioned and the playlet "Sweet Alyssum," written by Mrs. Howard, in collaboration with Miss Jean MacMillan, promises an amateur performance which will establish a precedent in the bay cities.

Crossing the Bath in Aeroplanes Is Latest of the English Sports

ENGLISHWOMEN are raving over a new sport, an aero-aquatic contest which has sprung up since M. Bleriot crossed the English Channel in his monoplane. A few evenings ago those in charge of the gala night of the Clapton Ladies' Swimming Club at Hackney Baths organized the unique competition illustrated above. Each of those taking part held a miniature "aeroplane," and, carrying it, dived feetforemost into the water, afterward swimming to the other end of the bath, still holding the "flying machine."

It proved to be a sensationally popular as well as picturesque diversion, the aeroplanes enabling the swimmers to float far out over the baths before striking the water. The sight was as if each participant had the wings of a gull, and as they alighted the simile was even more impressive.

The sport will in all probability be introduced into the United States by next summer, and our own bathing beach, in the shadow of the monument, may witness similar contests. Surely Atlantic City, Coney Island, and the other populous watering places will not be slow in adopting such a novel sport.

SUFFRAGETTES HAVE INVADED ROME

Women were asserting themselves in Rome in 195 B. C. just as they are today. After the battle of Cannae the Oppian law was passed forbidding any woman "to have more than half an ounce of gold, to wear a parti-colored garment, or to ride in a chariot within the city or within half a mile of it, except for religious purposes." The women at first denied themselves for the good of Rome, but when the war ended and prosperity returned they refused to obey the law. They combined for the repeal of the law, and marched to the Forum in crowds, demanding that they be permitted to adorn themselves as they pleased. The situation enraged Cato, who demanded: "Are your ways more winning in public than in private, and with other women's husbands than your own?" Again he wrote: "We, by our present action, if the gods permit it, are letting them appear in the Forum and take a hand at public meetings and in the voting booths." And addressing himself bluntly to his fellow Romans, he wrote: "Pray, what will they not assail if they carry this point? Tell me, if you let them seize privileges and wrest them from you one by one, and finally become your equals, do you think that you can stand them? As soon as they have begun to be your equals they will be your superiors." Alas, for poor Cato! The women had their way, for the Oppian law was repealed by a unanimous vote of the assembly.

Says Woman's Mating Instinct Is Gone—They Cannot Love

An erudite person with a Ph. D. after his name has lately been unloading in the Daily Mirror some interesting information, so called, anent a burning question of the day. The erudite person takes for granted that the brain capacity of woman is inferior to man's because her skull is smaller, and he quotes a formidable array of learned experiments to show that her senses—touch, taste, smell, hearing, sight—are less acute; even the mating instinct, long supposed to be her special province, he will not allow her. "Man's passion is to woman's as sunlight unto moonlight," he says. "Woman, in fact, has very little use for a lover. What she wants is some one to take care of her and support her, and the man who can do this best is the one who wins what, by courtesy, is called her love. The sentiment popularly associated with these arrangements is a pure fiction on the female side and survives only because it is so carefully nursed by ill advised old women, both male and female. If, however, par extraordinaire, they do get attached to a man, it is in inverse ratio to his merits. Then they develop the unreasoning and blind submissiveness of 'Bill' Sike's dog. Rather a blow from the man they love than a caress from another. The obtusity of their senses makes them blind."

GIRLS WILL CHANGE

They say the girls they're raisin' here
Has very takin' ways,
Mayhap 'tis true but, dear, Oh! dear,
'Tis not their likes I praise.
There's not a wan of all the lot
I've ever chanced to see—
Not wan o' them—that ever got
A heart throb out o' me.
An' sure, I'm not so hard to pl'ase;
'Tis I that used to know
A score o' maids deservin' praise—
But that was long ago.

Although the times an' styles may change,
A maid is still a maid:
But here she looks and acts so strange
She's different, I'm afraid.
Mayhap the climate here's to blame
For all the faults I see;
At anny rate they're not the same
As maidens used to be.
But Irish maids' Och, over there
The girls I used to know
Were always sweet an' true an' fair—
Was that so long ago?

'No Place for Women' Either in The Pulpit or at Bar, Says Judge

CHICAGO.—"You can't be theologians, because you haven't the power of analysis; you can't be lawyers, because you are devoid of the reasoning faculty; you are not successful scientists, because you can consider only one detail at a time; you are only occasionally successful in business and succeed only in those branches of medicine which call for the exercise of the nursing instinct."

Federal Judge Peter S. Grosscup made these statements to the women of the Ossoli Club, the women's auxiliary of the Highland Park Club last night in the clubhouse of the men's organization. But he escaped their vengeance by telling them a lot of things they can do.

"I wish to present an analysis of woman's work from my point of view," he said. "The only woman lawyer I know who is a success began her career by being put in jail for contempt of court for throwing a pitcher of water at a judge who overruled her motion.

"The feminine mind is the complement of the masculine mind. With but one of them in existence the world would soon become a dreary place and, in a few generations its population would disappear."

While He Minded the Babies Meeting Waited

ATLANTA.—While leading bankers, capitalists, city officials and theater managers fidgetted in their seats at a meeting here the other morning, anxious to get through and return to their business, Councilman Chambers, whose presence was absolutely necessary, was sitting in his office taking care of his two babies, unable to get away.

A meeting of the council committee on auditoriums and conventions had been called, the question up for discussion being whether any charge should be made for use of the city auditorium by big attractions. Councilman Chambers' presence was needed to complete a quorum.

He was telephoned to come at once.

"Just wait a few minutes, gentlemen," he said.

They waited ten minutes, then phoned again.

"Just a few minutes longer, please," he pleaded.

At the third phoning he had to confess.

"Gentlemen," he said, "my wife left me half an hour ago with my two kids in the office, and I simply can't leave them. They are tearing up the office now."

His explanation was received with general satisfaction and another meeting will be held.

Mrs. Chambers is no suffragette, however. But she does love a bargain, and had to leave the babies somewhere. Why not with her husband?

Her Face Powder Box Was a Burglar Alarm

NEW YORK.—The very last word in burglar alarms is a cut glass toilet powder case that lies in wait for the marauder on a lady's dressing table. At the psychological moment, when the marauder is busy marauding, the toilet case falls to the floor, breaks and arouses the household.

Such a burglar alarm was used effectively the other night in the Belvedere apartment house at 565 West One Hundred and Forty-fourth street, in the apartment of Charles L. Trout, on the sixth floor. Mr. Trout is a jeweler with a place of business at 2 Maiden Lane. The family was at dinner when Mrs. Trout heard a noise in her bedroom. She sent a maid to investigate. At the threshold of her room the maid touched a button that flooded the room with light. Then she saw David Finley, the elevator boy. Finley's natural color is ebony, and the face powder that he spilled over his clothing brought his features into high relief.

"What are you doing there, David?" inquired the maid.

"Nothin'," replied David.

At David's feet the maid saw a package of the family silverware, jewelry and glass—all except the powder puff case which was shattered.

"Ah done got a letter foh Mr. Trout," continued David. He held out the letter. It was partly covered with toilet powder.

Mr. Trout appeared and took the letter. He also remarked that he might shoot David if he tried to get away. Then Mr. Trout called up police headquarters on the phone. Patrolmen O'Connell and Hamman of the West One Hundred and Twenty-fifth street station took David away on a charge of attempted grand larceny. He gave his residence as 361 West One Hundred and Thirty-sixth street.

The family went back to dinner.

Mrs. Trout will get a new cut glass toilet powder case.

Took His Life That Wife Might Get His Insurance

CHICAGO.—A pathetic tale of unselfish devotion was disclosed when the cause of the suicide, on October 14, of George W. Benjamin, former traffic manager of the Springfield Coal Company, came to light here the other day.

Benjamin had failed to pay the interest on mortgages on his residence at Frankfort, Ind. He had but one resource with which to save his wife and their children from hunger and cold—his life insurance of $20,000. He made inquiries from a life insurance expert to learn if the policies would be void if he killed himself. He was told the money would have to be paid.

Up to the day on which he retired to his room, buried his face in a sponge saturated with chloroform and lay down to die, Benjamin expected financial relief from New York city. He was one of the heirs of a large estate and a settlement was expected. The money failed to come and he had borrowed all he could from his friends in Chicago, his former associates in business.

When the policies were taken out Mr. Benjamin was wealthy. He lost a large sum of money on the Chicago Stock Exchange in the financial panic of 1907.

There are four students from China now enrolled at Wellesley College, as reported by the enrollment officials. They are Miss Ching, Miss Chu, Miss Chung and Miss Hu. There are 415 new students at Wellesley this year.

BONDS AND ANNEXATION ARMY BOOM THE CAUSE OF A GREATER OAKLAND

Employers Urged to Hold One-Hour Meetings With Workers to Talk on Issues

The great organization of volunteers campaigning for bonds and annexation has been whipped into shape and 2100 men are now out on the firing line urging every citizen to do his duty in voting for both measures.

The organization extends down to every precinct, where in turn every neighborhood is being canvassed.

Clubs, lodges, councils and every other sort of organization in the city are to be appealed to on the ground of civic patriotism and self-interest to come out and declare themselves for bonds and annexation.

It's all pull together to land the city on the up-grade and take up the march towards fulfilling a higher destiny.

EMPLOYERS TO TALK

Employers are being appealed to to hold hour meetings during next week at noon or any other convenient time to address their employes on the issues involved in the campaign which deserve their support.

As set forth by the Mayor "This is a matter where all employers can afford to give the time The results are far more important to us collectively and individually than will follow the loss of an hour's time given to promoting the great issues of the campaign."

The meeting at Melrose last night was significant of the favor with which annexation is being supported in that section

The Dimond meeting, at which the anti annexation element conferred with the Mayor, shows that what opposition exists to coming into the city is rapidly vanishing

ANNEXATION TO FORE

Annexation is to the fore so far as publicity is concerned, but the bond issue is not being forgotten or neglected by the propagandists

It is being made a "buttonhole" campaign, and therefore what is being done does not take the form that challenges public interest

It is, however, making great headway and no organized opposition has developed In fact, all attempts to hold meetings in opposition to bonds or annexation have resulted in dire failure to draw the crowd

He said in part ... [illegible]

...ganization which we can give you You require manual training It has taken us several years to build it up to the perfection we now have it

Our domestic science branches are not for teaching the making of pies and pastries but is directed at economy and health in cooking

We have a health department connected with our schools We have the physical training feature which is as essential as that of the mind or the morals in roundly fitting you children to make their way in the world

Our drawing and music departments are the best in the State You will have the advantages of our free public library for yourselves and your children You become citizens of Oakland and as such you have the same rights to what we have as any other citizen of the older part of the city You need not fear your teachers will be displaced We are hunting the State over for the best instructors We pay the highest salaries Their positions will be permanent and as members of a great teaching body they have offered to them the highway to promotion

Our playground commission will secure sites here for children's recreation parks They must go hand in hand with brain development and here while land is held at low prices is the opportunity to acquire what will be required for the present and for the future when this becomes a populous crowded section

CAMPAIGN OF EDUCATION

City Attorney J W Stetson was introduced He premised his address by declaring that he was born in Fruitvale and in his early years Bray's tract at the corner of Fruitvale avenue and Sixth street was a huge tomato patch of sixty acres worked by On Look

Mr Stetson said in part This is a campaign of education and an appeal to reason We do not ask you to come into Oakland unless it is the determination of your judgment It is the ambition of Oakland to become a great city You have grown into populous communities and the crisis has come when you must organize into a municipality of your own or join with us in order to secure those benefits which civilized man demands

Mr Stetson set forth the health fire street police and school advantages that will result from annexation He explained the charter proposition and assured his audience that he would be ... to include the initiative recall and referendum Annexation was declared to be a step towards a consolidated form of city and county government that would effect a saving in taxation of $5 on the $1000 assessed valuation

MUST HAVE CHARTER

We must have a city charter whether you come in or not, said Mr Stetson and it is surely to your advantage to ... representation ... a fifth of the board of freeholders that will be intrusted with the framing of the new organic law He argued that the bigger the city the smaller the taxation

In cities of the fifth and sixth class less than 10 per cent goes into permanent betterments while in Oakland over 25 per cent is set apart for enduring improvements As small cities you will find municipal organization a burden said Mr Stetson and it means years of ... taxation to possess ... of what we freely offer you

Councilman Stelfvater was the next speaker He declared that Oakland had developed a spirit of its own We are not looking to Los Angeles Seattle Chicago or anywhere else on earth We are looking to Oakland and we are going to make it a great city said the Councilman who spoke in a general way on the advantages that would result from annexation

NORTH OAKLAND'S PROGRESS

Councilman Everhart told of the wonderful progress ... of North Oakland ... its annexation to Oakland and his address made a strong impression

John Aubrey Jones urged annexation as the only means open to secure the advantages that were essential to the comfort and security of a populous center

Mayor Mott accompanied by H C Capwell was enthusiastically received As the hour was late he curtailed his remarks to referring briefly to what Oakland would ... its ... if it decided to become part of Oakland

GET ALL ADVANTAGES

Do not fear that we are coming out here to exploit you said the Mayor "We will return to you every dollar that you pay into our city treasury in the way of taxation The Mayor set forth the immediate benefits that would result from annexation and that the police and fire lines would be extended to the utmost limits of the newly annexed territory We will immediately give you all the advantages we possess said the Mayor

H C Capwell carried the audience by storm in a terse brief address in which he declared that he was not a politician and that all the politicians in Oakland did not contribute to the merchants of the city a tithe of what the patronage of people of the annexed district was worth to them

"We will see you get your rights that every promise made to you is fulfilled whether this administration remains in power or not Mayors come and go said Mr Capwell so do councilmen but the business community or a good part of it remains and we have individually and collectively as members of the Chambers of Commerce taken it upon ourselves whether you come in to our municipal life or decide to remain out of it If these promises made to you are not fulfilled we do not want to have you go through our city on the ferry trains with your noses turned up at the taint that would attach to us if we do not fulfill every promise that has been made This afternoon the Oakland Clearing House will stand for Oakland's great banking interests adopting a resolution pledging its members and the institutions which it stands for to guarantee your rights in everything that is your due as citizens of Oakland and they will see to it every promise is fulfilled There is no political combination possible in Oakland that is greater than the aggregate sentiment of its mercantile community and banking interests Can you ask for any greater security for the fulfillment of what Mayor Mott has promised?"

MEETING AT DIMOND

At a meeting of the Hopkins Street Improvement Club held at Dimond last evening Mayor Mott and H C Capwell had talks with the members and a few guests who are opposed to annexation

The Mayor went at length into details as to what that section had to gain by annexation in the way of streets lighting fire and police protection and school advantages He assured his auditors that what he had promised would be faithfully fulfilled by the board of public works and the city council

He furthermore pledged his administration to provide a new charter in the framing of which the outside district would have representation befitting its population He also said that the taxes received from the district would be spent there

FOR MUTUAL BENEFIT

H C Capewell said that he urged annexation as of mutual benefit to both parties It was the stepping stone to the devoutly hoped for consolidation of all communities on this side of the bay into one great city which would effect a big saving in taxation and expense of administration and admit of undertaking public improvements and betterments on a scale of greater magnitude

As a merchant and he spoke for the Chamber of Commerce the Clearing House Association and the business community he pledged those interests to exact of this or any other municipal administration the fulfillment to the letter of every promise that had been made by the Mayor as an inducement to those living on the outside to come within the city's boundaries.

A general informal discussion ensued and although no definite decision was arrived at it was evident both the Mayor and merchant had created a favorable impression upon those who are on the doubtful list as well as many who have taken a firm stand against annexation

GIANT PROGRESS CONVENTION PLANNED

Chamber of Commerce Adopts Scheme to Bring Alameda to Public View

MAYORS OF BAY CITIES REQUESTED TO ATTEND

Boole Wants General Celebration and Monster Meeting in Park

ALAMEDA, Nov. 5.—A monster Progress and Publicity convention for the city of Alameda was proposed at the Chamber of Commerce meeting last night and aroused the greatest of enthusiasm in the project.

The convention, which will be one of the greatest meetings ever held in this city, will take place early in January and Mayor McCarthy of San Francisco, Mayor Mott of Oakland, Mayor Hodghead of Berkeley, Mayor Craig of Piedmont and Mayor Noy of this city will be invited to attend and take a prominent part as well as the presidents and secretaries of the Chambers of Commerce of Oakland, San Francisco and Berkeley, and the Merchants' Exchange of Oakland.

DISCUSS PAST AND FUTURE.

Questions of general interest, and especially the progress, past, present and future of Alameda will be the theme of the evening and will be discussed from all points of view by those present.

A committee consisting of Directors Geary, Plummer, Jamison and Belanoy were appointed to take charge of the convention and to gather data as to the best time and place for it to be held.

C. A. Borle favored the convention being held in one of the parks and suggested the convention be made the means of a general celebration throughout this city. His suggestion was considered but not acted upon, as Dr. D'Evelyn said there was plenty of time in which to consider time and place of the convention.

INVESTIGATE TERMINAL RATES.

Director Geary brought up the matter of terminal rates for this city and said he thought that something should be done toward securing such rates from the Southern Pacific, and declared that a city the size of Alameda should receive some recognition as a terminal point. Secretary Russell was instructed to direct a communication to the head of the traffic department in regard to the matter.

The following candidates were recommended by Director Adams and admitted to membership: C. A. Nylander, H. Foster, C. B. Sheller, W. R. Pease, A. Hagan, the Oakland Fence Construction Company, A. La Plant, J. E. Miranda, L. H. Sharpe and W. Hunt.

NEW CAR LINE WANTED.

Secretary Russell was instructed to call upon Mr. Herrin of the Oakland Traction Company to communicate with him with regard to the necessity of the extension of the company's electric car system across the High street bridge to tap the country in the foothill district of Fruitvale, Alameda and Dimond. Secretary Russell said he had made a trip to the section of the country in question and found that the residents of the section wished the line to be put through, as then they could trade with the Alameda merchants and save fully one-half of the distance they now have to travel to reach merchants in Oakland.

Director Wilkins proposed that every member of the Chamber of Commerce advertise the city by placing an advertisement of the city on every envelope sent out of the city, and especially to the Eastern section of the country. His suggestion was thought good, and will be acted upon in the near future.

EMPLOYE BURIED BY COAL WHEN BIN BREAKS

ALAMEDA, Nov. 5.—Buried under a pile of coal yesterday, William Younger, employed in the coal yard of A. H. Woerber, would have been badly injured had the cave-in not been seen by a workman in the yard who hurried to his assistance. The side of the bunker which gave way caused the accident. Younger received cuts and bruises.

Short Skirts and Bloomers Cause Argument Over Church Benefit

MRS. B. F. MASON. MRS. H. C. SANFORD.

Members of the Arrangement Committee for the Vaudeville Entertainment.

SAN LEANDRO, Nov. 5.—Despite the fact that considerable discussion has arisen about wearing short skirts in the vaudeville entertainment to be given for the benefit of the building fund of St. Mark's church, under the auspices of the Ladies' Guild of St. Mark's Episcopal church, the members of the cast, which includes several society girls and club women, declare that the performance will be dignified and there will be nothing done or said that will be unladylike or vulgar. With this argument the women will carry out there plans and all conduct the entertainment as they see fit. The bloomers which will be worn by fourteen little girls, has also caused a little comment, which has not led the committee to alter its plans for the performance to be given Saturday and Monday evenings in St. Joseph's hall on Davis street.

Many clever amateur thespians will do individual stunts during the course of the evening. Miss Alice Locke, one of the society girls of San Leandro, will render a song and dance. Miss May Mesquita of Elmhurst will do a similar act. Songs, fancy dances and dialogues will be among the features of the evening. The program is under the direction of Mrs. T. C. Buncle of San Francisco and Mrs. B. F. Mason of San Leandro. The committee in charge of the arrangements consists of Mrs. B. F. Mason, chairman, Mrs. Charles Spurrs, Mrs. Elizabeth Smith, Mrs. Charles Rider, Mrs. Fred Crabtree and Mrs. Will Cunningham.

BLACKED FACE TEAM.

The Alameda team, with blacked faces, will render a song and dance. It consists of Mrs. England, Mrs. J. Peralta, Mrs. Eugene Sanford, Miss Bessie Broadwell, Mrs. B. F. Mason, Mrs. Henry Sanford, Mrs. Harry Sanford, Mrs. Lizzie Sanford, Mrs. Charles Spurrs, Miss Edna Shaw, Miss Arline Shaw, Miss Lillian Faulks, Miss Katherine McCoy and Mrs. Elizabeth Smith.

The yellow bloomer team will be represented by fourteen little girls. They are Ida Geisenhofer, Esther Hocrst, Adelaide Perry, Doris Cline, Gladys Cline, Rosa Farid, Christina Cardoza, Emma Schmidt, Lillian Bazeley, Mary August, Emma Perry, Millie Geisenhofer, Bernice Hough, Inez Witt.

The Peggy Brady team in green polonaise costumes are Grace Williams, Margaret Smiley, Gertrude Yeager, Mamie Hooley, Ella Hooley and Mamie Perry.

The members of the minstrel act include Miss Lillian Faulks, Miss Bessie Broadwall, Miss Edna Shaw, Mrs. Charles Spurrs, Mrs. Eugene Sanford and Miss Arline Shaw.

RAINBOW BAZAAR PLANNED BY GUILD

Affair Will Be Held Under the Auspices of Women of St. Phillip's Church

FRUITVALE, Nov. 5.—Under the patronage and direction of the members of the Ladies' Gould of St. Phillips Episcopal Church Guild, a rainbow carnival and bazaar will be held next Friday afternoon and will continue until Saturday night in the Guild Hall, Nicol avenue and Capp street, Upper Fruitvale. According to the plans the hall will be converted into booths, which will be profusely decorated with ribbons, which will form the colors of the rainbow. The color scheme will be one of the most attractive features in the carnival, which will be a novel event.

Mrs. M. D. Wilson is chairman of the arrangement committee and with the cooperation of the members of the Guild, headed by Mrs. J. E. Van Amringe, president of the society, the affair promises to be a financial success.

The ladies of the Guild were instrumental in erecting the present Guild Hall and are determined to build a church near the hall. The proceeds derived from the bazaar will be turned into the building fund, which will be swelled by numerous entertainments planned for that purpose.

SANITARY BOARD MAKES DEFENSE

Replies to Attempts to Belittle Work of Elmhurst Organization

ELMHURST, Nov. 5.—E. G. Lapham, secretary of the Elmhurst Sanitary Board, has written the following report of the regular meeting of the sanitary board held last Monday evening in the Elmhurst hotel, where the repeated attempts to discredit the work of the board were discussed.

Phillip Reilly, president of the board, declared that none of the four districts that voted bonds that same day had done any more than the Elmhurst Sanitary district. They had let the contract and will have to await the legal procedure required by bond buyers in sanitary districts.

"Every obstacle possible was thrown in our way and the same snarl of a year ago regarding the disposition of tax money has been started," reads the report. "It has always been the object of the board to explain any misunderstanding. Residents of the district or taxpayers have been invited to the meetings. The tax as divided is 35 cents for bond redemption and 15 cents for running expenses and extensions making a total of 50 cents. The assessed values this year are 10 per cent less than the county assessment. Work will be started at the earliest possible moment on the sewers. There are no front foot charges to be paid. Extensions can be built as needed from the running expense fund of the district.

DECLARES IT COWARDLY.

"The rebuke administered at the polls should have been sufficient to prevent further attempts at misleading statements. It is cowardly to say the least, and an injustice to those who have interests at stake, and will, no doubt, be represented by someone familiar with the happenings and the petty objects exposed. Much good can be accomplished by a united effort and a thorough understanding of the situation. The disgruntled element have made themselves ridiculous on previous occasions. Their persistent desire to counsel the public and misrepresent facts are not taken seriously by anyone investigating for himself. We want every taxpayer to know what is being done," concludes the report.

Berkeley Society

BERKELEY, Nov. 5.—The women of the Thursday Reading Club complimented their husbands with a dinner Monday night at the home of Mrs. Lulu S. Cores on Hillegass avenue. Paint, decorations of a Hallowe'en nature were used throughout the house and a profusion of red geraniums in huge pumpkin bowls brightened the table, about which were gathered a score or more. An informal evening of music followed the repast and the affair was voted by the masculine element a tremendous success.

JUSTER ELECTED PRESIDENT BY CHAMBER

Commerce Board Directors Chose Officers Last Night

FINANCE COMMITTEE MAKES FAVORABLE REPORT

Directors Discuss Need for Better Sewage System in City

BERKELEY, Nov. 5.—C. C. Juster was elected president of the board of directors of the Berkeley Chamber of Commerce at last night's meeting of the board. B. J. Bither was chosen vice-president, Wells Drury, secretary; First National Bank of Berkeley treasurer. The choice of treasurer was in accordance with the custom of alteration between the Berkeley National and the First National.

The new board that took office last night is composed of the following: Geo. P. Baxter, B. J. Bither, F. L. Butterfield, A. S. Cooley, A. O. Donogh, W. A. Gates, W. A. Gompertz, G. A. Griesche, H. D. Irwin, C. C. Juster, C. Mikkelsen, I. A. Morris, W. J. Mortimer, Duncan McDuffie, Frank L. Naylor, G. B. Ocheltree, Friend W. Richardson, E. Q. Turner, W. L. Woodward, W. E. Woolsey.

G. B. Ocheltree, the retiring president, who has been thanked both by the board of directors and the general membership of the Chamber of Commerce, in a few well chosen words surrendered the gavel to C. C. Juster, the new president, who responded in a happy manner, and was heartily applauded.

FINANCES IN GOOD SHAPE.

The report of the finance committee, stating that the books and accounts of the secretary had been examined and found to be correct and in good order, was adopted and filed.

Responding to an invitation from the California Promotion Committee it was resolved that the secretary be appointed a delegate to the twelfth semi-annual meeting of the counties committee of the California Promotion Committee at Visalia, November 13. All members of the Chamber of Commerce who desire to attend will be granted certificates as delegates.

The secretary was directed to communicate with the Oakland Traction Company asking that the street car service on University avenue be improved, for the benefit of the business men of Berkeley and the accommodation of the public at large.

Director Bither spoke of the need of better sewer system, and the importance of extending the outfall sewers. It is a shame and a disgrace, he said, that the sewage is dropped just at the edge of the water, and for eight hours out of the twenty-four flows over the sands, constituting an offensive nuisance. Director Turner said that what Berkeley needs is an entire new sewer system; that this is recognized by every man who knows anything about the physical conditions that prevail in this city.

PREPARATIONS BEGUN.

Former President Ocheltree drew attention to the action taken by the Chamber of Commerce during the term just ended, whereby the municipal authorities were induced to make preparations for extending the outfall sewers to deep water and mentioned that the plans have been completed by the city engineer, but await the funds needed for completing the work. The matter was referred to the committee on municipal affairs, with instructions to inquire into the matter of cost and other particulars.

The co-operation of labor organizations in the work of the Chamber of Commerce was invited, and the matter was referred to the committee on membership for the purpose of consulting from a committee representing organized labor.

In regard to the foresting of Yerba Buena Island, commonly called Goat Island, a letter was received from the San Francisco Chamber of Commerce giving credit to the Berkeley Chamber of Commerce for originating the plan, and suggesting that the fund of $600 needed at once, be raised by asking Berkeley, Oakland and Alameda to raise $100 each, while San Francisco shall raise $300. This was agreed to, and the secretary was instructed to take steps to get the money together as soon as possible, as it is important to plant the trees at once, in order to give them this year's growth.

day afternoon at the home of Mrs. W. H. Marston, a substantial number of guests being present to show their interest in the institution.

URGES STUDENTS TO CHURCH WORK

Bishop Rowe Addresses the University Meeting and Talks Alaska

BERKELEY, Nov. 5.—The regular University meeting this morning in Harmon gymnasium was addressed by Bishop P. T. Rowe of Sitka, Alaska, and his remarks were devoted almost entirely to a description of the natives and the conditions that obtain there. He praised the native Alaskans as an unusually strong people, physically, mentally and morally. The speaker introduced many anecdotes concerning the people which did much to enliven the address.

When he was concluding his remarks he made a strong plea for young men to enter into church work. He said he had been asked to make this plea by a brother bishop and to make it when he addressed the students of the University of California. He went on to say that there is far too little active work done by college men in behalf of the church and believed that there should be a certain percentage of them enter the work of benefiting their fellow men as well as selves.

In describing the conditions in Alaska Bishop Rowe told of the rigors of the climate, the discovery of gold in the Klondike, the rush after the precious metals and its attendant confusion. He said that it is very necessary for a person to be very robust to withstand the severe climate of Alaska. He said he attributed his twelve years of success in the frozen north to the athletic training he had in college and even now when he plans for a trip about his diocese he goes into training for a month previous.

Professor Bernard Moses followed with a brief address on the benefits to be derived from a closer relation between the American nations.

MINING MAN WILL BUILD FINE HOME

Beautiful Rock Ridge--a Place Sought for by New Comers

"Next week work will be begun on the first home to be built in Rock Ridge Park," said Mr. F. E. Reed, subdivision manager of the Laymance Real Estate Company, yesterday. "It will be built by Mr. John Nelson, and will cost not less than $5500. Mr. Nelson was one of the first men to buy a lot in Rock Ridge and his desire to make his permanent home there is evidenced by the fact that he is already prepared to begin work.

"A number of other people who have bought lots in Rock Ridge have announced their intention of taking advantage of the bonuses we are offering. To the first ten people building homes there we give $500. If five of those ten homes cost $5000 we will add $250 to the bonus, and to the first five building homes costing $7500 we add still another $250, making the total bonus $1000 to any five people who build homes costing the requisite amount. As our restrictions are unusually strict and cover the minimum cost of homes to be built it is probable that all of those bonuses will be taken up before many weeks have passed.

"Our architects have also completed the design for the entrance that is to span the boulevard at Broadway, and competent people who have seen it have pronounced it the most beautiful piece of work of its kind ever attempted on this coast. Its lines are strong and classic, being modeled after some of the finest entrances that guard the beautiful villa sites of Italy. We think that when completed it will be a revelation to all who are interested in real art.

"We are more than pleased at the manner in which the demand for lots in this beautiful estate continue. Not only did our opening sale exceed all anticipations, but the steady interest that the buying public has manifested has been exceedingly gratifying. We have not spoken or written a word about Rock Ridge that we did not know was absolutely true, and the successful man, looking for a high-class homesite has indorsed our enthusiastic opinion. We are centering our efforts now on the street work and before the rainy season has thoroughly set in we will have accomplished a great deal along that line. The $30,000 which we spent before the tract was opened served to show what our intentions were, but it will take the additional $100,000 which we have set aside to complete the work.

"The success of Rock Ridge has demonstrated that interest is still keen in high-class residence property on this side of the bay, and has conclusively proved that the man who is looking for a homesite can always arrange to get the money when he finds what he wants at a price [illegible]

PASTOR RESIGNS TO OBTAIN REST

The Rev. W. C. Spencer Will Leave First Baptist Church in Berkeley

BERKELEY, Nov. 5.—Because he desires to take a long rest and then seek pastures new, the Rev. W. C. Spencer resigned the pastorate of the First Baptist Church in this city Tuesday evening to be effective December 1. A report gained circulation yesterday that he resigned to bring about a consolidation of the First and Evangel Baptist congregations and that the Rev. R. M. Vaughan, the new pastor of the latter church, might do likewise to further the amalgamation, but this is unfounded.

Propositions for consolidation have been made, but at present there is little or no likelihood that it will be consummated. The Rev. Mr. Spencer said yesterday he resigned to obtain a long rest and when he has had it, he will look about for another flock to guide. He said positively that he has no other pastorate in view and will not entertain any until after he has rested.

The Rev. Mr. Vaughan said that a short time ago an offer of $5000 towards a new church building was made by D. J. Harris of Evanston, Ill., providing the two churches would combine congregations under one roof. He said he submitted the proposition to the council of his church, as it was his duty to do, and informed the members he would abide by their decision. Other than this he has had no voice in the question. No definite action has been taken in accepting or rejecting the offer, but it is generally understood that the majority of the two congregations are in favor of continuing as two separate organizations.

The Rev. Mr. Spencer has been pastor of the First Baptist Church for the last five years and his relations with the members of his flock have been most cordial throughout.

DOCTOR JORDAN UPHOLDS THE STUDENTS

Replies to Lang's Letter and Says He Will Not Interfere

STANFORD'S PRESIDENT THINKS PLAYER ELIGIBLE

California Will Do Nothing Until Next Agreement is Drawn Up

BERKELEY, Nov. 5.—The finale of the Crawford dispute and the controversy over the interpretation of the intercollegiate agreement has been reached and, unless California desires to pursue the point and have the big game on the 13th called off, the husky Cardinal forward will once more line up with his team against the Blue and Gold. Letters have been received from Dr. Jordan, which practically settles the matter, as far as arbitration is concerned, and the California authorities will have nothing to say until the next athletic agreement is drawn up, at which time the wording will be made more specific.

In the letter received from Dr. Jordan yesterday, the Stanford executive stated that Professor Angell had advised him of the situation and further, that if the students could not conduct their athletic affairs without calling upon the faculty, the game had best not be played. Inasmuch as it has always been customary to take disputes to the faculties as a court of last resort, this attitude is scarcely understood at California, yet no further steps will be taken in the matter.

CALIFORNIAN STUDIES UNDER ELLEN TERRY'S SON

BERKELEY, Nov. 5.—Samuel J. Hume, ex-'08, who went to Europe last May to study for the stage, has written to friends at the University that he is now engaged in assisting E. Gordon Craig, who is one of the foremost exponents of the art theater, in Florence, Italy. Craig is the son of Ellen Terry, the famous actress, and is noted throughout the theatrical world on account of his efforts to uplift the stage. At the present time, he is planning a production of "Hamlet," to be given in the famous Art Theater in Moscow next January, and in this work Hume is taking an active part.

In his letters, Hume stated that he will leave Florence for Russia early this month, and will travel via Berlin, thus having an opportunity for himself and Mr. Craig to stop and call upon President Wheeler. Craig is enthusiastic over the accounts of the Greek theater, and wishes to discuss with Dr. Wheeler, the production of a play in Berkeley some time after the conclusion of his present plans on the Continent.

LURLINE DEPARTS ON VOYAGE TO HONOLULU

ALAMEDA, Nov. 5.—The steamer Lurline, which has been undergoing repairs on the United Engineering Company's marine railway, has sailed for Honolulu. The Lurline belongs to the Matson Navigation Company, and is one of the largest vessels ever drawn up on the ways at the local yard.

The Lurline is now engaged in the sugar trade and was bought to supplement the fleet of sailing ships formerly run by the Matson Company.

The Matson Company now owns several ships that ply between San Francisco and Honolulu carrying sugar, but with room in the cabin for eight passengers.

The New Klamath, one of the largest wooden steam schooners on the coast, is nearly completed at the yard of the United, as the engine is being installed and the boiler put in. As soon as finished the big schooner will depart for Gray's Harbor to load with lumber.

The United States lighthouse steamer Manzanita was drawn up on the marine way this morning, where it will undergo extensive repairs.

SUNDAY'S DESSERT

Here is a dessert that was suggested by a society woman of Berkeley---

It is a combination that has been used as a dessert at some of the largest and most successful social functions that have ever been held in Berkeley.

In suggesting it she asked us to refrain from publishing her name, but we can assure our readers that it is a dessert of surprising merit, and we do not wonder at the fact that it has become so popular at the dinner gatherings of Berkeley's very best people.

"The first time I used this combination I was embarrassed by not having enough," said the party who suggested the dessert to Mr. Lehnhardt. "Almost every guest at the table accepted a second plate, with the result that I had to acknowledge a shortage in the kitchen, which they joked about for a long time. I have used it repeatedly since then, and it always made a great success of every dinner. A number of my friends have also adopted the combination, and it was in such good favor with our set that I thought you would like to try it as a special."

The combination consists of

One layer of Strawberry Ice Cream
One layer of Walnut Ice Cream.

We have never made a finer brick and are sure it will make as great a success as a "special" as it made at the social functions in Berkeley, where it was first used.

If you call Sunday and carry the brick home—50c each.
If we deliver it, packed in ice—60c each.

Every brick contains enough for 8 or 9 people.

M'CARTHY WILL LET CITY HAVE ITS WANTS

"I Will Be Guided by the Popular Desire," Says Mayor Elect

BROAD MINDED AND LIBERAL IN GENERAL WAY

Town Not to Be "Wide Open" as Croakers Had Been Announcing

SAN FRANCISCO, Nov. 5.—"The Paris of America"—what a tempest in a teapot this little phrase has stirred up. It was used by P. H. McCarthy in his campaign for the office of mayor of San Francisco and now that he has been elected by such tremendous odds various factions, particularly those in the defeated ranks, are asking for an interpretation.

It would seem as though there was a play upon words in connection with this same Paris. The fashion factory of the world seems all of a sudden to have become more than ever important and to have indelibly stamped itself upon the incoming administration. Paris has many things to be proud of and the carefree life and the alleged naughtiness of the metropolis of France are only one portion of its varied tendencies and admirers point to the beautiful parks and boulevards, the grand buildings and the works of art which are there displayed together with the wonderful creations of the goddess Dame Fashion.

A DIFFERENT CITY

P. H. McCarthy has defined his reference to San Francisco as "The Paris of America" as being a figure of speech placing his home city among the grandest of the universe and different from any other in the United States.

San Francisco is known to the world round as an American city different from all the rest, he declared. A city that has achieved a distinctive character for liberality and a faculty for knowing how to enjoy itself. The opponents of Union Labor charged us during the campaign with wishing to transform San Francisco into an American city that would know a Moulin Rouge rather than a Beaux Arts and the answer to these ornamental croakers was given decisively at the polls last Tuesday.

TO HAVE ITS WANTS

My aim as mayor will be to let San Francisco have what it wants to have and to be guided by the popular desire in all matters relating to those wants. The Union Labor platform declared for a liberal city as opposed to a narrow, straight-laced and puritanical San Francisco, a city in brief that would be permitted to expand and broaden in its own temperamental vein.

The mayor-elect and his friends that the metropolis of the Pacific Coast is going to be a wide open town and so the disgruntled factions who for their own purposes have taken the name of Paris in vain would seem to have spoken too hastily. At any rate the great majority of the citizens have determined to sit back and watch.

ALL WILL CO-OPERATE

The Paris of America they think might not be such a bad thing after all if it would bring sightseers and stimulating capital ... all parts of the world to take a look at and to take part in its numerous joys and rounds of pleasure.

The general opinion throughout the city seems to be one of co-operation with the ... supporters ... [illegible] ... and thinking citizens ... of the city in [illegible]

RESULT THE INEVITABLE

Announcement

To my many friends and fellow street car employes:

In only partial return to the N. A. H. A. for the great service rendered me during my recent illness I desire to make the following recommendations, namely:

That I joined the North American Hospital Association on Sept. 3. Twenty-six days after I was taken ill with a severe attack of appendicitis and was immediately taken to the Merritt Hospital, where I was operated upon by Dr. C. L. Bigelow and Dr. R. I. Stine. At the hospital I have been given the very best of care and attention, consisting of private room, nurse, board and operation and can say the service rendered me, had I been paying for same personally, would have cost me no less than $350 to $400. The entire cost to me has been only $3.00—my entrance fee of $1.00 and two months dues.

I sincerely trust that my many friends and fellow employes will avail themselves of the protection afforded by this most worthy association in its excellent work.

(Signed) J. H. WELLS, Conductor O. T. Co.

High Quality for the Public. Smallest Profits for Lewis

People who bought the first meat I sold in Oakland, nearly two years ago, are still my customers, as are thousands of new ones. Quality and price have held them to me. I am the originator of the small profit plan, and with such a system undersell any market in California. Always bear in mind, LEWIS IS THE LEADER IN QUALITY AND THE LOWEST IN PRICES.

TOWN IN FRENZY; BENT ON LYNCHING

Mobs Guard Road to Prevent Sheriff Moving Negro Assaulters

GASSAWAY, W. V., Nov. 5. — With daylight today, the authorities began the task of removing the two negro suspects believed to have been implicated in the dastardly assault upon Mrs George Lockhold on Wednesday, to a stronger refuge at Sutton, West Virginia.

According to the plans of the sheriff and commanders of the two companies of militia now on the scene, the negroes are to be taken in a wagon surrounded by heavily armed guards from the Gassaway jail to Sutton some time before noon.

Governor Glasscock's timely arrival on the scene and the presence of the State guards had much to do with averting what seemed to be an inevitable double lynching last night.

MOB GUARDS ROADS.

As late as midnight ugly rumors were afloat about this little place that the negro suspects would never be taken alive from the town Mounted men guarded the roads until daylight to prevent the authorities from transfering the negroes Seeing the temper of the crowd, the sheriff gave his word that the transfer would not be attempted during the night hours

It is believed that should the attempt be made openly today the deputies and State militia will be met with a stubborn mob.

Mrs. Lockhold, upon whom the negroes made their terrible assault, lies today in a serious condition in Sutton Fears are expressed for her sanity, as the terrible ordeal has to a certain extent affected her reason.

Her husband, George Lockhold remains here watching the result of the sheriff's attempt to preserve order and see that the law takes its course

REVOLTING CRIME.

Details brought out at the coroner's hearing over the body of one of the negroes, who, according to the sheriff, was of the trio who assaulted Mrs Lockhold and who was instantly killed when he attempted to escape capture, are most revolting Such another crime has not been heard of in the State in years

The dead negro was buried in the Potters field during the night His grave was unmarked for fear vandals might desecrate the spot

Unless the citizens of this place resume their usual work and business today, Governor Glasscock threatens to put martial law into effect Every business house in this town was closed tight yesterday and no one attempted work of any kind

MUSICIAN ATTACKS GIRL IN DANCE HALL

SAN FRANCISCO Nov 5—Following a jealous quarrel in the Camp Fire dance hall on Pacific street, about 1 o'clock this morning, Charles D Dooski, angered at the attentions paid by Ida Durti to another man, beat her severely, and was only prevented from seriously injuring her by the arrival of the police

None of the parties to the affair would give any information when Policemen Clark and Stuglich arrived in response to the call of pedestrians and they took Dooski into custody and charged him at the city prison with battery

He is a musician by occupation.

CONCERNING RATES

¶ During the last twenty years one of the very few necessities which has DECREASED in price is GAS SERVICE. The GENERAL COST OF LIVING HAS NEARLY DOUBLED, but the gas consumer is paying less for the service we render than ever before, and he is getting better service.

¶ It is fully as much to our interest to make the lowest possible rates as it is to yours.

¶ Two principal factors have enabled the steady decrease in the prices of gas service. One is somewhat cheaper production brought about by invention and development, and the other is greatly INCREASED CONSUMPTION OF GAS.

¶ Twenty years ago the gas range business was in its infancy. Today more than half the total commercial gas used is burned in the kitchen. Gas stoves did not become popular until gas service rates began to fall.

¶ The more service we can sell the cheaper becomes the unit cost of production and distribution. We know far better than critics that the arduous pursuit of this policy is the only one that permits us to exist. We are very well satisfied to continue along these lines.

¶ The cheaper we can offer service the more gas will be consumed, and the greater will become the stability of our business. No legislation or competition can make this any clearer or more imperative.

¶ The problem of the gas manager is the same problem which the retail merchant is forever trying to solve—to increase the volume of his output by following the only certain rule to accomplish it; by decreasing the margin of profit per sale.

¶ We know well that unless we can cover our territory and induce the majority of possible customers to buy our service, it will be only a question of time until a rival enters the field and takes the business we have failed to secure and our own besides.

SCENIC BOULEVARD FOR SAN QUENTIN

STOCKTON, Nov 5.—The Stockton Arbor Club has taken the preliminary steps toward the construction of the finest scenic boulevard in the interior of the State. It is to extend along the diverting canal, which is now well under way; thence on the south side of the Calaveras river to the San Joaquin river and thence along the north side of Stockton channel and around McLeod's lake to Stockton. This will make an unusually pretty drive beside the water and through a variety of scenery.

It is planned to begin work as soon as the excavating on the diverting canal is completed, and it is possible that some of the work on other sections will be taken up in the meantime. As fast as a section is finished trees will be planted. It is a big undertaking, but the board of directors say that it can be accomplished

Sid Hester Matches Powell and Wolgast

LIGHTWEIGHTS MATCHED FOR NELSON ELIMINATION CONTEST

Powell and Wolgast Best Match on Tap at This Time Secured by Mission Club---Gunboat Smith to Receive Severe Trial Wednesday

By EDDIE SMITH.

SIDNEY HESTER, matchmaker for the Mission Athletic Club of San Francisco and the only one of the new promoters to break into the game of fisticuffs during the past two years to make a success of the venture, crowned all his previous efforts last evening by matching Ad Wolgast and [illegible] Powell. The men are to meet at 133 pounds at 6 o'clock the evening of the contest. This is a ten strike of matchmaking for San Francisco proper for the past two years and is the best looking card since the Britt-Nelson fight at the Auditorium. Hester is to be congratulated for his excellent judgment and his persistence for it is a well known fact that the bout looked impossible two weeks ago. At that Hester is not offering the fighters every cent of the money he will take in at the door or making any guarantees that will send him to the scrap heap. He has set his foot down on this sort of thing and while he is no doubt assuring both men that they will be well repaid he has insisted that they take a chance on the drawing power of the match. The fighters can rest easy as to this clause of the articles, for the young promoter will handle the match in the same manner that he has the successes of the past few starts and this will mean that the house will be packed and jammed when the men enter the ring.

SID HESTER.

POWELL'S QUICK RISE.

Powell has risen to a place of prominence in the lightweight division of pugilism that compels recognition and no man of his weight can call himself the champion until such time as he has taken the red-headed lad into camp. It now develops that Battling Nelson has said that Wolgast or Powell will be the next man he will meet and with the expectation of putting Powell out of the running the little German has made up his mind to tackle the job. Wolgast has a newspaper decision over Nelson at Los Angeles and for that reason might be considered a trifle in the lead for a match with the Dane but Powell has been coming strong and as San Francisco is a better drawing town where the Battler can make more money the chances are that this would be the place where he would fight. Wolgast is being handled by Tom Jones the man who brought Billy Papke to the front and he realizes that just so long as Powell and Wolgast are squabbling for the first chance at Nelson his chances of getting the champion are cut in half.

WOLGAST GREAT CARD.

With the win over Nelson in ten rounds to his credit, Wolgast is a great card and the combination of runners up for the championship should prove very attractive. No less a personage than Jack Grace trainer and second for the Battler says that Wolgast had the best of Nelson and to make it worse he declares that Wolgast stood toe to toe with the Dane and outslugged him. If that is the style of fighter Mr. Wolgast is we are more than glad that he is coming to the land of gold for fighters. We want to see the man in action who is able to outslug the champion and we also want to have the rivalry settled between Powell and Wolgast so that we can figure on who will be the logical candidate for the championship. Hester is talking of trying to match Frankie Smith and Tommy McCarthy in a fifteen round preliminary. The show is to be held Tuesday November 23.

OAKLAND WHEELMEN SHOW

When the Oakland Wheelmen turn on the lights over the ring for the first contest of their evening of boxing next Wednesday night they will roll up the curtain on the best night of gloves that has been offered the Oakland fans for a long time. The main event is of course the big attraction and it should be for the men matched are of the class that the fans like to see in action.

"Gunboat" Smith and Peter Jackson will meet in this event and it is the highest hurdle that the Gunboat has been asked to jump. Many of the fans believe that the new man has made a mistake in tackling the hard negro and the fact that the latter has had such a world of experience and is such a tough man to put out has been pointed to as a reason why the white man can hardly expect to win. One of the best friends that Jackson has however is Bob Armstrong and it is none other than Bob who says that Gunboat has a most excellent chance. Armstrong says that any time the Gunboat connects with the chin of any human being the receiver will take the count and if Smith can reach the chin and put the negro down for the count or injure him so that he can get the decision he will be made in one jump and the fans will soon see him matched against the best men in the business. The special event between Lupe Carranza and Brick Burgess is some pumpkins itself. Burgess has never yet disappointed the fans by his actions in the ring, and Carranza has been coming to the front with rapid strides of late.

LANGFORD ON JOHNSON'S TRAIL

Sam Langford is keeping after Jack Johnson for a match and Johnson is persisting in [illegible] him to the extent that many of the fans are coming to the opinion that Jack is [illegible] for the little negro from Boston. Langford now announces that he has $10,000 to bet that he will beat the larger colored man and that he will state the time any way that Johnson may see fit to [illegible] Langford [illegible] whether this will be at evens or at ringside [illegible] this betting proposition has come to be a mighty ticklish thing with [illegible] that he feels that two negro fighters will not draw any money and that he must have a purse for the fight. This will put a stop to the [illegible] for it is true that two colored men seldom get any money into the box office and for that reason the promoters will not be anxious to bid for the event.

Murphy Behind Hart as National League Chief

NEW YORK, Nov. 5.—Charles W. Murphy, president of the Chicago Baseball Club of the National League, is causing more speculation and worry in big league circles than is common at this time of the year. When Mr. Murphy's presence was first discovered here it was said by some who are usually well informed that he was negotiating the trade of Catcher Kling to either New York or Brooklyn and Manager McGraw of the New York team verified this in so much as he stated that he was anxious to obtain Kling and Pitcher Reulbach in exchange for Wiltse and Donlin and perhaps a cash consideration. But from the conferences which Murphy has held with President John T. Brush of the New York club and President Charles Ebbetts of the Brooklyn club the report is now current that the Chicago magnate is electioneering in the interests of James A. Hart, the former Chicago owner, who has loomed up conspicuously as a candidate to succeed John A. Heydler as president of the National League.

In this connection Murphy admits that Kling, who refuses to play with Chicago, may play an important part.

Brush has had his own candidate for Heydler's place, but he also wants to obtain Kling badly and baseball writers declare they would not be surprised if Brush voted for Hart at the annual meeting in December and if Kling played with New York next season.

BROWNING TOYS WITH NATIONALS

Seals Pound Curtiss All Over the Diamond for Seven Runs

By HERMAN F. BUDDE.

The victory of the Seals yesterday was strictly a personal triumph for Brownie Browning. It was his great pitching that kept the All Nationals away from the run column. At all times an artist of the first water he seemed better than even yesterday and made the big leaguers look foolish trying to slam his floaters. Outside of the second and eighth innings he had the easterners completely at his mercy and for the most part the side was retired in one, two, three order. Far better support was accorded him than was given Clarence Henley. Every member of the San Francisco staff was on his uppers with one bright exception. Rollie Zeider, the talk of the season, was completely in the air and has thus far shown an inability to stop anything. He certainly has the jim jams and is as frightened just because he is playing big leaguers as a school boy is when brought before the High Council for his oral examination. If Rollie intends to make such a mess of things when he goes back East next spring he will follow the route of the man who "went right in and then went right out again."

BROWNING MAKES GOOD.

If Browning's performance can be taken as a criterion of what he will do next year in big company he certainly will be a conquering hero. But six hits were made off his delivery. A majority of these came when he was in bad plight with two strikes and three balls on the batter. The next ball thrown of course in the alley would be simply murdered. He showed his worth in the second round when he pitched himself out of a tight place. Lennox and Hummel had singled and with no outs Browning forced the retirement of the side without a run. The eighth loomed bad for a minute when singles by Myers and Fagan and Mitchell's corking two bagger brought over a tally for the Stars, but Browning struck out Konetchy and Lennox was retired on an easy infield grounder.

STARS GROGGY IN FIELD

It cannot be said that the Nationals were particularly brilliant in the field. Five glaring errors were made by them. Pitcher Curtiss, who is considered one of the best that the Boston Nationals have on their pay roll, was given a beating he will not soon forget. The bombardment grew so strong towards the sixth inning that he had to be yanked out and Konetchy substituted. The batting of the Seals would be a credit to any team. Davis, Zeider, Melchoir and Tennant swatted the pill safely twice and Nick Williams had little trouble in planting the ball in safe territory three times.

Snodgrass, who had an off day in the field and at the bat, was responsible for San Francisco's first run. He missed Browning's easy fly. Davis then walked. Mohler hit into a double play but on Curtiss' overthrow to first and Zeider's single through Konetchy circulated. Williams was close to scoring in the fifth and encouraged the lads to make a brace of tallies in the sixth. Davis singled. Mohler was hit by a pitched ball. Zeider sacrificed. Davis was caught at the plate on Miller's grounder to Egan, but a double steal and Melchoir's drive stood good for two tallies.

SLUGFEST IN SIXTH

It was in the sixth, however, when the Seals gave Curtiss a good time. He was pounded right and left and looked like the last rose of summer at the finish. Tennant opened fire upon him by unloading a two bagger to right. Egan's error advanced him to third and Williams' third single landed him home.

McArdle [illegible] hit [illegible] Williams is singled to left. Davis sacrificed with a two bagger upon which Williams tallied. In an unsuccessful squeeze play McArdle was caught between third and home. Mohler was passed and Zeider let loose another drive to right, Davis and Mohler crossing the jumps.

Judge McCredie Has Man to Replace Ewing

PORTLAND, Or., Nov. 5.—Judge W. W. McCredie, congressman-elect from the second district of Washington and owner of the Portland teams of the Pacific Coast and Northwestern baseball leagues, states that when he attends the meeting of the Pacific Coast League in San Francisco November 15 he intends to present the name of a Portland man for president of the league to succeed J. Cal Ewing, who has announced his retirement.

Judge McCredie says that the league directors have power to reverse all acts taken by the president and if the Portland man does not give satisfaction, the California clubs still have control.

He added that he would contend for two clubs in Portland as has been the case the past year.

Judge McCredie said that he intends to retire from the bench before he leaves for the south and that after the league meeting he will go from San Francisco to Washington to take the oath of office as representative in Congress when that body convenes in December.

Lanagan Chosen Referee For Thanksgiving Game

In a two hours conference that was held between representatives of St. Mary's and Santa Clara College at the latter institution yesterday afternoon it was decided to have James Lanagan, the former Stanford football coach, referee the big Rugby game that will be played at the Ocean Shore grounds on Thanksgiving afternoon.

For the touch judges the selections fell on Captain C[illegible] of the California varsity and William Howard, a member of the Referees' Union. A student from each college will be chosen as time-keeper. Manager George Bohs of the Santa Clara team and Manager J. P. Dorin of St. Mary's were authorized to prepare and publish an official program of the game.

The St. Mary's delegates were Brother Joseph, Graduate Manager Dorin and Coach Faulkner. Santa Clara College was represented by Charles Budde, S. J., athletic director, Manager Bohs and Graduate Coach Harry McKenzie.

The list of students who are eligible to play with both institutions were submitted to the chairman of the respective faculty athletic committee and upon their indorsement will be exchanged and made public.

Within the last week or so there has been considerable talk of playing the game on some other grounds than those at Twelfth and Mission streets. The St. Mary's team favors California field, believing that the Ocean Shore gridiron will not accommodate the number that will very likely want to see the game. At the valley college, however, there is a different sentiment. They are anxious to play in San Francisco and believe the exhibition would draw better there than anywhere else. The matter will come up for definite settlement tomorrow or in the near future.

Alameda and Local Elks in Benefit Game Tomorrow

The annual charity baseball game between Alameda Lodge No. 1015 and Oakland Lodge No. 171 B. P. O. E. will be held tomorrow afternoon at Freeman's Park, Sixtieth street and San Pablo avenue. The game will be called at 2:30 o'clock sharp.

William Hammond Jr. will twirl for the Alameda lodge and George [illegible] for the local boys. Behind Hammond will be such celebrities as Little Jack Hammond, Ray Croll, Arthur Goldsworthy, Bob Graham, Fred Moore and Ben Boyd, while Fletcher will be supported by Bill Devereaux and Doc Moskiman. I. H. Clay, Harold Ward and James Shanley will handle the money at the gate and will sell peanuts and popcorn between the rounds. Bill Lange will do the umpiring.

The proceeds from the game will be devoted to charity. Every year the Elks have made it a custom to give a dinner to the destitute on Christmas day. This splendid idea will be carried out this year and the ball game will go a long way in raising funds for this purpose.

The teams will line up:

Devereaux	Catcher	J. J. Hammond

BOAT RACES IN ALAMEDA

As an inducement to oarsmen, Mayor Noy, Councilman Sumner Crosby and Joseph Lanktree have offered trophies to the Alameda Boat club for the winner in the single sculls, two oar and four oar races, the events to be pulled off in the near future. The prizes are further given in appreciation of the splendid showing of the boatmen made in the Portola races.

Opening Games in the Indoor Baseball League

The opening game of the indoor baseball series were played last night at Piedmont skating pavilion before a large and appreciative audience.

Athens Parlor and Alpha Camp played the opener and it was by far the best game ever played at the rink. Jimmy Boswell twirled for Alpha and was well supported behind the bat by big Art Jenkins, as well as in the field. He pitched a fine game and had Athens guessing.

Reir and Volquardson were in the points for Athens and put up a splendid game. The playing of Durfee and Krambs for Athens were the features. Athens started strong and was not beaten until the last inning. The score: Alpha 9, Athens 10. Umpires Whalen and Richards. Scorer Stetson.

SECOND GAME EXCITING

The second game was a most stubborn and well fought contest between Peralta Camp and Brooklyn Parlor.

Both teams presented the line-up of last season but showed vast improvement. Brooklyn early took the lead and maintained it until the seventh inning, when Peralta by a fusillade of hits and fine base running made seven runs, making the score 12 to 11 in favor of Brooklyn.

Neither side scored in the ninth and Brooklyn won. McKown at short, and the outfield for Brooklyn played professional indoor ball. Spaulding presented the cup won last year to Athens.

Tonight Oakland Parlor and Alameda Parlor play at 9:15, Oakland and Wedgewood Camps play at 8 o'clock.

Los Angeles Gets New Players for Next Year

LOS ANGELES, Nov. 5.—Many changes will be made next year in the Los Angeles baseball club.

Orendorf goes to the Cubs, Koestner to Cleveland, Hosp to Cincinnati and Beall to the White Sox. In place of these the local management has drafted Criger, a southpaw pitcher from the Jackson, Mich., club of the South Michigan League; Roth, an infielder from the Flint, Mich., team of the same league, and Murphy, an outfielder from the Rock Island club of the Three I League. These were recommended by Orendorf.

Criger is said to be a crackajack. Murphy is a good sticker and an outfielder of class, while Roth is a promising infielder. In addition a catcher named Robinson from Macon, Ga., has been bought.

Hal Chase Billiardist.—NEW YORK, Nov. 5.—Hal Chase, the phenomenal first baseman of the Highlanders, has gone to work for the winter at Johnny Doyle's billiard academy. Even if he was beaten by Mike Donlin in a recent game of three cushion billiards Hal is going to keep busy morning, noon and night.

JUNIORS DEFEAT FRESHIES

The juniors of the Oakland high defeated the freshmen in the first game of basketball for the interclass championship yesterday by the score of 23 to 17. A second game was played between the sophs and seniors, the former winning 6 to 12.

FOOTBALL GAME TOMORROW.

The Rugby teams of Lowell and Mission High will play tomorrow at the Presidio grounds for the championship of the San Francisco sub-league. The winner will meet the best team in the Santa Clara valley sub-league.

THIRD GAME WON BY ATHENIANS

Reidyites Snatch Victory by Great Finish in the Ninth

The invaders were stung again yesterday afternoon at Grove street park in battle No. 3 for the championship of Oakland. The stinging process was delayed until the last stanza, and in a well planned rally the Athenians turned what looked like a two to one defeat into a 3 to 2 victory.

Tyler Christian was on the slab for Bill Reidy's men, Bloomfield for the Invaders, and the pitchers were at their best most of the time. It was Christian's second tussle with the Nealonites and he held them at bay in every round save the fifth and eighth, when he slackened in speed, giving the Moreingites two runs. In the fifth two singles and as many sacrifices resulted in one run for the Invaders and in the eighth three errors were responsible for the losers' second tally. It must also be remembered that Tyler allowed only three hits and ten whiffed the air in making efforts to connect with the sphere.

Bloomfield was twirling brilliantly until the ninth frame when with the bases all occupied and three balls on the batter he was yanked out of the box and Moskiman substituted. "Doc" threw over two pippins strikes but the third ball thrown was met with a rousing smash that carried the contest kerplunk in the Athenians' bag.

Bloomfield struck out nine of the opposing batsmen and probably would have equalled Christian's strike-out record, had not Hackett taken him out.

The fans blazed their ways to the ball yard in big numbers hoping to witness another ten inning affair and in all probability would have had Hap Smith thrown the ball to the plate in the last paragraph instead of to one side.

ATHENIANS SCORE FIRST.

In the opening round the Athenians were first to start the run getting. After Maggart and Duffy Lewis had struck out, Hogan walked, Cameron drove a terrific grounder to Joyce and a wild heave to first followed which easily placed Hogan on third. Kelly came through with the necessary hit and Hogan romped home.

The score was dead-locked by the Invaders in the fifth spasm. Pal Nealon singled to center, Hackett sacrificed his team mate to second and on Campbell's single and Joyce's sacrifice Joe scored.

With both teams fighting neck and neck the Invaders forged ahead in the eighth inning. Joyce was safe on Cutshaw's fumble of his grounder, Bloomfield hit to the same place and Cutshaw again booted. Sheehan ripped the leather to McKune who forced out Bloomfield at second and in an anxiety of having a double play he heaved the ball over Cameron's head and Joyce registered.

In the following frame the Athenians put over the winning run. Maggart soaked Bloomfield for a double to left. Cameron was purposely walked. Thomas, who batted for Kelly, was soaked on the crazy bone, filling the bases. Cutshaw waited for three wide ones and at this junction Moskiman was put in the slab. The third ball pitched was a corking bounder to right which circuited Maggart and Cameron. The Invaders got a man as far as second in the same round but was "stung" for Christian struck out two of their best batters, Nealon and Hackett.

Joe Thomas Wins Easily From Jack Fitzgerald

PHILADELPHIA, Nov. 5.—Joe Thomas, the California welterweight, made a punching bag of Jack Fitzgerald of West Philadelphia last night. Thomas boxed in splendid form, never allowing Fitzgerald to get a lead on him in any round.

Seeks Barry Ketchel Bout.—CHICAGO, Nov. 5.—Teddy Murphy, the boy manager, is out gunning for a match with Stanley Ketchel for his protege, Jim Barry, the Chicago heavyweight. Teddy thinks this would be a most attractive match for either of the coast fight centers and is urging Tom McCarey to get Ketchel to meet the big fellow.

Boxing Show Tonight.—The United Railroads Club offers eight amateur bouts tonight in the gym at Turk and Fillmore streets. Joe Lanum and Roy Kinney meet in the main event for the coast heavyweight title. In a special event Jimmy Melville and William Rennie will clash. A double attraction will be supplied by Eddie Campi vs. Jimmy Dolan, and Eddie Madison vs. George Daley. Four preliminaries complete the card.

Cuban Chess Expert Plays 29 Games at One Time

NEW YORK, Nov. 5.—Joseph A. Capablanca, the 21-year-old Cuban chess expert, has played twenty-nine opponents simultaneously, defeating twenty-six, losing one game and drawing two. Among those whom he defeated were Bradley Martin Jr., former president of the Hastings, England, chess club, and Marcus Smith, ex-champion of Canada. J. A. Christian, the only player to defeat Capablanca, did so in forty-four moves, after a Ruy Lopez opening.

Second Teams Postpone Game to Next Week

The second game between the second teams of St. Mary's and Santa Clara College that was scheduled for yesterday at the Mission institution has been postponed until next Wednesday when the local boys will journey to Santa Clara. On next Saturday many of the second team men in the contests to be held between Santa Clara and the University of the Pacific and St. Mary's and the Reliance Club will be tried out.

Training Table Established. A training table for the Rugby varsity men of St. Mary's College has been inaugurated, the following having signed training rules: Smith, Bell, Clinton, Pantoskey, Bonnetti, Jones, Sheehy, McCormick, Diavilla, O'Connell, Starrett, Dickson, Molloy, Hughes, Leonhardt, McCarthy, Treat and Gibson.

The first basketball team of St. Mary's is scheduled to play the Oakland High School basketballers next Wednesday at the latter's camp.

PEGET DEFEATS FARLEY.

Peget proved invincible in his game with Farley last night at the Oakland billiard parlors. The score was 150 to 117, and tells only in part the troubles of Farley. He couldn't find the balls and the further the game went the smaller they looked until they dwindled to the size of a pea and it required all his ability to count one or two.

Peget on the other hand held up pretty well. His high runs were fourteen and twelve. Farley got twelve in his second inning and thereafter was content with smaller clusters.

The winning average was 2.72, the losing being 2.13.

OFFICERS ELECTED.

At the meeting of the Perdon Baseball Club last Wednesday night the following officers were elected for the next three months:

Robert Waldear, president; Bert Henderson, vice president; Ollie Moore, secretary; Robert Nattinger, treasurer.

It was decided to play the J. Rohans at Eighteenth and Wood a practice game, Sunday 2.30 p. m.

The Perdons having secured the Highland Recreation Park at Elmhurst as their home ground, will issue a challenge to the Culligans for November 14 for a return match, the Culligans having won the last game by the score of 2 to 1 after eleven innings.

McGREEVY GOES EAST.

Umpire Frank McGreevy left last night for Bloomington, Illinois, where he will spend the winter. He is anxious to come out again next spring but that question has not been settled as yet. McGreevy was in the best mood when he left, owing to the fact that he was not called upon to umpire the series between the Athletics and the Angels. Toman got the job.

Plank Shows Angels Few Things About Baseball

LOS ANGELES, Nov. 5.—Eddie Plank showed the Angels a few things yesterday about baseball, planking them 2 to 0 and allowing but six hits. Thorsen was on the points for the locals and outside of the sixth held his opponents away from the run getting column.

Collins commenced the mischief by singling to right and reaching third on Ross' slow fielding. Davis ended the mischief with his homer over the fence.

The visitors showed their class and though there were no particular fielding features the game was interesting all the way through.

BOXING IN NEW YORK AGAIN.

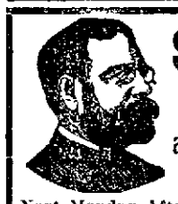

NEW YORK, Nov. 5.—Under the protection of an injunction against the police department, a local boxing club announces several bouts for next week. This move will be watched closely by sporting men, and if there is no interference, it is said other clubs in this city will resume operations. Boxing bouts are being held in other cities in the State and the clubs in Greater New York cannot see why they should not proceed on a moderate scale.

Jack Johnson Buys 70 Miles an Hour Auto

CHICAGO, Nov. 5. — Jack Johnson returned yesterday from Detroit in a big new blue and cream colored automobile which he purchased in that city and says he is much pleased with his purchase. He claims he can go seventy miles an hour "mos' anywhere."

"I've been fined in nearly every town I've been in for speeding," he remarked with mingled pathos and pride in his tone, "an' I don't think it's right. I've never hurt anybody yet."

Johnson's expansive smile was his chief response when the statement credited to Jeffries that he will stop Johnson in six rounds was repeated to him.

"May be the bout will end in six rounds," he said, "but Jeffries has picked the wrong man as winner."

Detroit Tigers Defeat Cubans in Ball Game

NEW YORK, Nov. 5. — The Detroit baseball team, composed mostly of players who took part in the world's championship games, has defeated the Almandares team, which is the best club in Cuba, by a score of 5 to 3, according to a cablegram from Havana.

President Gomez and a large party of other distinguished persons attended the contest. Havana made a holiday of the event, buildings were decorated and street cars were packed with enthusiasts to see the game.

S.S.S. DRIVES OUT RHEUMATISM

When the blood becomes overcharged with uric acid it continually grows weaker, more acrid, and poorer in nourishing qualities. The nerves, muscles and joints, instead of receiving their necessary nutriment from the circulation are gradually filled with the sharp uratic impurity with which the circulation is loaded, and the pains and aches of Rheumatism are the natural result. No amount of rubbing, or the application of external medicines can have any direct and curative effect on the blood; the most to be expected from such treatment is temporary relief from the pains and aches. There is but one way to cure Rheumatism, and that is to cleanse the blood of the uric acid impurity. S.S.S. is the proper treatment, because it goes down and attacks the disease at its head, and by filtering out every particle of the uratic matter and strengthening and enriching the blood, cures Rheumatism in every form. S.S.S. changes the sour, acid-burdened blood to a rich, healthy stream, which quiets the pain-racked nerves, muscles and joints, cools the feverish flesh, gently removes the cause and drives Rheumatism from the system. S.S.S. reaches inherited cases as well as those which have been acquired, and good results are always experienced from its use. Special book on Rheumatism containing many valuable suggestions for rheumatic sufferers and any medical advice free to all who write.

If "the world Owes you"—if "Fortune" is somewhat in your debt—if your "good luck" is overdue—let want advertising help you to COLLECT.
A want ad. will turn things "your" way"—will sell, at a profit, something you are holding at a loss, will "untie" your "tied-up" investments by finding buyers for whatever you have to sell—will, in short, go out and "collect" what "the world owes you."

SANTA CRUZ REAL ESTATE.

FOR SALE.

Beautiful mansion, together with stables and outhouses, belonging to the estate of Margaret McLaughlin, deceased, who was the wife of the late Major Frank McLaughlin, the show place of Santa Cruz, situated on the embankment overlooking the Pacific ocean, as well as the valley and mountains. This beautiful property is surrounded by beautiful grass plots, studded with flowers, rare shrubbery and shade trees and must be seen in order to appreciate its grandeur and loveliness. This property cost McLaughlin $83,000 and is modern in every appointment, spacious and elegant. It is most luxuriously furnished, containing many objects of art and rare treasures.

This property was sold under execution issued on a judgment of foreclosure brought by the Santa Cruz Bank of Savings and Loan. By reason of indifference and meager advertisement of the sale of this very valuable property the bank was able to buy the same at their own price and without opposition, paying therefor $17,800, which is not even one-quarter the value of the property, irrespective of its furnishings.

Any person desiring this property for a home or club will do well to investigate the same and as it is subject to redemption by those interested in the estate and being a creditor to the extent of about $2000, I hereby notify any bona fide purchaser, who will pay a reasonable advance over the sum above mentioned, to make an offer of not less than 10 per cent over and above the amount hereinabove specified and direct all communications regarding the purchase of the place to my attorney, A. A. Sanderson, Russ building, San Francisco, who will give the parties inquiring fullest information regarding said property.

WOMAN ADMITS SHE KNEW ROBBERS

Identifies Picture of Herself Taken With Three Alleged Mail Train Holdups

OMAHA, Nov. 5.—Mrs. Lillian Stevenson, the young woman who was arrested in Denver with the Lawrence Golden or Jack Shelton, as he has been known in the trial of the five men charged with robbing the Union Pacific Mail train here May 22, testified today. She identified a photograph of herself in a fake automobile with Golden, Griggware, Woods and Torgensen. She said the men left Denver in February, saying they were going to Hot Springs, Ark. Golden returned to Denver, May 30, and told her the other men were in trouble, but did not say what the trouble was. He destroyed two photographs similar to the one she identified and letters she had received from Golden, Woods and Torgensen.

H. B. Mostby of Washington, a post-office inspector, told of a conversation he had with Golden after the latter's arrest. He said Golden told him he left Omaha on advice of a lawyer to avoid trouble, but that he could prove an alibia as to the train robbery.

ALAMEDA MAN CANNOT GET CHANGE OF VENUE

SAN FRANCISCO, Nov. 5.—Fred C. Howard, a local merchant, resides at 189 Santa Clara avenue, Alameda, but is registered as an elector of San Francisco. Accordingly he was unable to secure a change of venue from Judge Graham today in connection with his wife's suit for separate maintenance.

The court tried to affect a reconciliation on account of their children, a boy of 13 and a girl of 10, but the wife stated that owing to Howard's attention paid to other women, she would not take him back. He is possessed of considerable property here. The court took the matter under advisement.

GUN TOTING PAIR ARE ASSESSED $100 FINE

SAN FRANCISCO, Nov. 5. — One hundred dollars or 200 days in the county jail was the fine imposed in the police court this morning upon Alfred Zelga and Gracia Jordan for the sometimes called minor offense of carrying concealed weapons.

The fine was made heavy on the request of Chief of Police Cook, who declared that there has been a great deal of trouble in the Glen Park neighborhood where the two men were arrested, which must be stopped at all costs.

SALES OF STOCK IN WALL STREET

NEW YORK, Nov. 5.—The stock market is following natural lines, with the comparative position of rails and industrials gradually shrinking in favor of the latter. There was some profit taking in Amalgamated Copper, which is nothing unusual after an advance of almost 10 points. The stock will be taken up again, as will all the metals and equipment shares. We may expect some recessions now and then, but they will be made the basis of new buying in this group. While I do not look for the much-talked of merger of coppers, I have, reason to believe that a strong trade agreement, which will do away with extravagant fluctuations in copper metal prices, will soon be effected.

We have probably seen about the end of 13c copper. Amalgamated is earning now on 13c copper about 6 per cent on the price of the stock.

There is still a good selling of high priced railroads on the hard spots. No change in position. Advise sales of railroads on advances and purchases of industrials on little declines. —Gibson.

NEW YORK, Nov. 5.—Speculation has centered to a great extent in the industrials, led by Steel, and in most cases prices in this division were higher. Railroads were neglected and had a sagging tendency. New stock is now to be only moderately received and resulted in selling rather than buying of the issuing properties. Industrials specialties will probably be kept active and advanced when possible, but operations are to a great extent professional, and this is liable to cause much irregularity. Am not particularly bullish and would only buy stocks on recessions for moderate profits.—McClellan.

NEW YORK, Nov. 5.—Opening dealings in stocks today were light and the movement of prices narrow and irregular. Pacific Mall and American Cotton Oil rose ⅝, and American Sugar fell a point. Otherwise the changes were limited to small fractions. Dealings in the industrials and specialties outshadowed the operations in the standard railroad stocks. There was a brisk demand for a time for Reading, Union Pacific and Southern Pacific. Colorado Southern rose 3, American Hide & Leather preferred 2½, American Cotton Oil ½, Reading, Union Pacific, Allis-Chalmers, Westinghouse Electric 1½, Southern Pacific 1⅛, Colorado Southern preferred, Colorado Fuel, General Electric, American Beet Sugar, Western Union and Virginia-Carolina Chemical preferred 1.

The rise carried Union Pacific up 2¼ and Reading 2 points and there were advances in special stocks later. The general list became irregular. Missouri Pacific rose 1¼, and St. Paul, Wabash preferred and International Harvester 1. Pennsylvania declined 1 and American Express 3.

The tone was steady at noon. Bonds were firm.

Weakness in some of the railroad equipment stocks was ignored and the railroad leaders went higher. Union Pacific was the feature, advancing 3 points. The Hill group also was strong and the grain carriers generally moved up. Reading second preferred gained 2 points, and Great Northern preferred, Northern Pacific and Erie second preferred 1.

The market closed weak. After 2 o'clock Union Pacific was carried up 2 and St. Paul 1. Central of New Jersey rose 4. Prices ran off before a movement to realize profits.

WHEAT MARKET

SAN FRANCISCO GRAIN MARKET

SAN FRANCISCO, Nov. 5.—Wheat—Easy; no trading; cash, $1.80@1.85.

Barley—Firm; May, $1.51; December, $1.46½; cash, $1.48¾@1.45.

Corn—Steady; large yellow, $1.70@1.75.

PORTLAND, Nov. 5.—Wheat, track prices—Club, 93c; bluestem, $1.04; red Russian, 90c; Turkey red, 92c; forty-fold, 95c; Fife, 91c.

CHICAGO, Nov. 5.—It was the gossip among wheat traders after the close last night that the market might have some further rally after the five-day break. Prices are off over 6c from the high point made for December, but the belief existed among a great number of traders that advances would not last more than a day or two unless there is great improvement in cash and a let-up in receipts. Nearly all the large local professionals who have been aggressive on the selling side for several days said they had covered their shorts during the day, and they attributed the rally of 1c from the low point to such purchases. Bear leaders were said to have bought December and sold May on a large scale, putting the December in a weaker position because of the reduction in short interest.

Corn specialists are mixed. There are few who are bullish, but a majority are bearish. There is an immense short interest, and it is the common talk among most of the cash houses that this is not the season to buy corn, and even they have sold. It was general gossip that the bears were evidently playing a waiting game with expectation of tiring out the bulls.—Inter-Ocean.

CHICAGO, Nov. 5.—Although trading in the wheat market was quiet early in the session today, sentiment in the pit was moderately bullish because of an advance of ⅝@¾d in the Liverpool market. The December and May deliveries at one time were at a parity but the nearby option was relatively heavier. December gained ¼c to ⅝@¾c, selling at $1.02¼@1.02⅝. After touching $1.02¼ the December option dropped back to $1.02¼.

A weak tone developed during the final hour and December closed weak ⅝c lower at $1.01⅝.

An improved demand for cash corn created moderate bullish sentiment in the corn market. The December delivery opened unchanged to ⅛c higher at 58⅜@58⅝c and sold at 58⅜@58½c.

Oats were quiet and steady. The December option opened unchanged at 39¼c and sold later at 39⅛c.

December closed easy ⅛c lower at 58⅛c.

The feature of trading in provisions early in the day was a scramble among foreign shorts to cover sales of November lard. Prices at the start were unchanged to 27½c higher.

The closing quotations were as follows:

Wheat—December, $1.03⅝; May, $1.01⅞; July, 95⅛c.

Corn—December, 58⅛c; May, 60¼@60⅜c; July, 59⅜@59⅝c.

Oats—December, 38⅝c; May, 42⅛@42⅝c; July, 39⅛@39⅝c.

Pork—January, $20.07½; May, $19.70.

Lard—November, $12.70; January, $11.75; May, $11.35.

Short ribs—January, $10.35@10.37½; May, $10.27½.

LIVERPOOL, Nov. 5. — The surprising strength displayed in American markets yesterday in the face of heavy receipts started shorts to covering here at the opening and values were ¼d to ⅜d higher in the distant months. Following the opening and during the morning December was well supported and this strength caused a general advance of ⅜d from the opening, with offerings light. The strength in Winnipeg and the firmness of both La Plata and Manitoba offerings and the continued disappearing stocks here caused general support. It is expected that the shipments other than from America will be small this week, which will mean a further decrease in the European visible supply, and from reports received here by private firms the Argentine exportable surplus will not exceed that of last year. At midday the market was steady and ⅜d to ½d higher. Corn was quiet all during the session with no change in price. The market was wholly neglected.

Argentine shipments of wheat this week, 368,000 bushels. Last week, 144,000 bushels. Last year, 464,000 bushels.

Corn this week, 1,244,000 bushels. Last week, 880,000 bushels. Last year, 1,332,000 bushels.—Broomhall.

Liverpool wheat prices: December 7s 9½d; March, 7s 6⅝d, up ¼d; May, 7s 6⅛d, up ⅜d.

LIVERPOOL, Nov. 5.—Opening: Wheat, ¼d higher; corn, unchanged. At 1:30 p. m.: Wheat, ⅜d to ½d higher; corn, ⅛d lower.

LIVERPOOL, Nov. 5.—Wheat—December, 7s 9½d; March, 7s 7⅛d; May, 7s 6⅛d. Weather foggy.

HYPNOTIC EYE WAS HIS UNDOING

Different Tales of Woe Basis for Divorces in Courts Today

SAN FRANCISCO, Nov. 5.—Unable to stand the hypnotic eyes of her husband, who was in the habit of sitting and glaring at her and refusing to speak to her, Clara Pearson was constrained to bring suit for divorce, and was granted a separation yesterday by Judge Graham.

She asserted also that her husband told her that if she did not like his manner she could leave, and he threatened to throw her personal effects out of the window after her.

TOOK HIM TO WORK.

Testifying that in order to prevent her husband from arriving intoxicated at his work she accompanied him to his place of employment, and saw to it that he entered no saloons en route. Mrs. Mary Graves occupied the witness stand in Judge Graham's court yesterday in a suit for divorce against William J. Graves.

She declared also that she had endeavored to reform him several times, but that he had reciprocated by trying to make her drink also, and that when she refused he would dash the liquor in her face. She was granted a separation.

SHE LOVED ANOTHER.

His name was Jonah, and he proved a Jonah in the true sense of the word to Nathan Skalca, who yesterday received a divorce decree at the hands of Judge Cabaniss from his wife Bertha. The couple were married in Stanislaus, Austria, twelve years ago, and some time since Bertha became enamored, according to her husband's story, with a man named Jonah, who, being an affinity of many accomplishments, won her heart completely, and to be by His side she abandoned Skalca.

ABUSED ON HONEYMOON.

Alleging that her spouse refused to allow her to go out with her relatives and otherwise acted in a cool manner toward her, Mrs. Nellie S. Dunbar brought suit for divorce yesterday against Lee A. Dunbar. The first week after their marriage, on January 30, 1908, it is claimed that Dunbar abused her cruelly, and that later on in April in Sonoma county, when she threatened to leave him, he told her that she would never depart from her house alive.

Ernest W. D'Orbrain instituted divorce proceedings against Edith D'Orbrain, to whom he was married in England in 1902, on the ground of desertion.

ROSEVILLE TO REDUCE NUMBER OF SALOONS

ROSEVILLE, Nov. 5.—At a meeting of the business men of this city preliminary steps were taken to organize a Citizens' League to handle matters of moment involving the affairs of Roseville that cannot or are not handled through the regular official channels. This step has been taken in order to assist the Southern Pacific Company to secure the removal of several saloons that have been permitted to gain a foothold in the midst of the company's shop district, interfering with its operation of both shops and trains, and causing the dismissal of a score of employes for intoxication or too free use of liquor during working hours.

Superintendent Sheridan of the Sacramento division has asked the city to control its saloon evil and remove offensive ones, and states plainly that additional shops that had been approved for construction here will be withheld until the reform step is taken.

The Citizens' League has not yet determined whether to work for a reduction in the number of saloons from twenty to six or for their abolition.

REWARD IS PLACED ON HEAD OF FIREBUG

SACRAMENTO, Nov. 5.—A reward of $500 has been offered by the Retail Merchants' Association for the arrest and conviction of a firebug who has been applying the torch to barns in this city, resulting in the destruction of many thousands dollars' worth of property and endangering the lives of many persons. Other organizations having valuable interests will be enlisted in the cause, and it is probable that the reward will be swelled to a large amount.

For many weeks the police and fire departments have been aware than an incendiary was operating here, but every attempt to run down the pyromaniac has resulted in failure. Clews have been followed, but the firebug has mostly operated in the very early morning hours, thus covering up almost every possibility of detection.

Kills Her Foe of 20 Years.

"The most merciless enemy I had for 20 years," declares Mrs. James Duncan, of Haynesville, Me., "was Dyspepsia. I suffered intensely after eating or drinking and could scarcely sleep. After many remedies had failed and several doctors gave me up, I tried Electric Bitters, which cured me completely. Now I can eat anything. I am 70 years old and am overjoyed to get my health and strength back again." For Indigestion, Loss of Appetite, Kidney Trouble, Lame Back, Female Complaints, it's unequaled. Only 50c, at Osgood Bros.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by Osgoods' Drug Stores.

ROUGH RIDER AND FEUDIST JAILED

Survivor of Famous Hatfield Family Sentenced for Eloping With Girl

LOS ANGELES, Nov. 5.—With an ingenious but eloquent plea that he had committed a crime and was willing to take his punishment, but imploring the court to release him from prison before he became a gray haired old man, J. W. Hatfield, one of the last survivors of the famous Hatfield-McCoy feud of Kentucky, and a Rough Rider who fought at San Juan, told Judge Davis today in the Superior Court that he had run away with 14-year-old Pearl Eastman of Ventura county because he wanted to marry her, and was sentenced to five years in San Quentin. It was the minimum sentence under the law.

PATHETIC PLEA.

Hatfield's brief and simple recital of the story of his life brought tears to the eyes of the court spectators.

"I have done wrong," the prisoner said, "and I want to be sentenced, Judge, and to serve a prison term but I don't want to come from prison a white haired man. I want a chance to be a good citizen and to help my old mother when I come out. I wanted to marry this girl. She was willing but her grandparents would not let me. I was a hired man on their place at Ventura.

MARRIAGE OPPOSED.

"When her grandfather opposed our marriage we ran away. Back in Kentucky that was no crime, and I always have wanted to marry the girl.

"My father was killed from ambush by one of the McCoys. My mother has no one left to support her. I served in the Spanish war at San Juan Hill. I have been a ranger in Texas and Arizona and have been a deputy sheriff in California. I know I have violated a law and want to pay the penalty."

He accepted sentence without a word.

WILL RESUME WORK ON CALIFORNIA MIDLAND

MARYSVILLE, Nov. 5.—After a suspension of construction on the line of the California Midland Railway Company between this city and Hammonton of over a year and a half, work is to be resumed within the next two weeks. Promoter John Martin has made arrangements with the Northern Electric Company to enter this city over the electric company's bridge. The grade between this city and Hammonton is practically completed and the only work that remains to be done to complete the road is the laying of the track. That portion of the grade which was washed out last winter by the high water has been restored.

STATE DEPARTMENT MAY EXAMINE COOK'S RECORDS

WASHINGTON, Nov. 5.—"Let scientific American examine Dr. Cook's records" is in substance the message which the State Department was asked today to transmit to Copenhagen.

"Gun shooting" through the halls of the State Department is the best way to describe the visit of the committee of the National Geographic Society to the Assistant Secretary of State, Huntington Wilson.

The matter was taken under advisement pending a decision which hinges upon the possible committal of the department in favor of Peary against Cook.
